Width 25 in.

Seat

Height: 20.5 in.
(Floor to top seat)
Depth: 13 in.
Width: 16.5 in.

Specifications

Frame - 6061 Aluminum, Silver Anodized and Nylon Composite

Battery - 24V, 8.76 AH, 240 watt-hour, Lithium-Ion 4 lb. (1.8Kg) highest quality cells

Charger - 2.1A, Automatic, input 100-240V, charge time 4 hours or less

Motor - Brushless DC 24V, 200Wx2

Max. Climbing Angle - 10 Degrees

Steering System - Joystick control

Braking System - Automatic Electromagnetic

Front Wheels - 8 Inch Non-Marking Solid

Rear Wheels - 10 Inch Non-Marking Air Filled (40PSI / 2.8BAR / 275kPa)

Turning Radius - 25 Inches

Weight Capacity - 300 lb. maximum capacity

Governor controlled up to 3.7 MPH maximum speed

ZOOMER™

It's not a Wheelchair... It's not a Power Chair... It's a Zoomer!

Meet the future of personal transportation. Turns on a dime. Folds & unfolds in seconds. Fits in your vehicles trunk or back seat. Seats you at tables & desks like a normal chair. Fun to drive, too!

The Zoomer is all about convenience so taking it along couldn't be easier. It folds to 12" in less than a second and only weighs **50 pounds** with the battery! And it's airline safe with its 240W Hour Lithium Battery.

Driving the Zoomer is easy! Simply move the joystick in the direction you want to drive the Zoomer. The joystick moves the Zoomer forwards, backwards, and to either side with simple guidance from your fingers. The user controls both the direction and the speed from this simple, yet effective joystick. You can even set a speed range to better control your movement.

Navigate into small spaces with a 50% smaller turning radius than mobility scooters. Zoomer has **25" turning radius**.

NOTE: The Zoomer Chair is a personal electric vehicle and is not a medical device nor a wheelchair, and has not been submitted to the Food and Drug Administration for review or clearance. Zoomer is not intended for medical purposes to provide mobility to persons restricted to a sitting position. It is not covered by Medicare or Medicaid.

Folds down to just
12" flat!

Operates on up to a 10° grade

The Zoomer is capable of climbing up to a 10° incline. As a general reference, ADA compliant wheelchair ramps are 5° or less.
