

SECURITY ENDORSEMENT & PERFIN SOCIETY OF G.B.

(Affiliated to the B.P.A.)

No. 132 April/May 1971

Subscription £0.50 (\$1.50) per annum

PRESIDENT : C. Jennings
SECRETARY : J. Rucklidge
TREASURER : R. Husband
CAT.EDITOR : B. Tomkins
LIBRARIAN : A. Lord-Castle

EDITOR : R. Bowman

MEMBERSHIP SECRETARY

Would members please note that for the next three months Richard Husband is standing in for Peter Stockton who is on a working vacation in the U.S.A.

NEW MEMBERS

Mr D.H. Geach "Yellow Wood", Egerton Road, Weybridge, Surrey.
Mr B. Birch 24, Calder Drive, Maghull, Liverpool.

We are pleased to welcome both the above gentlemen into our Society although in the case of Mr Geach the welcome is somewhat belated. He joined during the latter part of 1970 and due to an oversight he has not previously had a mention.

MEMBERSHIP CHANGES

Apart from the two new members noted above the other changes in membership have been negative as follows;

Lapsed :- Despite repeated reminders and a personal note from the Treasurer, Messrs Chase, Mount, Mc Culloch, West and P.F. Young have not renewed or resigned and must be treated as lapsed.

Resigned :- Mr C. Cox of Wembley has had to resign due to ill health.

Deceased :- Mr C. Rice. We learnt of the death of this overseas member via the American Perfins Club bulletin but we have no other details.

ADDRESS CHANGE

Leroy L. Ross has moved to 4,700, West 32nd Street, Denver, Colorado 80212, U.S.A.

RAILWAY WORKSHEETS

When returning the Worksheets please send them direct to the Editor. Not to Miss Thornton or Basil Tomkins who are not involved in this project, and who have to pass them on causing them additional work and expense.

COMPETITION SUCCESS

Following our report on Mr Clinch's success in a local Society competition we have had a letter from another member, Mr D Slee, who tells us that he recently managed to win the Stafford & District Philatelic Society's annual competition for the second consecutive year with a perfin display.

He goes on to say "I do feel that this is a very good way publicise perfins and to create a wider interest in them, and I wish success to more of our members in local competitions.

Given a reasonable presentation, I think that there are two things which favour a perfin display in local competitions:

1. They are an unusual subject, especially among G.B. exhibits.
2. They lend themselves to telling a complete story in the space of 6, 9 or however many sheets.

Concerning presentation, I have found that a good method is to affix small pieces of Letrafilm behind the stamps. This is a self-adhesive coloured plastic film which peels from the album page with no trace. If a colour is selected which contrasts with the stamp colour, the perfins (holes) stand out well. Perhaps the best Letrafilm colours are a luminous red (Ref. No. 148m) for dark coloured stamps and black (Ref. No. 142m) for light coloured stamps. It is available at office supplies at about 40p per sheet".

Mr Slee's exhibit was comprised of six pages most neatly written up, as evidenced by the photo-copies sent to the Editor.

- Page 1. Thirteen stamps from 1d red to current Q.E.11, being one example from each definitive issue on which perfins have appeared. This is headed by an introductory.
- Page 2. A sentence explaining their purpose, then nine stamps portraying a range of users, two stamps showing the user's locality included in the design, then four full names.
- Page 3. The first three stamps continue the theme started on page 2 showing examples of a code (OYEZ) an abbreviation (CLE/C) and a symbol (Shield). The other nine stamps show perfins on three each of commemoratives regional issues and high values.
- Page 4. Two blocks of six and eight singles displaying the positional variations of the design on the stamp due to the manner in which they were presented to the perforating machine
- Page 5. A continuation of the positional variation theme, five stamps showing the same design in various positions on similar stamps, and six stamps showing positional variations of the letters that are there by design.

Page 6. The first eight stamps show other variations in designs using similar letters by repetition, by adding stops, by varying the size of letters, and by changing the configuration of the letters. The next four stamps give two examples of perfins which have remained the same over many years and, finally two decimal stamps are shown.

The above brief description does not really do justice to the display and if anyone would like to see the photo-copies we should be pleased to pass them around.

FOR SALE

1... Due to failing eyesight one of our longstanding members, Mr C. Cox is having to give up philately entirely and he would like to hear from anyone interested in making him an offer for his perfins.

His collection consists of 1,118 stamps (50% Q.V.) mounted in an album, 343 stamps mounted on 20 Exhibition Cards, 400 loose in a box, and five pages of foreign.

In addition, he has all bulletins issued to date and all past catalogues.

Anyone interested should contact Mr Cox direct

2... Mr D Slee has stamps for sale on behalf of the Staffordshire Society for Brain Damaged Children, and would welcome enquiries.

He has, (a) Kiloware
(b) Foreign (sorted)
(c) Perfins (relatively few)

He would be willing to make up assorted lots at $\frac{1}{2}p$ per perfin for members to select any they require and then return the balance. All stamps have been donated to the above Society from many sources.

THIS ISSUE

For a variety of reasons we have found it difficult to get out a monthly issue during the past two months and have had to make this a combination issue once more. By way of compensation, however, it is a little larger than a normal issue.

the contents are:-

Three pages of general interest - 3 sheets.

Pages 132 & 133 of the Officials Catalogue.

Pages A5, B10 & B11 of the Identities Catalogue - 3 sheets.

Pages 99, 100 & 101 of the Simplified Catalogue.

Railway Worksheets Nos. 5 & 6.

A total of 13 pages.

6.5. PARAGUAY

On the 12th October 1892, Paraguay issued a stamp to commemorate the 400th Anniversary of the Discovery of America. The stamp shows a portrait of President Candido Bareiro, is lilac-blue, and the value is 10c. It has an oval overprint in violet with the date 1492 at the top, and the date 1892 at the bottom, and in between 12 de Octubre.

Later in the same year and in 1893 a series of portrait stamps was issued, including again the portrait of President Fiareiro. This stamp with the value of 10c. but in a different shade, described as slate-violet, was issued in January 1893.

It appears that the authorities were concerned about the possibilities of fraudulent overprinting on this second stamp, thus turning an ordinary stamp into a commemorative, and to prevent such a thing happening, they decided to punch a hole through all the 10c slate-violet stamps before they were issued.

Stanley Gibbons (Part III) have a note at the foot of the 1892-93 list as follows;

"No.61 was punched with a hole before issue in order to prevent fraudulent overprinting with T19."

According to a note in the Scott catalogue, the holes were punched until 1896.

I have an example of the Bareiro 10c stamp with punch hole, and give a tracing of it below showing its position on the stamp.

The stamp is used.

On S.G. 61

4/71

6.6 SALVADOR

This Country has overprinted a large number of stamps for official use.

In 1900 some Postage Due stamps were overprinted with FRAQUEO OFICIAL in an oval (S.G. 02), and stamp type 76 was also overprinted. The FRANQUEO OFICIAL (S.G. 04) was also printed on stamps of type 76.

Then, it seems, these Official stamps were not needed so they were punched with 12 holes in the form of a cross, and then it was authorised that they could be given ordinary postal use.

Stanley Gibbons (Part 111) has a note about these stamps and lists them as follows,

0180	1c. orange
0181	2c. orange
0182	3c orange
0183	5c orange
0184	1c orange
0185	2c. orange
0186	3c. orange
0187	4c. orange
0190	12c. deep green
0191	13c. carmine
0192	1c pale brown
0192a	3c. blue
0193	5c. dull orange
0194	13c. carmine
0195	26c. rose
0196	1c. pale brown
0197	2c. pale green
0198	3c. blue
0199	5c dull orange
0200	10c. brown
0201	12c. green
0202	13c. carmine
