

'Nellie was one of the teachers at my son's preschool and I was always so impressed with how warm, caring, and positive she was every single day. My son had a bit of a tough time starting at a new school, but Nellie was always so kind and gentle and really helped both me and my son feel comfortable during the transition period. We'll always think back fondly on his preschool years and Nellie was a big part of making that experience so wonderful.'
