

Lenox[®] Lockers

- Bench Lockers
- Cubby Lockers
- Gear Lockers
- Lenox[®] Lockers
- Pedestal Benches
- Z-Lockers

“The low maintenance, durability and no-rust factor make Lenox the #1 choice in lockers, especially in wet room areas. We highly recommend these lockers for any institution.”

- Director of Residential Life-Facilities
Illinois State University

“Because of the unique layout and conditions of our facility, we needed a product that was very strong and durable. The lockers have complemented our atmosphere and withstood the high usage we encounter year-round.”

- Water Park Manager,
Outdoor World

“Our maintenance department is very pleased that the lockers cannot be kicked shut, which usually results in many broken locker latches. They also appreciate the ease with which the locker surfaces can be cleaned.”

- School Superintendent
Westchester Public Schools

“Lenox Lockers have enhanced our school appearance and have provided a solution for our students’ storage needs. In addition, they look as new as the day they were installed—evidence of their durability in a high school setting!”

- Director of Instruction
Scranton State School for the Deaf

Lenox® Lockers

Practical. Preferred. Plastic.

Metal doesn’t stand a chance.

Quick installation and low maintenance costs can add up to a 50% life cycle cost savings with Lenox® Lockers — the preferred specification in locker rooms all over the country.

- Fully-assembled product
- Backed by a 20-year warranty
- Made from 30% pre-consumer recycled content

ECONOMIC ADVANTAGE: LENOX LOCKERS VS. METAL LOCKERS

Plastic lockers may require an additional investment up front, but savings on repairs and maintenance will make up the difference over the locker’s 20-year life cycle.

	METAL LOCKER	PLASTIC LOCKER
Painting (4 times)	\$100 per locker	\$0
Door Replacement (2 times)	\$110 per locker	\$0
Cost (100 Lockers)	\$21,000	\$0

Maintaining 100 metal lockers for 20 years with four paint jobs and two door replacements per locker would cost \$21,000!

FORGET ABOUT MAINTENANCE

Never paint a locker again! You get maintenance-free lockers that still look new after years of use. Even spray paint and magic markers are easily removed with standard cleaning products. All plastic locker parts and components carry a 20-year warranty against rust, corrosion, denting and delaminating under normal use.

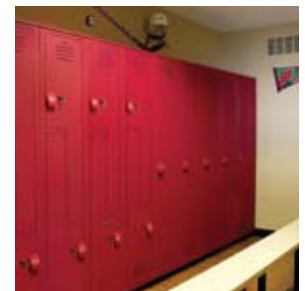

RESILIENT FOR THE LONG HAUL

Unlike metal, Lenox Lockers are constructed from corrosion-proof, high-density polyethylene material that won’t rust or dent.

- More resistant to scratches
- Easier to repair than metal

Lenox Lockers are now available in 100% post-consumer recycled material.

- Four colors offered in the new material
- Made completely from recycled milk jugs
- Provides the same performance requirements as the current plastic and the same 20-year warranty (See chart at right for available colors.)

LENOX GEAR LOCKERS

Secure your gear! Lenox Gear Lockers are wider and deeper than the standard 18" x 18" lockers, creating more space for gear such as large gym bags, pads and helmets. Lockers ship fully assembled for quick, easy installation. Perfect for fire and police departments, locker rooms, and recreation and fitness facilities.

STANDARD HEIGHT: 72" High

WIDTH OPTIONS: 24", 30" or 36"

DEPTH OPTIONS: 18", 21" or 24"

RECYCLED MATERIAL: 30% Pre-Industrial Content or 100% Post-Consumer Content

NEW!

CUBBY BENCH LOCKER

Convenient seating and easy-access storage in one!

- Space-saving solution
- Available in 12 colors
- Shipped fully assembled

CUBBY LOCKERS

The easy-access, durable cubby locker is perfect for items that do not require locked storage.

- Shipped fully assembled
- Reduce installation costs by up to 50%

(Three cubby lockers pictured.)

PEDESTAL BENCH

Locker room benches complete the long line of solid plastic products for your restroom and locker room application.

- 1 1/2" high-density polyethylene (HDPE)
- Available in 14 standard colors
- Black anodized aluminum pedestal
- 18 1/2" ADA-compliant height

BENCH LOCKERS

Lenox bench lockers provide convenient seating in the locker room.

- Secure storage beneath bench
- Doors attached to frames with full-length, heavy-duty stainless steel hinges powder-coated to match locker colors

Z-LOCKERS

Perfect for health clubs, YMCAs, spas and aquatic and fitness centers.

- Design provides practical multi-level storage for overcoats, suits, dresses and other hanging articles
- No wasted floor space

POCKET LOCK

A portable security solution for shared locker environments, such as amusement or water parks, where patrons pay each time they want to secure their belongings.

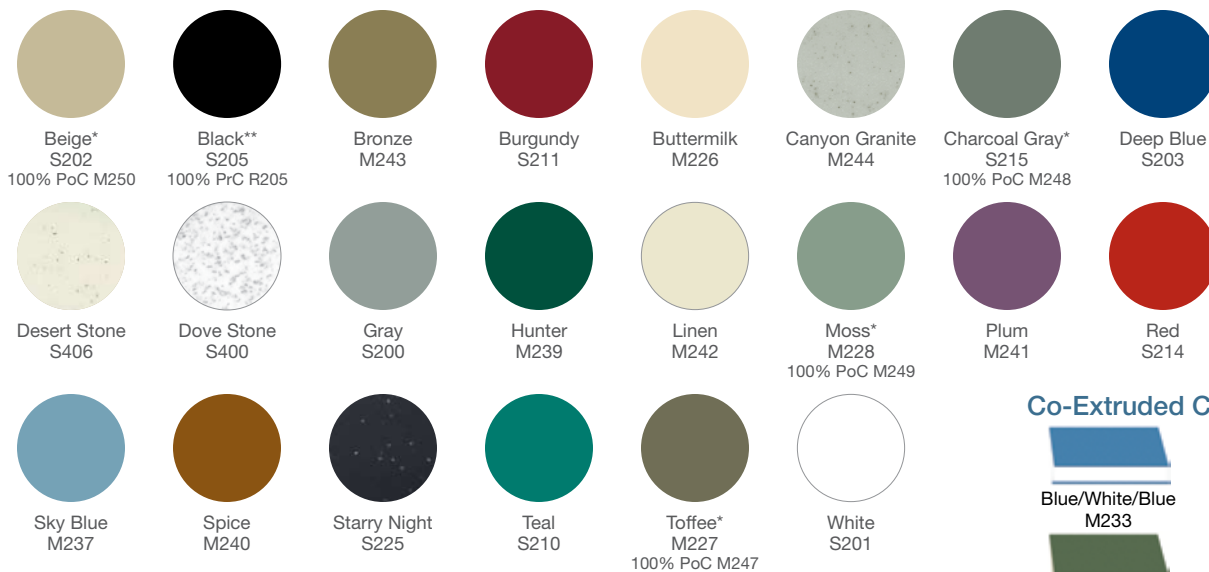

- Rent the lock once and it travels from locker to locker
- 500 different key combinations

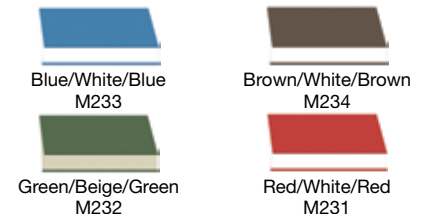

NEW!

Available Colors*

* Due to printing variances, the actual material color may differ. Contact your local Bradley Representative for samples.

Co-Extruded Colors

*Also available in 100% post-consumer (PoC) recycled content. Post-consumer and co-extruded colors available at an additional charge.
**Also available in 100% pre-consumer (PrC) recycled content.

ONE-PIECE CONSTRUCTION REDUCES INSTALLATION COST

Formed by a polymer resin, Lenox components are one solid piece—no edges to come apart, no core to delaminate and no exposed fasteners. With a box panel thickness of 3/8" and door and frame thickness of 1/2", Lenox Lockers withstand impacts that would easily damage metal lockers. The durable, wrap-around box design is shipped fully assembled, so there's no added time or expense required to piece together countless components.

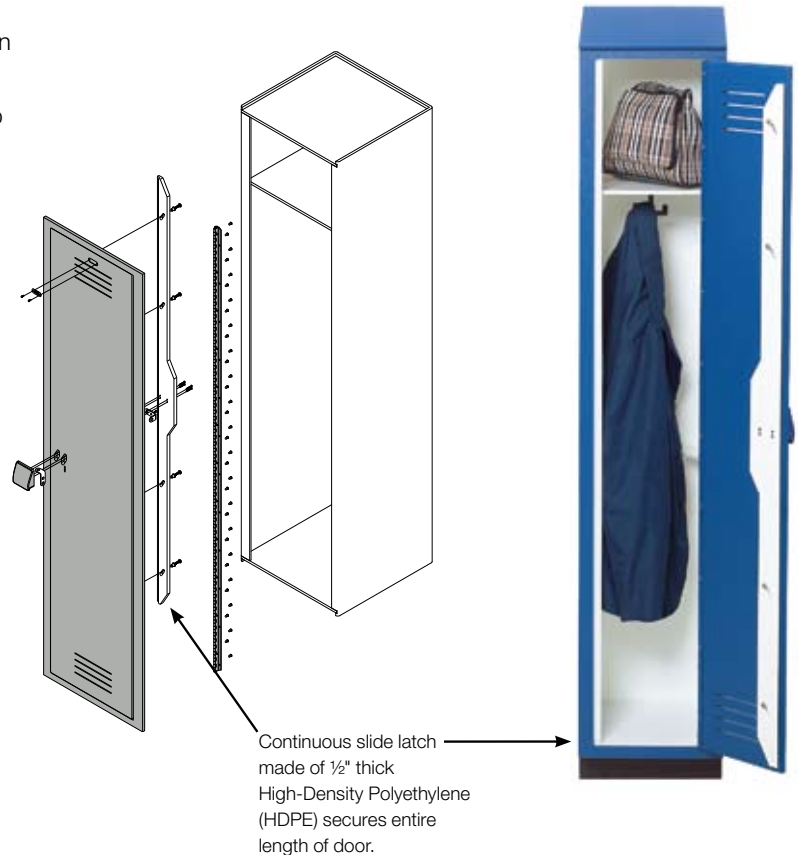

EXCLUSIVE FEATURES

- Continuous slide latch runs the entire length of the door
- Heavy-duty stainless steel piano hinge is more durable than aluminum or plastic
- Ergonomically-designed handle with concealed metal hasp
- Top and bottom are welded to frame plus door and frame assembly is welded to box
