

## WOODCREEK COMMUNITY

### NEIGHBORHOOD DISCOUNT TRASH PROGRAM

Evergreen Waste Services would like to thank you for entrusting us to service your community. As a small local company, our goal at Evergreen is to provide your community with the best services.

We provide your community with a discount program at a percentage participation rate. Your community will receive a discounted rate if you meet the 90% participation. The community would only need **43** more homes.

Once the community meets the requirements all the new **43** customers and existing customers will be adjusted to the lower discount rate on their next quarterly bill.

We will give the community six months to meet the 90% participation. However, if more time is needed, we will gladly provide it.

Below are the rates and the services that are provided to your community.

Also, since the community is at 75% participation, we are adjusting all existing customers' rates to trash/recycling at **\$84** and trash/recycling/yard waste at **\$99**. Since we have already billed for February and March, these new rates will not be reflected until the next quarterly bill.

We appreciate your business and look forward to serving your community.
