#VitaminG

Abundance in Gratitude Equals Abundance in Life

Sounds simple right? That's because it is.

I am revealing this simple formula that will transform your life. Say it out loud, write it down, think it, feel it, breathe it. **Gratitude**. Start with the attitude of gratitude every step you take. Stop focusing on the problems, focus on the solution. And the solution is simple; I already gave it to you.

I like to think of gratitude as one of the master concepts when it comes to allowing us to live the very best life.

An abundance in gratitude equals an abundance in life.

And let me tell you the impact it will have in your life is profound. It's the energy you are focusing on and attracting to you. By now you have heard about the law of attraction. Well, if you want to be surrounded by problems you can continue whining about this, complaining about that and wallowing in self pity. Holding onto grudges and living in the past. Rest assured you will be trying to stay afloat in a swimming pool of draining energy.

is that really where you want to be?

Abundance. In order to live an abundant life you have to make gratitude a way of your life right now. It's the simplest strategy that will give you the most instantaneous results.

Pause...

Say out loud 5 things you are grateful for in this very moment.

Say it.

You feel that buzz of energy ? That instant lift ? It took you 9-10 seconds to list things you are grateful for. And just think if you do it all day.

Gratitude has a way of moving the Universe into action that allows everyone to win.

Consistent gratitude will amplify your life and the greatness that is within you. Get out of the old mindset of magnifying the problems you face. Instead I challenge you to minimise any hardships solely by focusing on everything that brings you joy. Feel that inspiration, breathe in the greatness of the present moment and thank the universe for all that you are experiencing. This is a lifestyle that will reward you constantly. And it will attract great people and things into your life

For money as well, gratitude plays a pivotal role.

In case you're unaware, money is not the numbers, coins and paper in your wallet, purse or bank account. It is actually the energy that represents the spirit of those things.

GRATITUDE IS FUEL TO SUCCESS #VITAMING

Gratitude fuels the energy of money. Gratitude enables money to manifest itself because of its intention, that gives attention to unlimited number of waves and particles that turn into physical money. Lets deep dive how :-

1. Gratitude focuses on Abundance, Only

Gratitude allows us to focus on what is truly there and has always been there, abundance. Instead of focussing on the illusion of lack, it taps into the belief of the Universe: abundance, abundance and more abundance.

It let's us see, all the time, that all that we could ever need is always present. In energy first and then manifestation.

2. Gratitude Creates Joy, Joy creates Money.

If you ever need more money in your life, be thankful for the money you have already spent or earned in life. Be joyful for that is present and the create more.

Joy is provided by the source - it is always yours as long as you choose to receive its presence in your life. As you allow joy into your life, you become Vibrational rich which comes before the financial riches.

3. Gratitude removes all obstacles to your abundance.

When I committed myself to raise my vibrations with gratitude, it allowed me to see whats true and whats fabricated in our minds. We often call them our limiting beliefs.

None of us is ever meant to struggle when it comes to money, and money is supposed to be easy to attain and manifest in abundance within your life. The only thing which stops you are your "limiting beliefs". It's time to throw that all out of the window and begin to realise, especially through gratitude, that an ever-present abundance of money is your divine birth right.

Nothing can stop you. And because of that, we should never settle for anything less.

Thank you for taking the time to simply read this, I want nothing less than an abundant life for you. You deserve it.

Love & Gratitude,
