Remember that Customer's use of the Service is at all times subject to Customer's service agreement, which incorporates this Privacy Policy by reference, and to Sky Wireless's Website Terms of Use (<https://www.sky-wireless.net/legal/broadband-internet-acceptable-use-policy/>). Any capitalized terms not defined in this Privacy Policy will have the same meaning as defined in Customer's service agreement and Website Terms of Use. Sky Wireless Services are designed and targeted to U.S. audiences and are governed by the laws of the U.S.

When Customer uses the Service, all information the Customer sends and receives is transmitted over a wireless network and may be subject to interception by unauthorized third parties who seek to do you harm. Sky Wireless may combine Customer Personal Information with additional Personal Information obtained from Sky Wireless Facebook Pages or other social network platforms, its affiliates, its Operational Service Providers (third party owned companies that provide or perform services on Sky Wireless's behalf), or other companies, such as credit bureaus, background check firms, and marketing research companies.

Some forms of Non-Personal Information as described below will be classified as Personal Information if required by applicable law or when such information is directly associated with or reasonably linked to a specific person, Non-personal Information with other forms of Personal Information.

Customer can change the preferences on Customer's browser or device to prevent or limit Customer's device's acceptance of cookies, web beacons or other similar technology, but this may prevent Customer from taking advantage of some of the features on the Sky Wireless website or accessing certain functions and conveniences. If Customer clicks on a link to a third-party website or service, such third party may also transmit cookies to Customer. This Privacy Policy does not cover the use of cookies, or other such tracking technology used by any third parties, and Sky Wireless is not responsible for their privacy policies and practices.
