

James “Sunny Jim” White is a singer songwriter who calls up sea breezes, palm trees, sandy beaches and good tropical vibes in his live performances. His original music is a blend of influences developed in Texas, the West coast and the Caribbean. Born in San Antonio, raised in California, James began his musical career in music scene of Northern California.

A move to Nashville landed him a year-long band gig in the Cayman Islands, where he found his niche. James spent 12 years in the Cayman Islands as a solo artist. It was in the Caribbean that he picked up his moniker, Sunny Jim. Sunny Jim's live performances include guitar, steel pan, vocals and backup tracks.
