

	TRADITIONAL MEDICINE	CONCIERGE MEDICINE
MODEL	Most require insurance and limits access to care and visits are scheduled far out and visits are scheduled usually in 15-30min blocks.	No insurance so providers have more time to spend with their patients and visits are not rushed and you have access to your provider 24/7
WHATS INCLUDED	Provider visits that are scheduled over the phone usually with office staff, in office medical care that usually is 15-30 mins per visit and scheduled far out. If sick or urgent care needs must visit an Urgent Care or ER.	24/7 access to a provider, telehealth appointment, in home care, same day or next day appointments. No scheduling with front office staff, you have cell phone numbers of your provider. Urgent care type needs and sick visits provided without sitting in a waiting room for hours in the comfort and privacy of your home. Visits are not rushed and so more time can be spent with the patient.
COST	Based off insurance type and deductibles and cost of copays.	Yearly membership price that is affordable that gets you covered 24/7. Starts at \$350 per month
INSURANCE COVERAGE	Have to find in network providers, still have copays and deductibles you have to pay on top of your monthly insurance premium	No insurance accepted for membership services. Insurance coverage can be utilized for diagnostic testing and pharmaceuticals.

Why Should one choose Concierge Medicine?

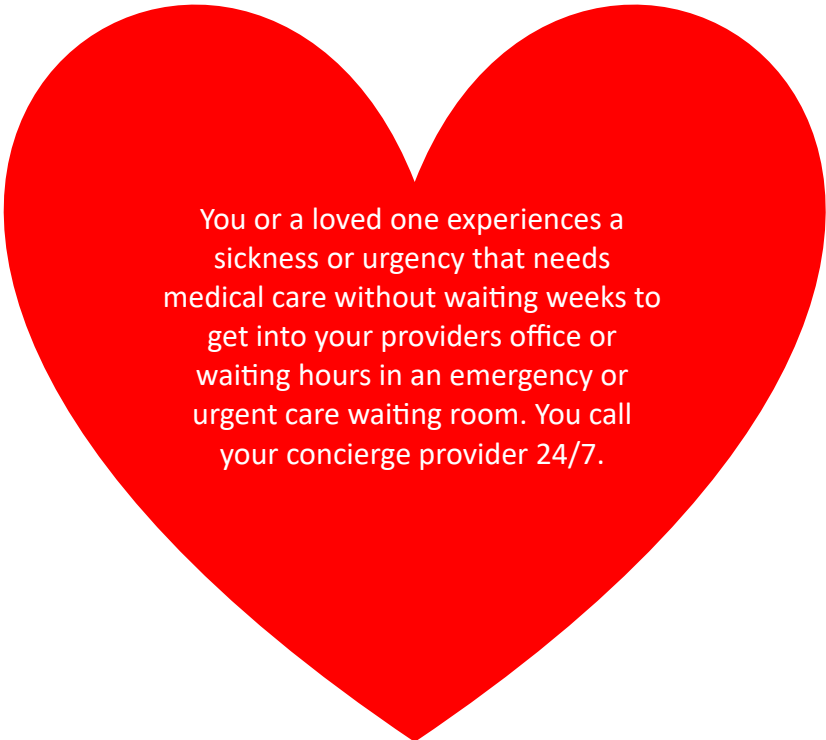

You are a high achiever, busy individual who requires individualized care in home, telehealth, text...you have your providers cell for 24/7 coverage!

You're done waiting both weeks to get an appointment and waiting in the lobby once you get an appointment

You want VIP care
24/7

You or a loved one experiences a sickness or urgency that needs medical care without waiting weeks to get into your providers office or waiting hours in an emergency or urgent care waiting room. You call your concierge provider 24/7.
