

# Past Performance

## Justus Corporation

### Operations (United State Department of Agriculture)

Operational Support Maintain and respond to incidents related to the operations of the USDA/CTS Network Operations Center. Delivered support services related to the following:

- Manage, Maintain HQ-MAN network.
- Maintain, monitor, and support HQ-Man network routers, switches.
- Maintain, monitor and support GFE Wireless infrastructure.
- Provide HQ-MAN network and video security.
- Provide business continuity and resiliency in case of systems interruptions.
- Provide remote access to CTS customers and HQ-MAN resources.

### Engineering (Security Exchange Commission)

Plan and implement network related activities, ensuring successful delivery of projects and services, including:

- Plan and implement improvement, modification, and/or replacement of network infrastructure components.
- Conduct research on network products, services, protocols, and standards in support of network procurements.
- Install, configure, and maintain network services, equipment, and devices.

### Network Support (National Mediation Board)

Provided network support and assisting with installation of new circuits at locations. Network reconnaissance and documentation of the NMB remote offices. Re-architected the network environment, network upgrades and operational support. Troubleshooting day to day operations. Monitor system performance documenting issues for future reference and resolution.

### Network Support (Federal Deposit Insurance Corporation)

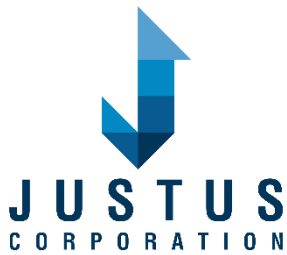

Provide technical assistance to the Network Engineer on the project for the design and installation of new technologies as well as providing next level support to Network Architects. Includes performing the planning, coordination, configuration, installation, and management of all data and network infrastructure and related client services within the enterprise to meet operational requirements related to Building Management Systems.

### Network Support (National Archives Records Administration)

Manage day to day operations of the Cisco centric NARA infrastructure. Overseeing 30 + sites of the CONUS. Spearheaded the SD-WAN migration to the EIS mandated contract transitioning from the legacy NETWORKX contract. Develop and maintain network diagrams utilizing security best practices. Lead migrations of Cisco Prime to Cisco DNA and legacy Cisco switch refresh. Implemented data center refresh by leading effort on installation of the Cisco Data Center ACI solution.

# Capability Statement

Justus Corporation

--- Let us build the infrastructure for your success! ---

## Networking Modernized

Justus is a network and infrastructure operations company whose mission is to provide excellent information technology services to our customers. We focus on delivering holistic business solutions by aligning people, processes and technology.

Our reputation of excellent service and forward-thinking work models alleviate today's day-to-day IT-related issues allowing clientele to focus on business growth.

Justus technical services bring our clients excellence of intelligent innovation. Our strategy brings scalability, speed, cost efficient, mission focused solutions. We proactively evolve and support your network from the physical layer to the top of your infrastructure. Our flexible architectures will ensure seamless integration of legacy networks while keeping your environment functioning optimally. Justus is Networking Modernized.
