32
Amp

3
Phase

22
KW

MODEL: CEVM3T2-32T

1 Before Use

- Read all instructions & warnings carefully.
- Check the specifications of your electric vehicle to ensure compatibility.
- Fully uncoil lead prior to charging.
- Check for damage, if damaged in any way DO NOT USE.

2 Intended Use

This product is intended for charging of portable electric vehicles at public charging stations or dedicated charging points.

3 Warnings

- Do not modify this product in any way.
- Do not wire directly into a mains supply.
- Do not submerge in water.
- Do not step on, pull, fold or knot the cable.
- Always keep the connectors clean and dry.
- Keep away from high temperature objects during charging.
- Ensure the charging cable is not a tripping hazard during use.
- If this product is damaged in any way cease use immediately, either discard or consult a registered electrician.
- Caution must be taken when using this product to prevent risk of electric shock.

4 Vehicle Compatibility

- COMPATIBLE WITH TYPE 2 CONNECTIONS found on multiple EV makes and models including Tesla, Audi, BMW, Toyota, Hyundai, Jaguar, Porsche, Nissan, Volkswagen, Volvo, Citroen, Land Rover, Mercedes, Mini Cooper, Renault, Kia and more*

*Not all makes and models will be available in your region. Scan this QR Code on this page for our most up to date model list.

5 Start Charging

- 1) Uncoil the charging lead, gently remove the socket caps covering the connectors. (Complete one end at a time, plugging in the open connector before removing the opposite cap)
- 2) Securely connect to the charging outlet, then connect the opposite end securely to the vehicle charging inlet.
- 3) Ensure the connections are secure.

NOTE: Do not force into place, if there are any obstructions take caution and remove them before inserting the plug.

IMPORTANT: Ensure no water or debris enters into the connectors prior to charging. The connectors/plugs should be clean and dry.

6 Stop Charging

- 1) Disconnect from the vehicle charging inlet.
- 2) Close the protective cap of the vehicle charging inlet.
- 3) Place the protective cap onto the Type 2 connector.
- 4) Disconnect from the charging outlet.
- 5) Place the protective cap onto the Type 2 connector.
- 6) Store your Charging cable.

NOTE: Never use undue force when plugging in or disconnecting from charging inlets or outlets.

CEVB – Storage Bag (Sold Separately)

7 Specifications
