# INSTANT FILM HOLDER FOR HOLGA120

Instructions for the instant film holder for HOLGA120 series

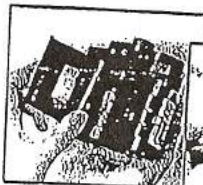

This is an instant film holder for HOLGA120 series that can accommodate film format 8.5x10.8cm (however, you cannot take full frame image).

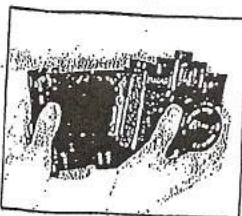

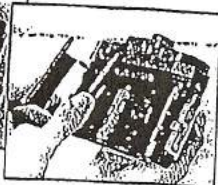

8.5 x 10.8cm Format  
(Image Area: 7.3 x 9.5cm)

FP-100C, FP-100B, FP-400B,  
FP-3000B

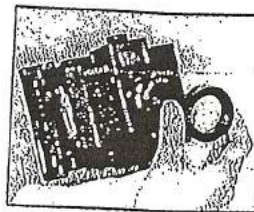

## 1. Before taking a photograph using the Instant Film

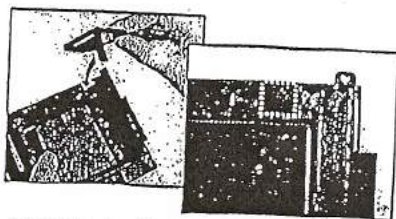

Replace the frame already fixed to the camera with the 6x6 frame included with the holder. Fix to inside of camera.

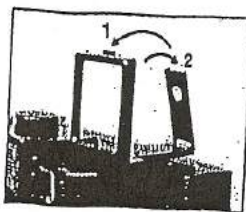

Replace the back cover of the camera with the instant film holder.

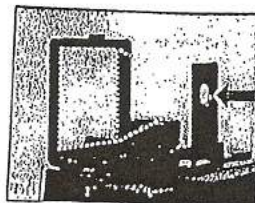

Always cover the lens of the camera with the attached correcting lens.

Attach the viewfinder before mounting the film holder on HOLGA120. (Peel off the seal and paste on the dotted line area.)

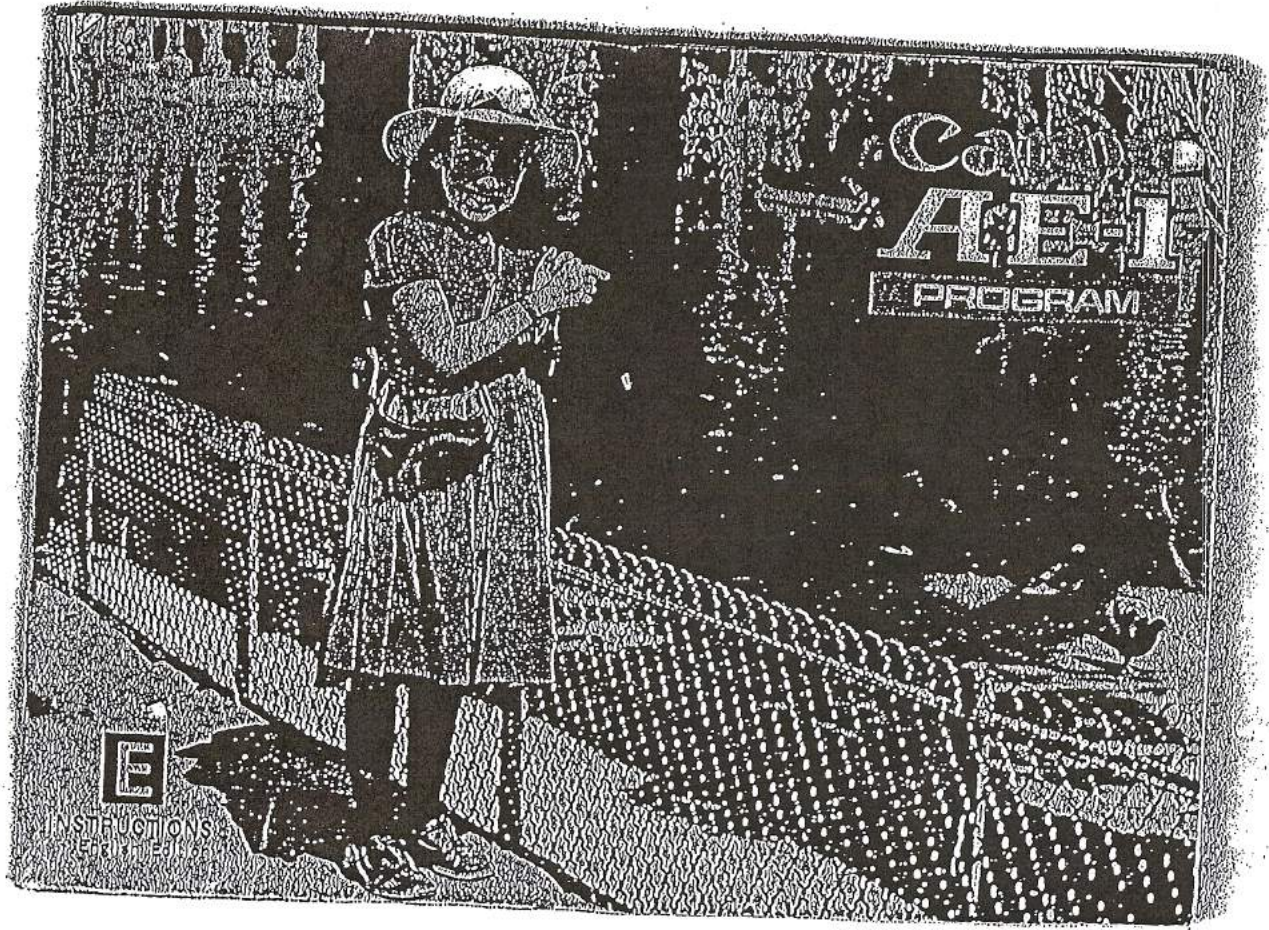

Set up the viewfinder.

View through the circle then the image area would be within the square.

**Notice: The viewfinder is not exactly the same as what you shoot.**

## 101 IMPOSSIBLE LESSONS

### LESSON #1 SHIELD YOUR IMPOSSIBLE IMAGES

The basics: Impossible images are sensitive to light during the first seconds outside of the camera.  
Your task: Shield them the moment they eject from the camera and during the first 4 minutes of development.

For detailed shielding techniques visit  
[www.the-impossible-project.com/lesson1](http://www.the-impossible-project.com/lesson1)
