

BEAN

MACHINE

Quality | Convenience | Value

Why Bean Machine?

SPACE LIMITATIONS

As urban spaces become more crowded & real estate prices soar, not every establishment can afford the luxury of a dedicated space for a coffee shop.

CONVENIENCE

Modern businesses thrive on convenience. Bean Machine ensures that people don't have to leave the premises to get their caffeine fix.

QUALITY

Our advanced technology and design ensure that every cup of coffee matches the quality you'd expect from a professional barista.

VALUE

By combining quality with value, we offer businesses a unique advantage of offering top-tier coffee experience to their visitors and employees.

VERSATILITY

Whether you have a small office building or a large complex, Bean Machine can cater to varying needs. Its modular design ensures that it's suitable for spaces of all sizes.

LOCATIONS

Offices, Business Centers, Educational Institutions, Hospitals, Hotels, Museums, Airports, Transport Hubs, Retail Spaces and Malls.

21"

Touchscreen

Full capacity touchscreen and intuitive workflow actively engages the customer with a modern user experience.

25

Drink Selections

Extensive drink menu offering up to 25 fresh brew coffee, tea & chocolate beverages to satisfy any craving.

41

Seconds

It takes to brew your perfect cup of coffee. Oh, have we mentioned? No tipping required.

1st

In The Industry

Patented brewing and cup drop technology ensures reliable drink delivery every single time.

WE ARE NOT REPLACING YOUR FAVORITE COFFEE SHOP

While the innovative "Bean Machine" offers a convenient and high-quality solution for fast-paced professionals like yourself, it isn't a replacement for your favorite local coffee shop.

Beyond the caffeine, coffee shops provide an ambiance and community feel that a machine can't replicate.

"Bean Machine" meets a specific need in your fast-paced world, but coffee shops remain irreplaceable as social and creative hubs.

Our Story

During our travels, in the charming streets of Europe, we stumbled upon an unexpected muse—a coffee vending machine. That might not sound like the epitome of a European experience to most, but to two passionate coffee lovers, it raised our curiosity. The simple joy of sipping that splendid brew sparked an idea, and there, **thousands of miles from home, the foundation of the Bean Machine was laid.**

Our journey back to the States was nothing short of an entrepreneurial brainstorm. We were two dreamers in a plane, floating above the clouds with a vision. Eight hours felt like minutes as we sketched out pages and pages on our iPad.

Being born and raised in Europe, the very essence of quality coffee runs through our veins.

But we didn't just want good; we wanted impeccable. We yearned for a machine that mirrored the **sophistication of modern hardware**, intertwined with the **best software available. So the search began.**

But what's innovation without a pinch of heart and warmth? Our young son, with the wisdom only a five-year-old (back then) can possess, reminded us of the little joys. Thus, while Bean Machine delivers a perfect shot of espresso for adults, it also embraces the innocence of childhood with delightful hot chocolate and tea.

The concept of a coffee vending machine isn't novel.

However, the traditional approach with drip coffee never resonated with our palate.

We wanted to redefine the experience, focusing on espresso-based technology—an ode to the authentic European coffee culture. **This wasn't just about innovation; it was about revisiting traditions with a modern touch.**

Coffee for us isn't just a beverage; it's a ritual, a silent promise of a new day. With Bean Machine, we bring a piece of our heart, our travels, and our passion to your cup. We've lived the magic of a perfect coffee cup, and now it's your turn. So next time you come across a Bean Machine, remember **you're not just getting a cup of coffee—you're sipping on a dream that journeyed across the Atlantic. Enjoy**

Richard and Elli Novikas

How It Works

1 | Space Evaluation

Does your space check all of the boxes in order to get a free Bean Machine?

2 | Foot Traffic

Is there enough foot traffic to justify a free Bean Machine in your Space?

3 | Access

Do guests have easy access to get a coffee, and can our servicemen conveniently service the machine?

4 | Placement

If all the boxes are checked, we will install a Bean Machine within a few weeks.

5 | Benefits

Reap the rewards of an energized team with exceptional coffee always at hand.

6 | The Rest Is Us

We handle all repairs, service, replenishment and customer service.

Visit [Bean-Machine.com](https://www.Bean-Machine.com) to submit your space for free evaluation
