

Great Planes JU-87 Stuka Storm Trooper ARF

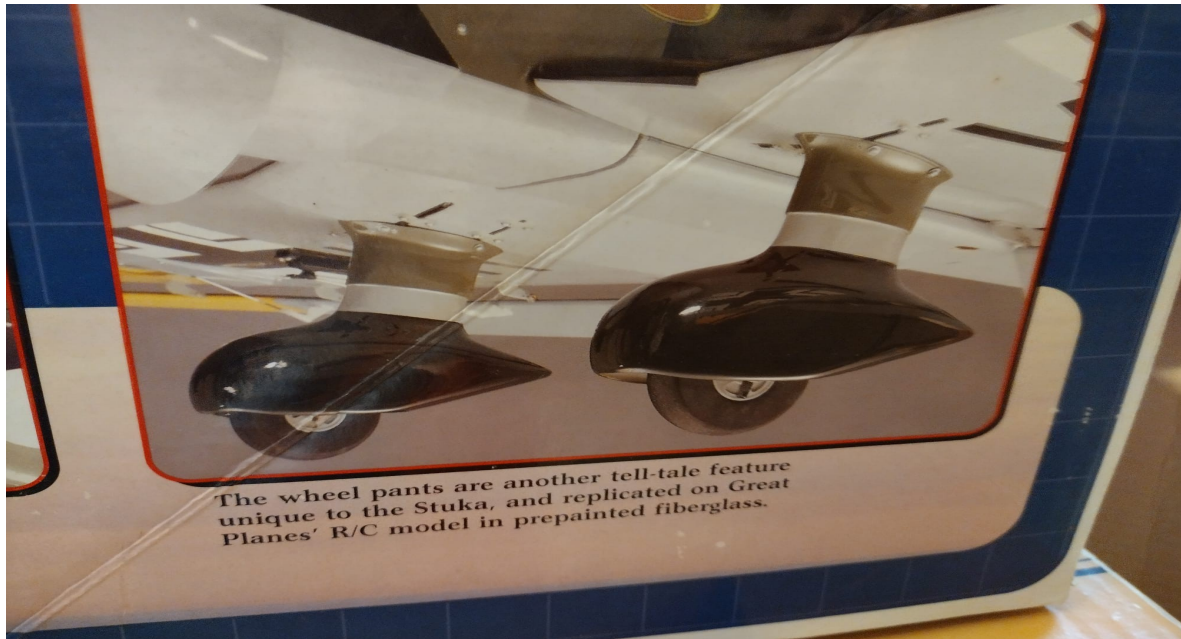

Almost-Ready-To-Fly (ARF) 60-size radio controlled Great Planes Stuka "Storm Trooper of the Skies" warbird.

RARE. New In Box

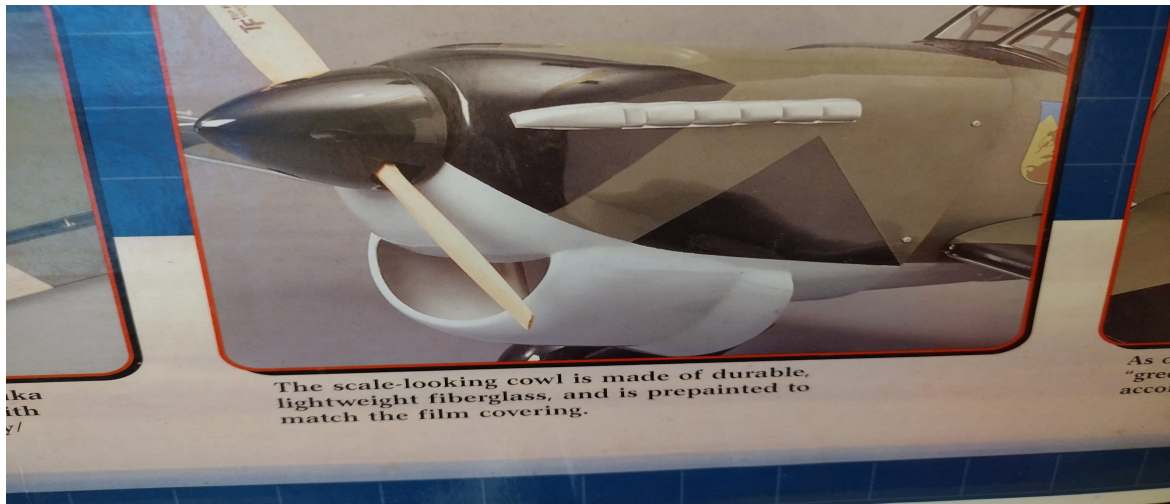

Tower Hobbies offered a limited release of this plane.

Asking \$500

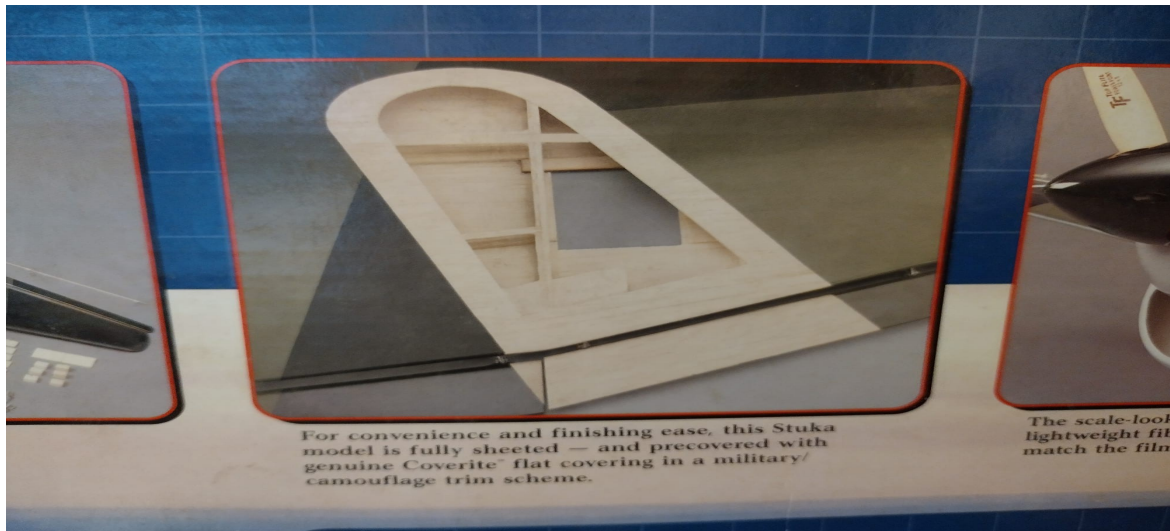

The wheel pants are another tell-tale feature unique to the Stuka, and replicated on Great Planes' R/C model in pre-painted fiberglass.

The scale-looking cowl is made of durable, lightweight fiberglass, and is pre-painted to match the film covering.

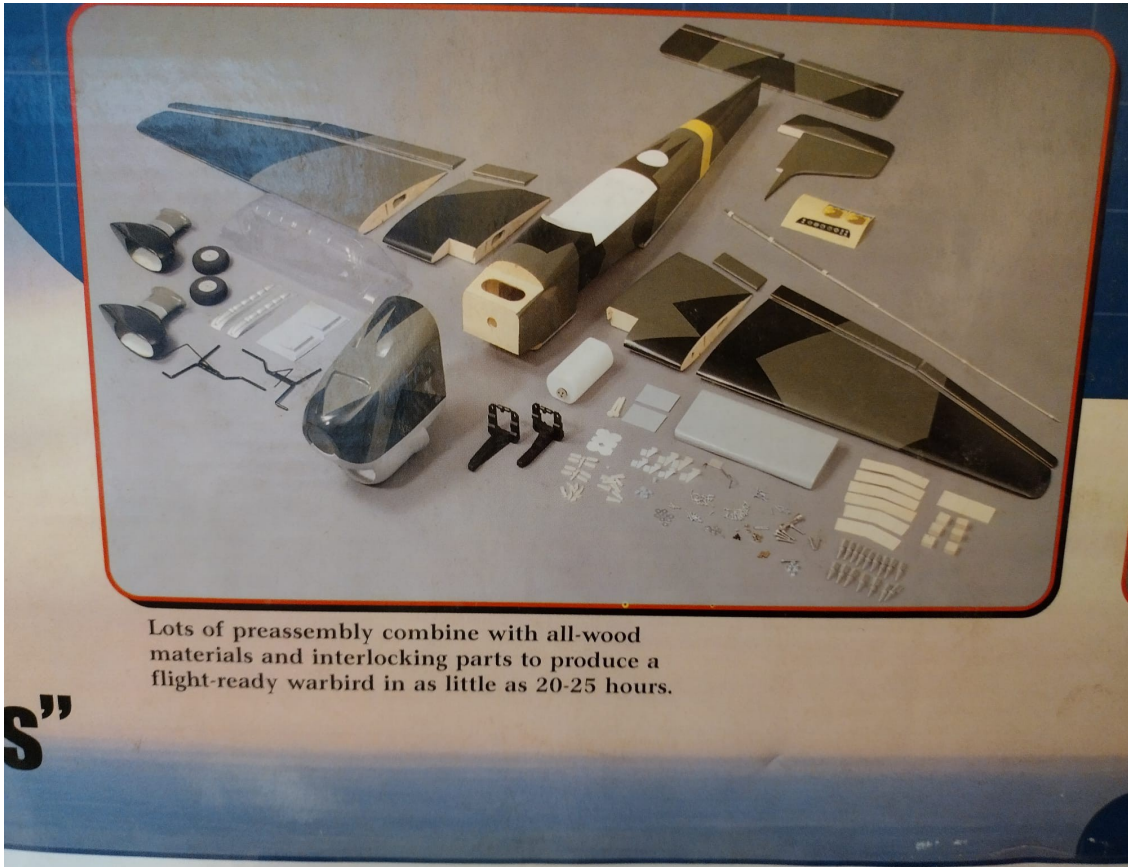

For convenience and finishing ease, this Stuka model is fully sheeted — and pre-covered with genuine Coverite® flat covering in a military/camouflage trim scheme.

The scale-looking lightweight fiberglass cowl matches the film covering.

As on the full-size plane, this ARF features a "greenhouse"-shaped canopy that will accommodate two pilot figures (not included).

The w
unique
Planes'

Lots of preassembly combine with all-wood materials and interlocking parts to produce a flight-ready warbird in as little as 20-25 hours.

SAFETY PRECAUTIONS

- This radio control model is not a toy.
- First time builders should seek advice from people having building experience in order to assemble the model correctly and to produce the performance to full extent.
- Assemble this kit only in places out of children's reach.
- Take enough safety precautions prior to operating the model. You are responsible for the model's assembly and safe operation.
- Always keep the instruction manual handy at hand for quick reference, even after completing the assembly.
