

# About Klear Moves

Klear Moves Invisible Aligner Consultants is a US based firm who provides treatment, planning and manufacturing of aligners to the global market. Many doctors have utilized these services as an alternative clear aligner therapy to lower lab costs and achieve the same results.

Doctors can use our system to treat mild to medium cases or short term orthodontics such as relapse, mild crowding, close spaces and other malocclusioning therapy.

“ Democratizing oral health doesn't mean lowering the standard of care. ”

# Money back in your pocket.

The experts at Klear Moves have developed five ways to save money by introducing Klear Moves Aligners into your practice.

## Treatment Planning ONLY

Reviewed by an Orthodontist  
\$135

### Capital Planning.

Upload scans, x-rays and relevant data to our secure portal and allow Klear Moves designers to set up a case for you to review and present to your patient.

## A-La-Carte

Lower case design  
\$23

### Certified Manufacturing

Let Klear Moves design your case and order aligners as needed. Aligners are laser cut and polished for patient comfort. All aligners are marked for patient ease of use.

## 3 Packages to choose from

KM20 Aligner Package  
\$565

KM40 Aligner Package  
\$865

KM60 Aligner Package  
\$1065

Includes either 20, 40 or 60 aligners. One refinement template, one set of retainers, plastic case, pull tool, chewies, and shipping.

## Do it yourself Aligners Hybrid

Treatment Planning  
\$135

Fast and efficient.

We send the office the .stl file for you to print the template and first 2 stages. You order the rest of the aligners through Klear Moves. Patients receive their case within a week with in-house printing. Each aligner is \$23.

## Do it yourself Aligners Full Case

Treatment Planning  
\$135

Fast and efficient.

We send the office the design Stages in .stl format and your office manufactures the aligners in-house.
