

SECURITY ENDORSEMENT & PERFIN SOCIETY OF G.B.

(Affiliated to the B.P.A.)

No. 139 May/June 1972

Subscription £1.00 per annum.

NEW MEMBERS

We are pleased to announce that two more collectors have joined our ranks and we welcome into the Society,

Mr L.W, Brown 59, Holmesdale Road, Reigate, RH2 0BJ

Mr I.C. Burns 7, Elm Grove, Larbert, Stirlingshire, FK5 3LP.

LAPSED MEMBERS

The following members have not replied to reminders and must therefore, be treated as having lapsed,

Messrs. Beahr, Regad, Williamson.

ADDRESS CHANGES

Only one item to report this time. Miss Thornton now adds her postal code and her full address is, Ael-y-Bryn, Cwm, Rhyl, Flintshire, LL18 5SN.

SOCIETY OFFICERS

In our last issue we made a mistake in putting down the subscription at the old rate of 10/-. This time we have omitted to put the names and addresses of the Society's officers in the usual place at the head of this page. Perhaps we shall get it right next month but in the mean time here is the list of Officers.

PRESIDENT	:	C. Jennings	4, Welch Road, Southsea, Hants.
SECRETARY	:	J. Rucklidge	13, Moncrieffe Road, Sheffield, S7 1HQ.
TREASURER	:	R. Husband	69, Grand Avenue, Surbiton, Surrey.
MEMBERSHIP	:	P. Stockton	14, London Road North, Poynton, Stockport, Cheshire, SK12 1QZ.
SECRETARY	:		
CAT.EDITOR	:	B. Tomkins	25, Beccles Road, Thurlton, Norwich.
LIBRARIAN	:	B. Birch	24, Calder Drive, Maghull, Liverpool.
EDITOR	:	R. Bowman	"Gavel Marten", Beechfield, Frilsham, Newbury, Berks.

LONDON MEETING

Attendance at our meeting in London on 29th April was not as well supported as we had hoped, only six members came along, Boris Pritt, Basil Tomkins, Paul Redmond, Richard Husband, Gordon Clinch and Ron Bowman, however, an enjoyable three hours were spent in swapping ideas. Everyone had brought along examples from their collections and these did the rounds, with all present getting a chance to discuss various aspects with the owners.

Perhaps we can arrange a further meeting in the Autumn?

ILLUSTRATED CATALOGUE

Dr Harvey Tilles has sent over some worksheets for distribution to members within the U.K. However, he did not have sufficient to satisfy the total U.K. membership and it is proposed to include copies with this bulletin only to those members who return the Railway Worksheets.

We are doing this on the assumption that these members will be the most interested but if by doing this we miss anyone else who is interested in co-operating please let us know.

Would anyone receiving these sheets who has perfins not illustrated, let Basil Tomkins have them on loan? He will make photographic copies to send to Dr Tilles.

We would like to point out, to avoid any confusion, that these Worksheets are Xerox copies of Xerox copies and in no way reflect the final product which will probably be lithographed.

CZECHOSLOVAKIAN CATALOGUE

Dr Tilles has completed an illustrated catalogue of the perfins of Czechoslovakia and can offer copies at \$3 or £1.10 post free by surface mail. Airmail to the United Kingdom will cost an extra 19p.

Payment may be made by cheque, International Reply Coupons, Money order or in any other legal manner which is redeemable for cash.

Anyone interested in purchasing a copy should send their remittance direct to Dr Tilles P.O. Box 5466, High Point, N.C., 27262, U.S.A.

CATALOGUE REVIEW

The following review has been sent in by our Librarian, Brian Birch.

Canadian Stamps With Perforated Initials

by

The British North American Philatelic Society

Handbook No. 8. 1967. 3rd edition. 6" x 9", 32 pages, paper cover. 78p post free from Harris Publications Ltd., 42, Maiden Lane, Strand, WC2E 7LW.

This book gives a very brief introduction to the origin of Perfins in Britain (Perhaps if a member of their society belonged to the S.E.P.S., they would have realised that the term SPIFS is obsolete here.) The introduction to Canadian perfins is much more thorough with a useful section on "Perforating Devices"

All Canadian perfins, both official and private are illustrated and listed. The dates between which the perfins were used are given together with any revenues or precancels with the perfins.

A rarity factor is included for comparison (Comparison with what? I do not know for the R.F. (I assume this means Rarity Factor) varies between 100 and 2.5 and is neither explained nor even mentioned in the text.

A must for anyone who collects Canadian perfins,

THIS ISSUE

Due to holidays etc., this issue is going to be about 10 days late getting into the mail. We hope to make it about 8th or 9th June.

Contents : 5 pages of general interest, 2 pages of 'new' identities, Page 141 of the Officials Catalogue, Pages A6, B1, B2, B3, B4, & B5 of the Identities Catalogue, and Railway Worksheets 15 & 16.
A total of 16 pages.

EXCHANGE PACKET

We have received a copy of the rules and a notice referring to commencement of the exchange. Time and space did not allow us to publish in this copy so it will be included in our next issue.

CHRIS CARR'S CHAT, another page from 15 Crabble Lane, River,
Dover, Kent.

In the 4/69 issue, Number 114, I suggested a price for each British perfin based on the catalogue value of the stamp rather than fixing a value for each perfin based on its scarcity.

Only two members really commented on my article. One from Keith Misegades being published in 5/69, number 115. I still maintain that my system is best. My article dealt with G.B. perfins, whereas Mr. Misegades introduced a red-herring in the form of the American perfin PRR.

I feel that any modern perfin can be common if you buy your perfins in bulk. As a dealer who sells all types of perfins, I find it necessary to mix batches of bulk perfins to minimise this effect. My perfins are bought from all parts of the country and certain local government and traders perfins tend to turn up regularly. Bulk originating in Thanet will contain a proportion of MC and RC of the Margate and Ramsgate Corporations, while that from London will contain GLC, and that from the Birmingham area will contain CB. Therefore, collectors in those areas, or collectors who buy our bulk, will consider that these are common, but I have no doubt that they could be missing from other collections. That is why I put a price per 100 on the low value QE stamps to compensate for duplication, but if someone wished to buy individual individually listed perfins of QE then the price would be identical per perfin for the same basic stamp.

Likewise, for the earlier issues it would need considerable time consuming research to try to evaluate each perfin, after all, who in the Society is going to say that A.83 is worth more than A.215?

As most collectors only collect one of each perfin, the owner of a stamp catalogued at £2 is not going to sell it for 5p. He wants to get an idea of how much it is worth, and the prospective buyer wants to know how much he should pay for it. I drew up my list to provide the guide that they both might need. After all, Stanley Gibbons do it, their catalogues are their selling prices, (if the stamps are in stock and subject to the usual conditions about price movements), They have to get their information from somewhere and often it is based on recent auction realisations.

As I said in the article, the prices were obtained from society auction prices and our own-selling prices, and give what I consider to be fair values for perfins. Three years have now elapsed since the list was published and nothing has happened to make me change my views.

If any member requires a copy of the article I will be glad to send a reprint, with slight alterations, on receipt of a 3p stamp (overseas members can send 120 or one International Reply Coupon).

THE SOCIETY PERFIN

Are you using the society perfin on your mail, it is good advertising when writing to other collectors.

The date at the head of the article "Quantities of Stamps, Perforated with the Society Perfin" which appeared in our last issue should have been 14.2.71. All stamps were pre-decimal.

11th SOCIETY AUCTION

There is always a demand for 1d red perfins, lots required please.

LONDON LOCAL GOVERNMENT PERFIN

5&6/72

Compiled by Mr L Bowen

Prior to 1/4/65		From 1st April 1965		
Metropolitan Borough of	Perfin	London Borough of	Comprised of	Perfin

INFORMATION WANTED

1) Mr J Purcell

has undertaken the job of listing Australian perfins used by private concerns and he wonders whether anyone has a list of private users.

If anyone can help with the list or in any other way perhaps they would write to Mr Purcell direct.

2) Whilst sorting through some QE11 Wilding perfins, Basil Tomkins came across 2 stamps (1d & 2½d) perforated SA (Cat. 6.1) with an extra hole 4-4½mm below the letters.

If any member has any information about this perfin or has other values, Basil would be pleased to hear from them.
