

Koch Cabinets

Liberty - Birch - Briarwood and Mesa - Paint Grade - Black

Mesa - Paint Grade - Dusk and Liberty - Birch - Driftwood Island

Liberty - Birch - Driftwood and Mesa - Paint Grade - Fog

The Mesa & The Liberty

Koch Cabinet's slab doors are streamlined and contemporary to provide the popular minimalistic design that is so sought after. Slab doors have also been referred to as mid-century modern, a post World War 2 description that was used when the style became popular. The Mesa door is only offered in Paint Grade material with eight different paint options.

The Liberty has five different wood species with twelve stain choices and eleven paint color options. Stains will be specific for each wood choice and not available on every species. Paints are only available on Rift Red Oak.

Pecan is a gorgeous stain that was introduced in 2020 and is quite popular. The rich tones add beauty and sophistication to all the wood species it is offered in.

The Omega Range Hood, Farmers Sink and the X-Mullion doors add additional stunning features that add flair and personality to this kitchen.

Through the open doors you will see an office area and a fantastic landing space design in the mud room. This family's dream kitchen became a sensational reality.

Savannah

Paint Grade - Ivory
and Maple - Pecan

SAVANNAH15

PAINT GRADE - TAUPE
& CHERRY - BRIARWOOD

This contemporary kitchen features the Savannah15 door style, combining the beauty of Taupe paint and Cherry with a Briarwood stain. It creates such a warm, cozy feeling that guests will be reluctant to leave.

The stunning range hood was accented with the stained Cherry by making use of fillers, light rail, and scribe with the Briarwood stain. Built in ovens, microwave and a pots and pan base topped with a gas range would be the envy of any chef.

The China Door cabinet adds a stunning look that makes this kitchen a showstopper.

The combination of quality materials and superior construction methods come together to create cabinetry that has the style and glamour of fine furniture.

Quality of work and service is a matter of personal pride for our Koch Cabinet's skilled craftsmen.

We believe Koch and Company's American made cabinetry is the best in the world!

Other Rooms

Endless Possibilities

Every room in your home can be as beautiful and unique as your kitchen

Our hand crafted cabinetry will enhance your media room, home office, bathroom, closet, entertainment center, living room, bar area, entry way or any room in your home. Make a lasting impression throughout your home as your family and friends gather together to create memories.

Prairie

PAINT GRADE
WHITE

THE ELEGANCE OF WHITE

This style and color is one of the most elegant choices you could make. It creates a spacious look that is modern and inviting.

The crown riser combined with a mid shaker crown is a classic clean look. Five piece fronts and appliance panels for the refrigerator adds to the beauty of the space.

Over the past several years, white cabinets, and versions of white, have become extremely popular in kitchens. The new trend is to add pops of color, or contrasting colors, on some of the cabinets to let your home's personality shine. Koch Cabinets offer fifteen variations of paint colors; Black, Capri, Foxhall Green, Oyster, Charcoal Blue, Dusk, Fog, Ivory, Taupe, Smoky Blue, White, Fog Drift, Capri Drift, Dusk Drift, and White Drift.

Your kitchen is truly an investment that will enrich your home with love and laughter through the years.

It is the place where friends and family come together for gatherings and special occasions.

Actual finishes and variations in wood species may differ from photography shown. See your dealer for product sample.

DOOR AND DRAWER OVERLAY OPTIONS

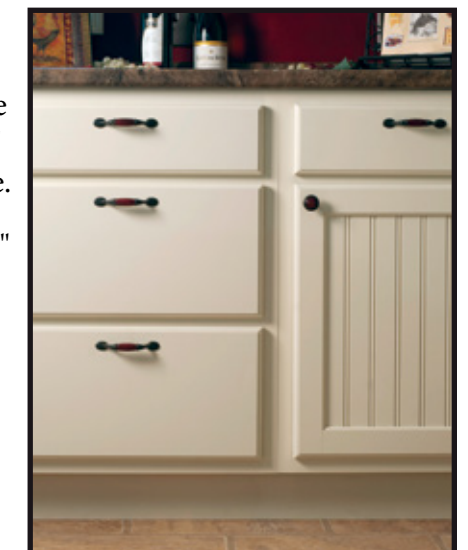

Modified Full Overlay

The term "overlay" refers to the amount the cabinet door (and drawer front) overlays (or hangs over) the cabinet frame opening. Koch frames are typically 1 3/4" wide and two overlay options are available.

Our standard overlay generally covers 1/2" of the frame, leaving 1 1/4" of the frame exposed. The Mod-Full overlay option will generally cover 1 1/2" of the frame, leaving 1/4" of the frame exposed.

Note: There can be some exceptions with certain cabinets. Check with your dealer for more information.

Rustic Woods

Doors made with rustic woods may have knots, mineral marks, blemishes, and character spots. The amount of characteristics are random so no two doors will be exactly the same, making it a unique and beautiful product. There is no minimum or maximum amount of characteristics in a door.

Wormholes Knots Mineral Streaks

Distressing

Finish Techniques

DISTRESSING:
Our distressing technique creates a unique look with cracks, dents, nicks, and wormholes, giving the appearance of aged wood.

RUB THROUGH:
Allows the natural wood color to show through the finish or paint.
