RESIGNATION

Mr E.P. Tomlinson tendered his resignation due to a change of collecting interest.

Membership List

With this issue we are sending out an up-dated membership list which is correct as far as our records go as of 1st September. If members note any irregularities in their addresses would they please advise us of the error as it is to the address quoted on this list that future bulletins will be sent.

MEETING

We have managed to hire the B.P.A. Board Room a short period on Saturday 16th October 1971. The Board Room is a very popular meeting place for Societies and is in great demand, so the best we were able to manage was 11.30 to 1 pm., however, we hope as many members as possible will be able to look in.

The meeting will be quite informal and will enable members to meet one another and to compare methods of collecting and mounting perfins, or to discuss any subject that they wish.

The Board Room is at the B.P.A. Headquarters, 446 Strand, London W.C.2.

PERFIN PIECE

A non member tells us that he has a piece from a parcel which contained perforated stamps supplied to his company by Slopers. This piece has the following perfins attached to it,

JS& Co (3 x lp), PL (2 x lp), 10 (1 x 50p)

It seems clear that the first one is Slopers own perfin and it is fairly obvious that the others are from an order which they over filled and are using up on their own postage. However, what is interesting is the numeral perforation, this does not seem to have been reported before.

SUBSCRIPTIONS

May we remind members that subscriptions became due on 1st September. If you have not already done so would you please renew as soon as possible? A glance at last month's issue will tell you how much you owe.

THIS ISSUE,

We expect to get this issue completed during the weekend 2nd - 3rd October and into the mail on 4th October. It will be franked with at least one example of the Society's own perfin which we have not sent out before, so do not throw the cover away.

Target date for our next issue is in the mail on 29th November when we hope to have more news of the Society's perfin. We are also in urgent need of material. 1 page of general interest, Membership List - 3 sheets.

NOTES TO BE READ IN CONJUNCTION WITH THE ACCOUNTS OF
THE SECURITY ENDORSEMENT AND PERFIN SOCIETY OF G.B.
FOR THE YEAR ENDED 31st AUGUST. 1971.

Note 1 The cost of the Society's duplicator, purchased in 1964, has been included in the Accounts for the year as fully depreciated, having a written down value of £1. The General Fund has been correspondingly adjusted by this amount. It would cost £50* to replace the duplicator with a new one of a similar type.

Note 2 Sales of Society Publications have been as follows:-

	<u>1971</u>	<u>1970</u>
	£	£
Perfin catalogues - completed	19	19
Mr. Jennings' Book - instalments	-	32
- completed	3	42
	<u>22</u>	<u>93</u>

Note 3 Expenditure on stationery, duplicating materials and envelopes is included in the Accounts in the year in which they are purchased, with the result that stocks of such items are considered to be of no value.

HON. TREASURER'S REPORT

With the sale of Mr Jennings' book virtually at an end, the Society's income was £69 less than last year, despite a small increase in subscription income.

The deficit for the year of £18 shows that an increase in subscriptions is really necessary to prevent the Society from slipping into a state of poor financial health, particularly with regard to our forthcoming publication on railway perfin and an illustrated perfin catalogue.

We hope that no further increase will be necessary for a few years and members will continue to support the Society by not only continuing as members, but also by helping to add to the information already known about perfin.

Membership at the 31st August 1971 stood at 110, a net increase of 3 for the year.

It would be gratefully appreciated if members remember the following when making remittances:

- a) Remittances.. other than annual subscriptions, will not be acknowledged unless requested.
- b) All cheques and postal orders should be made payable to the Society and not to individual officers.
- c) Members in the U.K. should only make remittances by stamps for amounts of 5p or under.
- d) Members who live overseas are asked to send bank notes where possible or, failing that, international money orders when making payments to the Society. Those in the U.S.A. who send cheques must expect to bear a substantial collection charge, which is likely to be as much as 30p per cheque. This charge is made on the Society by deduction from the proceeds of the cheque, so that all those members in the U.S.A, who wish to pay by cheque must allow for this bank charge, when making payments in this way. The Society's bank has also introduced a commission of 5p on cashing bank notes.

It now remains for me to thank the Officers and Committee for their support during the year, and to thank Ron Bowman in particular for his invaluable assistance.

Notes : Die 1 is recorded in Mr Jennings book as having been seen on the two plate numbers given. Can anyone else confirm this die and in particular whether the full stops are present btween the letters.

Die II has no stops between the S and W and the W and R although the spacing is such that stops may have existed at some time. It is possible therefore that Dies 1 and 11 are really the same die.

A photographic reproduction of Die 1 would be appreciated if anyone can supply one.

Railway Worksheet No.8

GREAT WESTERN RAILWAY COMPANY

This Company was one of the most prolific users of perfins and some 10 different dies exist. In this worksheet it proposed to deal with the first two dies only on which most of the 1d red plates appear.

Die I	G W R	10,13,11	Both dies reported by Mr Jennings but not
Die II	G W R	10,16,11	seen by the Editor. The major difference
			(perhaps only difference) between this and

Die II is that the outer strokes of the W consist of 4 holes in Die 1 and 5 holes in Die II. There is, however, a third hole missing which presumably is the one numbered '2' in the enlarged facsimile of the W from Die 11 shown alongside. It can be seen that three holes numbered 1, 2 & 3 could be omitted without it being noticed.

All this, of course, is only supposition but is mentioned so that members who hold any of Die I can check and advise us whether all other holes in die II match those in die I. The information given by Mr Jennings certainly indicates that two separate dies existed, Die 1 being the first to disappear although they seem to have been in simultaneous use for a long period.
