

Immune Health Product Guide

Supporting the body's complex immune system

A healthy immune system provides multiple response layers against environmental influences. The strength of this barrier is influenced by internal and external factors that can deplete the body's reserves:

Stress

Lack of exercise

Unhealthy diet

Inadequate rest

Advanced age

Frequent travel

Raise your defense

Adequate macro- and micronutrient intake plays an essential role in immune cell functions and key metabolic pathways. Replenishing nutrients essential to healthy immune function can help. Some patients may benefit from higher levels of certain nutrients than a typical multivitamin or normal diet supplies. Meanwhile, probiotics support immune health by promoting growth of beneficial intestinal flora.*

And don't forget, adequate rest, relaxation, recreation, and social ties are all associated with greater vitality and longevity.*

Why Metagenics immune-support products?

There's no room for doubt when it comes to what you put in your body. That's why, from proper ingredient sourcing to advanced continuous testing, we've set the bar high for ourselves and for the industry.

We do our own testing on every ingredient and every batch because consistency matters—and we want every capsule, tablet, and softgel to be safe and effective. With 48,000+ quality control tests conducted annually, we promise to deliver reliable formulas you can depend on.

TruQuality™
PURITY, POTENCY, TRANSPARENCY

Put us to the test

TruQuality offers the very first platform of its kind, granting full visibility to testing information for every single batch we make

That's transparency you can trust

Garlic helps to support cardiovascular and immune system health.* 	90 tablets	1 tablet

Vitamin C

Vitamin C is a powerful antioxidant and helps support the immune system.*

Formula	Description	Features & Applications	Available Sizes	Serving Size
<u>Ultra Potent-C® 500</u>	Gentle, buffered vitamin C for immune support*	<ul style="list-style-type: none"> Proprietary, patented vitamin C formula that features a buffered delivery system designed to help prevent the potential stomach upset sometimes associated with high vitamin C intake.* Supports healthy immune function and is a good source of antioxidants from vitamin C.* 	90 tablets	1 tablet
<u>Ultra Potent-C® 1000</u>	Gentle, buffered vitamin C for immune support*	<ul style="list-style-type: none"> Proprietary, patented vitamin C formula that features a buffered delivery system designed to help prevent the potential stomach upset sometimes associated with high vitamin C intake.* Supports healthy immune function and is a good source of antioxidants from vitamin C.* 	90 tablets	1 tablet
<u>Ultra Potent-C® Chewable</u>	<ul style="list-style-type: none"> Easy-to-chew tablet Natural Orange Blast flavor Excellent immune health support* 	<ul style="list-style-type: none"> Exclusive, patented vitamin C formula in a great-tasting natural Orange Blast flavor. In addition to providing support for immune health and antioxidant protection, vitamin C is essential for the production of collagen and connective tissue.* One tablet of Ultra Potent-C Chewable provides the same amount of vitamin C found in four oranges.* 	90 chewable tablets	1 chewable tablet
<u>Ultra Potent-C® Powder</u>	Gentle, buffered vitamin C for immune support*	<ul style="list-style-type: none"> Proprietary, patented vitamin C formula that features a buffered delivery system designed to help prevent the potential stomach upset sometimes associated with high vitamin C intake.* Supports healthy immune function and is a good source of antioxidants from vitamin C.* 	122 servings	¼ rounded teaspoon (1.95 g)

Vitamin D

Sometimes you have to create your own sunshine. Vitamin D is an important vitamin that supports bone, cardiovascular, immune, and neurological health,* and according to the National Center for Health Statistics, three-quarters of US adults are deficient in vitamin D.¹ Metagenics vitamin D formulas feature vitamin D₃—the most bioactive form of supplemental vitamin D. It comes in easy-to-swallow softgels, tablets, and liquid formulations.

Formula	Description	Features & Applications	Available Sizes	Serving Size
D₃ 1000™	Bioactive vitamin D in microtablet delivery form	• Features high-potency vitamin D ₃ —the most bioactive form of supplemental vitamin D—in easy-to-swallow microtablets. Vitamin D is important for maintaining healthy bone strength and immune function.*	120 tablets	1 tablet
D₃ 2000™ Complex	Isoflavone-activated support formula	• Delivers 2,000 IU of the preferred form of vitamin D, as vitamin D ₃ , in each tablet. The inclusion of isoflavones may help facilitate the body's utilization of vitamin D ₃ .*	90 tablets	1 tablet
D₃ 5000™	High-potency, bioavailable vitamin D	• Features 5,000 IU of vitamin D ₃ in easy-to-swallow softgels. This bioavailable form of vitamin D is solubilized in oil to support absorption in the intestinal tract.*	120 softgels	1 softgel
D₃ 5,000 + K	High-potency, bioactive vitamin D with vitamin K	• Provides 5,000 IU per softgel of vitamin D (as D ₃), designed for greater absorption. This high-potency formula also includes bioavailable forms of vitamin K ₂ (menaquinone-7) to complement vitamin D.	60 softgels	1 softgel
D₃ 10,000 + K	High-potency, bioactive vitamin D with vitamin K	• Provides 10,000 IU per softgel of vitamin D (as D ₃), designed for greater absorption. This high-potency formula also includes bioavailable forms of vitamin K ₂ (menaquinone-7) to complement vitamin D.	60 softgels	1 softgel
D₃ Liquid	Designed for enhanced absorption*	• Delivers 1,000 IU of vitamin D in an easy-to-use liquid format.	2,275 servings	1 drop

Zinc

Zinc is an essential mineral and plays an important role in maintaining healthy immune system function.* Metagenics offers zinc products in both tablet and liquid forms.

Formula	Description	Features & Applications	Available Sizes	Serving Size
Zinc AG™	GI-friendly, highly absorbable zinc	<ul style="list-style-type: none"> • Features zinc as an amino acid chelate with arginine and glycine designed to be highly absorbable and well-tolerated.* • Zinc is especially important for immune and tissue health.* • Zinc is also a component of numerous enzymes in the body related to energy metabolism, bone mineralization, and protein synthesis—and plays a role in male reproductive health.* 	60 tablets 180 tablets	1 tablet
Zinc Drink™	Liquid zinc supplement	<ul style="list-style-type: none"> • Provides zinc in a convenient liquid supplement that can be mixed with water or juice. • Zinc is an essential trace mineral that is needed for the activity of numerous enzymes associated with energy metabolism.* • Zinc plays an important role in maintaining healthy immune system function.* 	28 servings	1 teaspoon (5 mL)
Zinc Tally™	Zinc status test	<ul style="list-style-type: none"> • May provide a simple method for evaluating zinc status. • After placing 10 mL of Zinc Tally in the mouth, a lack of taste or a delayed taste perception suggests a possible zinc insufficiency.* • An immediate taste perception suggests zinc status may be adequate.* • Zinc Tally may also be taken as a supplement. 	12 servings	2 teaspoons (10 mL)

Probiotics

There are over 3.8 trillion bacteria in the body, mainly residing in the intestines, but the benefits of probiotics, or “friendly” bacteria, extend far beyond the gut.¹ The gut plays an active role in immune health. Most people think probiotics work by directly impacting the gut composition, but it’s actually the interactions of the probiotics and the compounds they produce with immune cells, food and nutrients, and other microorganisms in the gut that impact health.²

Unhealthy diets, stress, and other factors can disrupt the body’s balance of “good” and “bad” microorganisms and affect digestive, urogenital, and immune health. A quality probiotic can help promote a healthy microbial balance to support multiple aspects of health.*

Formula	Description	Features & Applications	CFU (total)	Available Sizes	Serving Size
UltraFlora® Immune Booster	Targeted probiotic support for healthy nasal, sinus & respiratory function*	<ul style="list-style-type: none"> • Strains: <i>L. paracasei</i> 8700:2, <i>L. plantarum</i> HEAL9 • Blend of highly viable, pure strains of “friendly” bacteria that have been clinically shown to support healthy nasal and sinus function* 	1 billion	30 capsules	1 capsule
UltraFlora Balance	Daily probiotic support for gastrointestinal & immune health*	<ul style="list-style-type: none"> • Strains: <i>L. acidophilus</i> NCFM®, <i>B. lactis</i> Bi-07® • Support for a healthy intestinal environment* • Convenient capsule form† 	15 billion	60 capsules 120 capsules	1 capsule
UltraFlora Synergy	Daily probiotic for immune health & digestive support*	<ul style="list-style-type: none"> • Strains: <i>L. acidophilus</i> NCFM®, <i>B. lactis</i> Bi-07® FOS (420 mg) • Features valuable prebiotics to promote the growth of beneficial bacteria* • Great for seniors or those who prefer powder form† • Valuable prebiotics (fructooligosaccharides) to promote the growth of beneficial bacteria.* 	15 billion	1.76 oz (50 g) powder	About 1/4 teaspoon (.75 g)
