PROOF 116

BEST RECIPES

Old Fashioned, Straight up, On the Rocks

MARKET POSITION

A North Carolina Product that stands out in a sea of upscale, high-proof barrel-aged whiskeys.

Oxford Oaks Distillery – Premium Name Brand

**These products are a culmination of the talents of our Master Distiller and a local distillery spirits formulation and finishing company during the time our distillery was being constructed. Leveraging the team's expertise, these unique spirits were conceived so that production could be moved seamlessly in phases. Key steps to the manufacturing process were transitioned in 2023 to the Oxford Oaks Distillery facility including filtering, fractionization, bottling and labeling. During the scale up of the new facility in 2024, the end-to-end manufacturing processes will be moved into the facility. The Carolina Whiskey has been barrel aged in the Oxford, North Carolina distillery facility and bottled for retail sales onsite. Each of these bottles is hand numbered and signed by the Master Distiller Matthew McLain.
