### Product Review – 2THUMB Putter Grip

This review will focus on the 2THUMB putter grip that is marketed as “THE GRIP THAT WINS”. The OG Taper Lite 43 grip is currently used by 4x DP World Tour winner, Matt Wallace. The sample that I will be reviewing is the Pistol 7E | 32 grip which has a more traditional pistol profile than some of their other options.

#### Product Description

Directly from 2THUMB’s website, “The unique design of the Pistol 7E offers 7 contact points for the ultimate feedback and feel from a putter

grip. The distinctive "V"-back technology aids consistent hand placement whilst the non-taper design creates even grip pressure with both hands and by doing so reduces any potential wrist action. With Dimax technology giving you the traction when needed down both sides of the grip and a smooth soft-touch front, you have the perfect combination.”

#### Product Availability

2THUMB offers the pistol version in three models varying size and weight.

Model	Width x Depth	Weight
PISTOL 7E 26	W26 mm x D25 mm	85 grams
PISTOL 7E 29	W29 mm x D26 mm	44 grams
PISTOL 7E 32	W32 mm x D26 mm	45 grams

The core size of all 2THUMB grips is 0.580 inches / 14.73 mm and they retail for \$35. A bonus is when you purchase a 2THUMB putter grip, they send you a branded poker chip ball marker free of charge!

#### Product Performance

On to the testing! In order to reduce the number of variables in the data, I took two identical Odyssey 2-Ball

F7 putters with the same length, loft, and lie installing a 2THUMB pistol grip on one and a traditional pistol grip on the other. I then took each putter to a local practice green and began the testing.

In terms of the parameters for the testing, I selected six putt distances (3’, 5’, 10’, 15’, 20’, and 30’) and hit ten putts with each putter at every distance. I charted the make

percentage and average proximity to the hole on misses. The results are below:

Putt Distance	Make Percentage		Proximity to Hole	
	2THUMB Pistol	Traditional Pistol	2THUMB Pistol	Traditional Pistol
3'	100%	90%	0"	2"
5'	70%	60%	4"	3"
10'	50%	50%	4"	6"
15'	20%	40%	13"	12"
20'	30%	30%	16"	20"
30'	10%	0%	26"	30"
Average	47%	45%	10.5"	12.2"

Overall, I made 2% more putts and was 1.7” closer to the hole on misses with the 2THUMB Pistol grip. The statistical improvement isn’t eye popping, but the nuances are important. I noticed improvement on shorter and longer putts with the 2THUMB Pistol grip where the traditional grip felt better on the intermediate lengths. I could definitely see the 2THUMB grip in my bag!

#### Product Ratings

- Looks: ★★★★★☆
- Feel: ★★★★★☆
