Premium landscape products sustainably made

We create and provide premium landscape supplies for everyone. Our full product line offers premium materials at competitive prices that our customers love.

As a local company, our employees live and work in our community. We use local resources, support local businesses, and continue to build relationships that uphold our core values.

We are positioned to be the industry leader specializing in locally made and installed landscape products. Recycling of wastes streamlines our business—saving customers' time and resources.

WHO WE ARE

Renewed Outdoors, LLC is a locally owned and operated company based in Perrysburg, Ohio. We make environmentally friendly products from locally sourced and recycled yard waste. Our sustainably produced organic mulch and compost products are of the highest quality and perfect for any size installation.

DISPOSAL OPTIONS

We make our premium mulch and compost products from locally sourced yard waste. If you are interested in recycling your yard waste we accept: *branches, brush, bushes (no root balls), logs, stumps, tree trimmings, twigs, leaves, straw (bales or loose), grass clippings, garden debris from flower and vegetable gardens, and more.* Disposals must be separated, see our website or visit our Dixie Hwy location for more details.

Quality Products + Sustainable Practices

We pride ourselves on providing customers with the highest quality recycled organic mulch and compost products. We make our premium products in-house with locally sourced materials that are recycled and pallet-free. Our sustainable production methods create a product with interlocking fiber structures that stay in place. Whether you need material for lawn installations, renovations at home, athletic fields, top-dressing gardens or landscape plantings, we have a product to match your needs.

We can install our products using the Express Blower® Truck. Our truck reduces damage to your existing landscape and saves you time and labor—all while creating a clean and professionally finished product.

Renewed Elite Hardwood Products

Recycled natural hardwood materials are triple shred into a fine mulch. Renewed Elite Bark™ is a premium bark product, aged for the darkest natural brown. Color enhanced products are improved by using a long-lasting water-based, non-toxic, eco-friendly colorant—safe for kids, pets, and the environment.

Renewed Elite Bark

Black Max Elite

Brown Walnut Elite

Nature's Elite

Renewed Eco-Hardwood Products

Recycled natural hardwood materials double shredded into a premium mulch. Eco products are naturally aged for a darker brown color while color enhanced products are improved by using a long-lasting water-based, non-toxic, eco-friendly colorant—safe for kids, pets, and the environment.

Black Max Eco

Brown Walnut Eco

Red Max Eco

Certified Playground Mulch

Premium wood fiber that supports a safe play environment for everyone. IPEMA Certified products are available for pickup, delivery, or installation.

Renewed Premium #1 Screened Topsoil

Compost-based blend of soil media that creates a strong organic material to satisfy the many functions of topsoil. It comes in a dark brown/black color.

Renewed Screened Compost

Yard waste compost, mainly made up of leaves, provides an excellent media for gardens, top-dressing lawns, and other uses to benefit microbial activities.

Stones and Soils
