Garden State Lumber now offers PVC mouldings, trim boards and sheet goods prefinished in any PPG Paints color of your choosing. Avoid the hassle and time of painting on-site and get a consistent, high quality manufacturer finish with a limited lifetime warranty.

GARDEN STATE LUMBER COLOR RECOMMENDATIONS

The following color recommendations have been carefully selected to match the most common siding and window manufacturer color palettes available in the market.

OR GET CUSTOM COLORS

We can pre-finish to any PPG Paints color of your choosing using the PPG color code.

** All pre-finished color PVC products finished on 3 sides, face and 2 edges*

** Garden State Lumber recommends ordering an additional cushion of 5-10% of material to make sure jobs needs are covered*

- The durability of NuCedar Trim color is achieved through a unique surface technology developed in conjunction with PPG Paints.
- NuCedar Trim's unique finish protects the PVC core against UV exposure, so that it never warps or twists in the sun.
- The water-based, solar-reflective coating is extremely durable and will not peel, crack or chip.
- NuCedar Trim carries a limited lifetime warranty on both the material and the finish.
