

Subject: MCJ Fabrications Sales Team

Dear Sirs & Madams,

It is with great sadness that our Mr Jarvis Parsons retires at the end of May.

He has been a senior member/shareholder and Director for the last 15 years and has worked within the fabrication industry for 48 years.

We will sincerely miss Jarvis, both MCJ and myself as we have had a lot of fun along the way and Jarvis plays a particularly important role within our company, but it is also nice to see him being able to retire in good health and spirit to enjoy all the things Jarvis enjoys. Golf, gardening, and a good red wine.

The company will miss him dearly and I will be staying in touch with Jarvis on a personal level. This is a normal situation for all companies / teams, we must make way for young blood and ensure they carry forward the good work Jarvis has made his team and clients accustomed to.

MCJ have been mentoring and training Julian Ryder over the last four years and I am very confident he will be able to follow in Jarvis's footsteps. Julian will now lead the sales team along with Rikki Davidson whom as been with us for 9 months. Please see all contact details below.

MCJ Fabrications would like to thank you all for your business and support over the years and hope we can continue to service your projects moving forward.

Yours Faithfully

Mick Fortune
