

# PALM BEACH

## 7" HYBRID 52" POOL

### Dare to Compare the Competitive Advantage

52" WALL WITH RUGGED, BAKED ENAMEL 7" RESIN TOP RAILS AND 7" STEEL VERTICALS WITH BEAUTIFUL RESIN TOP CONNECTORS.

- o Palm Beach walls are made from heavier **copper bearing steel** than industry standards - 30 to 60 pounds heavier than the competition. Weigh the difference!
- o **Steel verticals are up to 50% heavier** than the competitors. This ensures maximum stability.
- o Unique gray colored **resin top connectors**.
- o **Staggered bolt wall closure** provides maximum strength and wall stability.
- o **Large, pre-punched skimmer and eyeball return openings** eliminate sharp edges that could cut the liner during installation.
- o **Compac Supports** extend only 9 inches beyond the sidewall, not the standard 36 inches used by competitors. This accommodates larger pool models in smaller backyards.
