**WHAT IS SUSPICIOUS
ACTIVITY?**

Most of you are probably familiar with the phrase, "If you see something, say something." It's part of the United States Department of Homeland Security campaign designed to help raise public awareness on behaviors, suspicious activity or situations that might indicate terrorism or terror related crime. The campaign partnered with trained local law enforcement as the reporting avenue for these indicators. This catchy phrase was quickly adopted by law enforcement, and I regularly see it used as a way to encourage community members to report suspicious or criminal activity.

Criminal activity is easy to identify as it often involves a definitive action that you immediately identify as unlawful. Breaking a window, tagging a wall and stealing are just a few examples of this type of action. When you see it, you know it's a crime, so you call 911.

Suspicious activity is a bit more subjective and definitely more difficult to define. Cambridge Dictionary defines suspicious as, "making you feel that something illegal is happening or that something is wrong." These feelings should be based on the subject's behaviors and be easily articulable to 911 or Crime Stop. A person alone isn't suspicious, their behavior is.

Behaviors that are linked with suspicious activity:

- Looking in windows (cars or houses) - possible indicator of impending burglary
- Trying door handles (cars or houses) – possible indicator of impending burglary
- Sitting in a parked car for an extended length of time – possible indicator of casing
- Nervous glancing – possible indicator of lookout or intent to commit crime
- Unusual or robust responses – possibly being evasive.
- Inappropriate clothing (large jacket on a warm day) – possible indicator concealing
- Following delivery driver – possible indicator of impending theft
- Stranger carrying property or packages – possible indicator of theft.
- Stranger carrying tools that don't match their activity – possible indicator of impending theft or crime.

These are just a few indicators of suspicious activity, there are countless more. Be mindful, these behaviors individually aren't necessarily a certain indicator of crime; however, when compounded or combined with other indicators they begin to paint a picture of criminal activity. If you see a person looking into a car in a parking lot, you might just be witnessing someone who locked their keys in their car. Maybe they did. Is that suspicious? Maybe and maybe not. Would I call crime stop for that if I wasn't at work?
Nope, typically I ask if they're alright or if I can call somebody for them. Their answer or actions might amend this decision. Now, if the person is looking into a car in the middle of the night, glancing around nervously while carrying a crowbar in their hand, you are definitely witnessing some seriously suspicious activity.

Familiarity with your neighborhood and community make you even more adept at identifying suspicious activity. This is why getting to know your neighbors is such a key component of Block Watch. Its byproduct is a better understanding of what's out of place. If you know your neighbors, you easily recognize what's unusual. Nobody is more qualified to identify suspicious activity in your neighborhood than you are.

If you are seeing behaviors indicative to suspicious activity, be sure to articulate them to the Crime Stop operator. Why a person's behavior is suspicious is incredibly important to responding officers. It helps us understand what's going on and it guides our conversation with the people we contact. The more detail you provide the better.

Suspicious activity is difficult to definitively define and articulate. Utilizing these and other indicators combined with your familiarization with your neighborhood will help you determine what is suspicious activity. When in doubt, call Crime Stop (602-262-6151) and relay the information to us.

SUPER BOWL SECURITY WRAP UP with Detective Brad Calendar, Homeland Defense Bureau

Great information on ACTIC (Arizona Counter Terrorism Information Center) and the Homeland Defense Bureau. Whenever someone calls in with a tip or to report suspicious activity, it is given to a detective on the task force to investigate. An average of 370 tips are received each month. During the two weeks of the super bowl period there were 190 tips, a 66% increase. He discussed ALICE and

how training can prepare residents on active shooter safety. www.lockdowninternational.com He talked about what constitutes suspicious activity and how to report it. Unlike some of the super bowl events in the past, thankfully, there were no incidents this year. There was some equipment stolen, but it was quickly recovered. If you see suspicious activity, please call 1-877-4AZ-TIPS or report it on www.azatic.gov and upload photos or video.

CITIZEN'S EMERGENCY RESPONSE TEAM (CERT) with James Emge, Planning Section

Great information on the CERT Program. The basic training is available to everyone in the community. It is based on FEMA training. The skills will help you help yourself during an emergency situation. You learn how to put out fire, turn off natural gas valves, extrication, disaster medical situations, search and rescue, disaster recovery, cribbing, etc. There is advanced training where you help Phoenix Fire and Phoenix Police with crime scenes where you are deployed. The class is 20 hours which is held over a three-day weekend at the Phoenix Training Facility. There is one this weekend and one coming up on June 9-11th. There will be a train derailment scenario in September. There was a question about being prepared at home. Laura will put info on a 72 Hour Kit on the BMCA Website.

DON'T GIVE TO INDIVIDUALS GIVE TO SHELTERS

To end panhandling, we have to end directly giving to people panhandling. Phoenix is full of compassionate and charitable citizens. They want to help those in need. However, giving money to people panhandling doesn't fix problems. In order to truly help those in need, stop giving money to panhandlers and instead support organizations and services

CRIME TIPS

STUDENT LOAN NEWS BRINGS STUDENT LOAN SCAMS

If there is one constant in the criminal world, it's that scammers follow the news. Student loan forgiveness has been the focus of recent headlines, which has given scammers room for fraud related to student loans. Read on for tips to avoid the traps.

HOW IT WORKS:

You receive an unsolicited contact offering to help navigate through state and federal programs to reduce or restructure your student loan debt.

"Debt relief experts" offer access to instant, easy-to-access loan forgiveness options; they might even mention the "Biden Plan."

They will ask for upfront payment or for personal information such as your Social Security number or your FSA ID (the username and password on your loan account).

WHAT YOU SHOULD KNOW:

These offers provide nothing you can't find yourself for free. Often, it is as simple as contacting your loan servicer or the U.S. Department of Education.

It is illegal for debt relief companies to collect payment from you before they get results, so upfront fees are a surefire sign of fraud.

Legitimate agencies and loan servicing companies will not ask for your Social Security number or FSA ID.

WHAT YOU SHOULD DO:

Visit the Department of Education's StudentAid.gov site for free information on getting help with federal student loans.

Resist the urge to act quickly. Research any debt relief firm before providing them information or money or signing any agreements. A good place to start is your [state's consumer protection office](#).

AARP offers a free student loan forgiveness eligibility and repayment review through Savi. Learn more [here](#).

When it comes to fraud, vigilance is our number one weapon. You have the power to protect yourself and your loved ones from scams. Please share this alert with friends and family and visit the [Fraud Watch Network](#) for more information.

IS AI BEING USED FOR VIRTUAL KIDNAPPING SCAMS?

Posted: April 14, 2023 by [Christopher Boyd](#)

You may have seen a worrying report of Artificial Intelligence (AI) being [used in a virtual kidnapping scam](#). The AI was supposedly used to imitate the voice of an Arizona resident's daughter, who claimed to have been kidnapped. The daughter was safe and well elsewhere on a school trip. Unfortunately, with the daughter out of sight this just made the scam seem more believable. Was she actually on the trip, or kidnapped? With no way to know right away, all the parent could do was listen to a demand for \$1m and the threat of terrible things happening to their daughter.

The scammers dropped the ransom down to \$50k after being told that the money simply wasn't available, and while all of this was going on, a friend of the family, and law enforcement, were able to confirm that the supposedly kidnapped daughter was in fact safe and well.

Virtual kidnapping scams have [been around for many years](#), but this is a new spin on a well-worn technique.

The imitated child's parent is convinced that some form of AI was used in this instance. To do this, scammers would have had to obtain some samples of the daughter's voice. The samples would then have been fed into a machine learning algorithm which learned how she speaks, giving the scammers a computer program that can speak like the victim.

This technique certainly works and can produce startling results. To hear for yourself, take a listen to [podcast.ai](#), a podcast entirely generated by AI, that features guests like the late Steve Jobs.

The case for AI

Can we be *sure* that what happened here was down to AI?

The victim claims that the voice was definitely that of her daughter. You would expect someone to recognize a fake or an imitation of their own child. Think how many celebrity impersonators you've heard on TV or elsewhere, and how many of them are actually good at it. More often than not, the slightest imperfections really stand out. Now apply this to a mother and her daughter. She's going to have a very good idea what her offspring does and doesn't sound like.

Subbarao Kambhampati, a computer science professor at Arizona State University, told the New York Post that it's possible to spoof a voice in convincing fashion from just three seconds of audio.

According to the victim, her daughter has no social media presence to speak of but has done a few short public interviews. In theory, this could be enough for the fraudsters to create a working facsimile of her voice.

None of this is proof that AI was used, but none of it rules out AI either.

The case against AI

Creating a replica voice from three seconds of audio sounds scary, but in practice things aren't quite so cut and dry. We covered a great example of this a little while ago, involving a journalist logging into his telephone banking [via use of AI voice replication](#). It's definitely not an exact science, and getting the voice right can take many attempts, samples, and requires an AI tool that can stitch everything together to an acceptable standard.

In terms of the mother's claim, she recognized her daughter's voice, that's complicated. Understandably, she will have experienced a considerable level of panic when receiving the call, and that might have affected her ability to identify her daughter. CNBC wrote about the phenomenon of [virtual kidnappings](#) in 2018, before the current AI boom. In every case listed in its article, the person stuck on the phone is convinced the voice on the other end of the line is who the fake kidnapper claims them to be. Teenage sons, younger daughters, men in their thirties...the horror of these calls has the victim pretty much ready to stand up in court and state that this was the real deal.

This effect of "Yes, it's them" has been happening for years, long before AI came onto the scene. Is this what's happened in the AI kidnap scam above? And why would virtual kidnappers bother to replicate someone's voice if the victim is going to believe it's all real anyway?

Protection from virtual kidnap scams

Steering clear of this kind of attack isn't particularly affected by whether or not the person screaming down the phone is an impersonator or a slice of AI. The basics remain the same, and social engineering is where a lot of these attacks take shape. It's not a coincidence that most of these stories involve the supposed kidnap victim being on holiday or away from the family home when the bogus call comes through. There are some things you can do to blunt the effect of virtual kidnap scams:

- **Be vacation smart.** Avoid posting travel dates and locations that could add some fake legitimacy to a scammer's call.
- **Make your data private.** Revisit your online presence and lock down or delete your data so scammers know less about you.
- **A plausible alert.** Consider a password that family members can use to confirm they actually are in danger.

Message from Councilwoman Ann O'Brien

602-262-7444 council.district.1@phoenix.gov

A safer Phoenix. That is my commitment to you! While I ran for office, I talked a lot about my family's past and present relationship with Public Safety. My father is a retired Phoenix Firefighter, my sister is a Phoenix Crime Lab Technician, my brother-in-law is a Phoenix Police Detective. I wanted to get elected to serve on Council to fight for our neighborhoods and our communities. Shortly after being elected to Council, I was appointed the Chair of the Public Safety and Justice Subcommittee where I have led productive discussions and action on police recruitment and other initiatives we can investigate to increase our safety and quality of life.

This week marks two years since I was sworn in and started serving. While serving, I championed drone technologies for our officers; secured a contract to provide overnight security patrols of our parks; partnered with private corporations like QT to secure their properties; supported the \$15 million in increased funding for our Community Assistance Program under our Fire Department to respond to folks experiencing a mental health crisis with trained professionals, freeing our officers for important calls; fought the reallocation of our Community Action Officers when it was suggested we move them to different assignment positions; advocated for our regions to be included in the 27th Avenue Crime Prevention Plan, and then again in the 19th Avenue Crime Prevention Plan; defeated an attempt by some members of our Council to defund our Police Department; worked directly with the federal government to change federal regulations to ban camping along the SRP canal; donated directly from our office's budget much needed utility bikes to our officers to help aid in parks and neighborhood patrols; and enthusiastically voted to increase our officers' salary to make them the highest paid law enforcement agency in the entire state. Together, we have accomplished a lot in the name of a safer Phoenix.

And folks, I'm just getting started.

Right now, I'm in the process of finalizing my homeless plan document that I am excited to share with you all. In this document, I will define the problem and provide statistical information for how we got to where we are today and the solutions I propose to get us back to safe neighborhoods and a high quality of life for all individuals. Going into my next two years, homelessness will be a top priority for my office.

Additionally, we will continue to advocate for our public safety folks and work to incorporate more technology for our police department and our fire department. I look forward to holding robust conversations about real time crime centers and red-light enforcement to help crack down on our crime rates and protect our dangerous intersections.

From Day 1, I wanted to ensure a safer Phoenix. While we've had some successes over these last 24 months together on Council, there is still so much to do. Just as I committed to you before, I am committing to you again. A Safer Phoenix! That's what we're working towards.

All my best, **Ann** Councilwoman, District 1

Water Conservation

Did you know that the typical household uses 70% of its water outside? Phoenix's landscape watering guides can help you conserve water, and proper watering will also keep your landscape plants healthy and beautiful throughout the year.

- Water grass no more than twice per week and trees no more than once per week year round. Text "WHENTOWATER" to 33222 for monthly watering guides.
- Learn more at phoenix.gov/watercloud

Water Leaks

Use your water bill as a leak-detection tool. If you notice an unexpected increase in water use or cost, you may have a leak. A small leak can waste a lot of water and significantly increase the cost of your water bill. When looking for leaks, always check indoors and outdoors.

SWIMMING POOL SAFETY TIPS

Pool season is in here, so take these steps to keep your park visitors safe this summer:

1. Remove toys and floats from the pool immediately after use; they can attract children.
2. Always assign a **designated watcher** for children in and around the pool.
3. Make sure there is a self-closing gate around your pool, and always keep it maintained.
4. Gates and fences around the pool area should be at least 4 feet high.
5. All pools should have regulation drain covers; discuss local regulations with your pool maintenance provider.
6. Keep a fully stocked first aid kit and rescue equipment near your pool area.
7. Never swim alone.
8. Learn to perform CPR on both adults and children.
9. Post pool signs in prominent locations and make sure they are easily seen and read.
10. Inspect pool areas for slipping hazards and install safety tape as a precaution.

Arizona License and ID cards are getting an updated look

New security features to further reduce ability for fraud

The Arizona Department of Transportation Motor Vehicle Division (MVD) will be releasing brand new driver license and ID cards this March. The new design will include several new security features that help prevent counterfeit reproductions or fraudulent use.

Attempted counterfeits of driver license and ID cards continue to be a concern for law enforcement, as well as personal information security. The advancement of security features in the card help prevent those counterfeit attempts from being successful.

The new design, which highlights several Arizona features, is a result of a new contract with Thales Group. Thales was selected through a procurement process as the new vendor, because of the company's ability to provide the latest security features on driver license and ID cards.

New features of this card include:

- 100% polycarbonate material that consists of multiple layers of plastic, fused together without adhesives, to form a solid structure impervious to tampering. The high durability of polycarbonate also provides the longest lifespan of any card, allowing for extended card life without compromise.
- Laser-engraved information and black and white photo.
- "Dynaprint," with two high-resolution images that appear based on the angle of the card, provides front-line authenticators with assurance that the card is genuine and strong protection against duplication or reproduction efforts.
- Saguaro cactus and ponderosa pine tree images were selected to represent the diversity of Arizona terrain and communities.
- "Secure Surface" is another security feature that incorporates a slightly raised surface and provides a subtle feel to part of the card. This is another quick authenticator for law enforcement and other authorities. It also helps reduce potential alterations or fraudulent cards.

The new cards will be available in mid-March, for both the Travel ID and the standard ID.

The current card design will continue to be issued for requests through Feb. 28, and will remain valid until the expiration date.

Visit azdot.gov for more information about the new card design.

More than 3.5 million Arizonans now have AZ MVD Now accounts

Online MVD portal offers customers security, speed and convenience

PHOENIX – More than 3.5 million Arizonans have discovered the safest, fastest and most convenient way to complete services with the Arizona Department of Transportation Motor Vehicle Division.

Since launching in April 2020, 3,563,000 Arizonans have activated free AZMVDNow.gov accounts, giving them access to the primary online portal for MVD customers.

The AZ MVD Now portal offers more web-based services than ever before, with more levels of security and options to get you out of the line and safely on the road.

Here are some of the things you can do with your AZ MVD Now account:

- View information related to your vehicle, including title status, registration status and MVD service history.
- Complete more than 30 services such as registration renewals, ordering a duplicate license, change of address, updating insurance, title transfers and sold notices.
- Schedule an in-office appointment for the time that is more convenient in your day.

Every Arizonan with a credential – a driver license or identification card – or a vehicle registered in Arizona has an AZ MVD Now account. To activate the account, please visit AZMVDNow.gov and follow the prompts. AZ MVD Now accounts are free and protected by several security protocols that are explained on the site and in an accompanying "how to" video.

988

People experiencing a mental health crisis have a new way to reach out for help in the U.S. They can simply call or text the numbers 9-8-8.

Modeled after 911, the new three-digit 988 Suicide & Crisis Lifeline is designed to be a memorable and quick number that connects people who are suicidal or in any other mental health crisis to a trained mental health professional.

"If you are willing to turn to someone in your moment of crisis, 988 will be there," said Xavier Becerra, the secretary of the federal Department of Health and Human Services, at a recent press briefing. "988 won't be a busy signal, and 988 won't put you on hold. You will get help."

The primary goal of the new number is to make it easier for people to call for help. Lawmakers and mental health advocates also see this launch as an opportunity to transform the mental health care system and make care easily accessible everywhere in the United States. The Biden administration has invested more than \$400 million in beefing up crisis centers and other mental health services to support the 988 system.

BLOCK WATCH IMPROVES THE QUALITY OF LIFE WITHIN OUR DEER VALLEY PARK NEIGHBORHOOD!

Block Watches come in all sizes. They can be a few houses in a cul-de-sac to a whole square mile neighborhood organization. They help to develop a "sense of community" and strengthen and sustain neighborhoods by bringing residents/neighbors together with a common interest.

Every Block Watch starts with one person and their concern for the safety and well-being of themselves and their families. Their motivation may be to meet or get to know their neighbors to protect the children, to keep property values up by eliminating blight and graffiti, to stop speeding on the streets by installing speed humps to protect the children, to have peace of mind by discouraging barking dogs and loud parties, and to be safe from crimes like burglary, theft and assault.

We all want to live in a safe and secure environment. Our homes should be a safe haven. By rights there should be several "Layers of Protection" around our homes starting with National and State Governments controlling our Borders, then State and City Police Departments with local precincts and City Governments that provide education and resources, then Community Member Groups providing Phoenix Neighborhood Patrollers and PNP signs posted on neighborhood streets and then a Block Watch on our own street with neighbors watching out for neighbors and then our own home security alarms and lighting from burglary prevention education.

If you are interested in starting up a Block Watch on your street please contact our Black Mountain Police Precinct Community Action Officers are Tim Tewers #8698 at 602-495-5213 or 480-506-6454 tim.tewers@phoenix.gov and Jon McQuillan #8926 at 602-495-5238 or 602-904-9985 jon.mcquillan@phoenix.gov

Come to the Black Mountain Community Alliance Meeting on the second Wednesday of each month (except July, August & November) at 6:30 pm at the Deer Valley Community Center where we hold our Deer Valley Park Neighborhood Block Watch Organization Meetings and meet with our Community Action Officer!

Meetings have been on ZOOM. Check the website for updates at www.dvnbwo.com

HELP STOP CRIME IN YOUR NEIGHBORHOOD BY STARTING A BLOCK WATCH GROUP ON YOUR STREET TODAY!

Distribute this announcement to invite people to the Block Watch Meeting:

You're Invited to an Important Meeting!

If you are as interested as I am about maintaining and improving the quality of life on our street and in our neighborhood, please attend an important meeting to be held:

DAY _____ DATE _____ TIME _____

LOCATION _____

A representative of the Phoenix Police Department will be there to discuss a way we can impact and improve our community. It is called BLOCK WATCH, and we will be informed how to combine our efforts to make our homes and our neighborhood a safer place to live.

Please Plan to Attend and RSVP to:

NAME _____

PHONE _____

Our Deer Valley Park Neighborhood Block Watch Organization will be installing more of these new metal Block Watch Signs on light poles in our neighborhood. If you would like one on your street within our neighborhood, please e-mail dvnbwo@aol.com on the location.

We can also deliver a paper Block Watch Sign for your window to deter crime. Please e-mail us at dvnbwo@aol.com if you would like one!

BLIGHT AND ZONING LAWS

STRUCTURES: The maintenance of a home is the responsibility of the property owner. Any wood, siding, shingles, roof covering, railings, fences, walls, ceilings, porches, doors, windows, screens, and other exterior parts of any structure on the property must be maintained in weather tight, sound condition and in good repair. The property owner is responsible for making sure there are no doors or windows left open and not secure to the outside. *FOR HELP call the Preservation Division of the Neighborhood Services Dept. at 602-495-0700 to see if you qualify for a free Grant!*

OUTDOOR STORAGE: All outside storage that can be seen from the street should be inside sheds or cabinets. Items should not be set in car ports in view of the street. Please use enclosed areas or backyards.

JUNK, TRASH & DEBRIS: Junk, trash and debris cannot be left in the yard or car port and must be properly disposed of. This includes junk auto parts, appliances, furniture, building and/or landscaping material, trash such as discarded papers, cardboard, plastics, etc. including tree trimmings and fallen limbs or any other items that appear to have been discarded. The only exception is during the Bulk Trash Collection weeks four times a year.

PARKING: Parking is only permitted for passenger cars and motorcycles on residential streets, on driveways or in garages. A driveway or parking area must be constructed with an approved dust free parking surface. The stone must be 1/4 -3/4 in size with a permanent border holding it in. 1/4 minus size stone is not allowed for parking. There are limits to the amount of front yard area that can be used for parking. Only 35% of the front yard may be converted to driveway or dust free parking.

GRASS AND WEEDS: Grass and weeds must not be allowed to grow over 6 inches high due to fire hazard, allowing the weeds to go to seed and spreading throughout the neighborhood and causing insect infestation.

ELIMINATE GRAFFITI: Keeping the neighborhood graffiti free is something we can all do. If there is graffiti on your property, please remove it as soon as possible. The Graffiti Busters Program provides paint, supplies and training to assist groups with eliminating graffiti. The City will also remove the graffiti from private property with written permission from the property owner. Call 602-495-7014.

WHEN YOU CALL 911 KNOW THE 10 W'S

- What** - is your location? GIVE EXACT LOCATION
What - happened? WHAT TYPE OF CRIME?
When - did this happen?
These questions will determine if it is a priority call. Give as much of this necessary information as you can.
Was - anyone hurt?
Weapons - are there weapons involved?
What - manner did they leave or arrive - foot, vehicle, bicycle...?
Who - did it? -Suspect description
Where - did the suspect go? - What direction
What - did the suspect obtain? - type and amount
Who - is calling? - Give your name location and phone number (You can remain anonymous. If you do give your name, the info is redacted from the public record access.)

SIGN UP FOR REVERSE 911 IN CASE OF EMERGENCY

Getting an emergency message out to those living near a catastrophe can be difficult. In Arizona, there is a reverse 911 system.

The Community Emergency Notification System helps those managing a disaster send a message to potential victims, alerting them to stay away and stay safe.
The Community Emergency Notification System is a robo-voice message alert going straight to your phone.
The system automatically dials the landlines in the area of the active scene, but with landline phones nearly extinct, you must register your cell phone if you want to get the message.

[Click here to register your phone](#)

<https://maricoparegion911.onthealert.com/Terms/Index/?ReturnUrl=%2f>

The system will be able to send text messages out and not only to those who are registered but also to anyone who is near a cell tower where the situation is ongoing.

VISIBLE HOUSE NUMBERS

Please take a moment to step out in front of your home and look for your address. Seriously, if you were an emergency responder is your address visible? Have bushes grown and now obscure or is there an RV parked in such a way that the house numbers are not easily seen? DO NOT rely on the painted curb because a parked vehicle can cover it up. If you have an alley, please take the time to be sure your address is visible on your fence also. Also, make sure the address numbers are visible after dark! Solar LED Spotlights work great!

DVPNBWO GRAFFITI WATCH

Our neighborhood needs help! If you would like to join our Graffiti Team to paint over the graffiti as soon as it shows up around the neighborhood, please e-mail dvpnbwo@aol.com. When you see it in and around our neighborhood, please call Laura Robins at 623-533-0847. THANKS!

IMPORTANT INFO ABOUT NEXTDOOR!

The Police can only post information and events, they cannot see any posts by you or your neighbors unless the posts are directly responding to the Police post. When you or your neighbors talk about suspicious activity, burglaries, etc. on the neighborhood list, the police cannot see it. So, you need to call the information in to CRIME STOP 602-262-6151 or to be anonymous, call SILENT WITNESS 480-WITNESS.

Website: www.IdentityTheft.gov

Recovering from identity theft is easier with a plan. If someone has stolen your identity, or you've gotten a notice about a data breach, visit the FTC's new site at IdentityTheft.gov for help. IdentityTheft.gov is the federal government's one-stop resource to help you report and recover from identity theft. It's also available in Spanish at RobodelIdentidad.gov. If you visit the website for the Federal Trade Commission www.ftc.gov and go to Publications (type publications in the search bar) you should be able to locate approximately 187 different FREE publications on all types of different topics. This may be a good resource for community information without the burden of paying for printing.

You can also get on the DO NOT CALL REGISTRY!

The Do Not Call Registry accepts registrations from both cell phones and land lines. To register by telephone, call 1-888-382-1222 (TTY: 1-866-290-4236). You must call from the phone number that you want to register. To register online (donotcall.gov), you will have to respond to a confirmation email.

**BE THE FIRST ON YOUR BLOCK TO GET THE NEWS!
GET ON THE DVPNBWO E-MAIL LIST !**

E-mail dvpnbwo@aol.com and request to be put on the e-mail list to receive CRIME ALERTS, reminders for the Deer Valley Park Neighborhood Community Meetings, early copies of this neighborhood newsletter IN COLOR and timely information about Lost Pets, Neighborhood Events and Concerns.

A REMINDER: PLEASE REMEMBER ON COLLECTION DAYS TO PUT YOUR GARBAGE AND RECYCLE CANS IN THE STREET WITH THE WHEELS AGAINST THE CURB AND NOT ON THE SIDEWALK WHERE OUR KIDS RIDE THEIR BIKES, ETC.

BULK TRASH PICKUP

The new date for our neighborhood (Area 12) to start putting out bulk trash will be on Saturday, JUNE 10th. Pick up begins on Monday, JUNE 19th.

Remember, there is a **ONE WEEK RULE**, so don't put the trash out too early. Bulk trash consists mainly of materials that cannot be placed in your green/black garbage container or recycled in your blue Phoenix Recycles container.

Unacceptable Materials

Our Bulk Trash crews will not pick up the following:

- More than 20 cubic yards per residence, or a pile the size of a SUV
- Loose debris and litter
- Loose grass, leaves, weeds, twigs and hedge clippings
- Household hazardous waste (HHW), such as antifreeze, pool chemicals, oil, batteries, and paint
- Community piles
- Materials placed in the Bagster bags
- Materials such as bricks, concrete, dirt, rocks, asphalt and roofing shingles/tiles
- Construction materials in excess of 25 pounds or over four feet long
- Metal or car parts in excess of 20 pounds or over four feet long
- Tires, any shape or size
- Glass such as windows, shower doors, patio doors, mirrors, fluorescent tubes, etc.
- Tree trunks or stumps larger than 12" in diameter
- Appliances that use refrigerants such as freezers, refrigerators, and air conditioners

(Remember that the trash needs to be 5 feet away from any object, behind the curb, and no larger than a pile 10 feet long, 9 feet wide and 6 feet high. If the pile runs up into your driveway expect to clean the area above the sidewalk yourself.)
