

Humane Being

Helping people be humane beings

Leather tanning is a chemical-heavy process typically done in impoverished developing nations that lack toxic waste management regulations

✘ Bad for the environment

✘ Very Bad for the animal

"I'm just your next pair of shoes...."

Leather – we don't NEED to steal another animal's skin

Please don't - for the planet, people and animals

Helping people be humane beings

“To transform perishable animal skin into durable leather, workers soaked animal hides in toxic baths containing nearly 40 different acids & several heavy metals including chromium, a known carcinogen. The hides absorbed just 20 percent of these chemical brews: the rest was waste”

✘ Bad for the environment

✘ Very Bad for the animal

Leather – need or greed ?

Please don't - for the planet, the people and animals

Humane Being

Helping people be humane beings

“Each year, an estimated 80 billion garments are sold worldwide and each year, Americans alone throw away 15 million tons of clothing – most of it having been worn just a few times

The “disposable clothing” trend completely disregards the toxic toll each garment takes on environmental and human health throughout the manufacturing and distribution processes involved in its creation”

Fashion – need or greed ?

Please shop less – for the people, planet and animals

Helping people be humane beings

✘ Over 18 foxes or 55 mink are killed to make a single fur coat

✘ Cruel trapping & farming

✘ Painful deaths

*Seriously
- why would you ?*

✘ Phosphorous pollution in rivers

✘ Toxic preservative chemicals

Fur – need or greed ?

Please don't buy fur – for the sake of the animals and the planet
