## AKC National Owner-Handled Series

The AKC National Owner-Handled Series is a non-titling competition for dogs that are exhibited by their owners that are not professional handlers.

Exhibitors must declare their dog is Owner-Handled eligible at the time of entry on the entry form.

Dogs entered in the Amateur-Owner-Handler class will automatically be marked as eligible to compete in the NOHS. Eligible dogs will be identified by an asterisk in the judge's book, steward's book & the catalog. Dogs must be handled throughout the breed level competition for the regular show by an eligible owner.

Professional handlers\*, household members and current assistants\*\* to professional handlers may not exhibit the dog in any NOHS competition during the entire show. For a detailed description of the National Owner-Handled Series, please visit the AKC website NOHS pages at:

<https://www.akc.org/sports/conformation/national-owner-handled-series/>

*\*Professional handlers are defined as any person who belongs or has belonged to a professional handlers' organization, distributed rate cards, or otherwise advertised or represented themselves as handling dogs for pay within the last five years.*

*\*\*A current assistant is defined as anyone employed by a professional handler on a full-time basis or assisting a professional handler at the show or any time during the cluster/weekend. Current assistants that are eligible to compete in Junior Showmanship (meet age & amateur status requirements) may participate in NOHS.*

It is understood that each club associated with the Lone Star State Classic reserves the right to substitute any unavailable prizes with ones of equal or greater value. Prizes must be picked up the each day of the shows. None will be mailed. All unclaimed prizes become the property of the club where offered.

**Extension Cord Requirements**

The City of Dallas enforces the 1996 national Electrical Code to ensure the public is not exposed to electrical hazards. This Code has specific requirements for the type of extension cord that may be used and how they are used.

If extension cords are used, Ground Fault Circuit Interrupt Protection (GFCI) is required. This cord is sold at most building or electrical supply stores. These cords are easily recognized as they have a test and a reset button on the cord. Most of these cords have the words "GFCI protected" printed on the cord.

All 120-volt extension cords shall be three wire grounding type cords (recognized by the three-prong plug on the end of the cord). Frayed or damaged cords may not be used. Extension cords may not be placed through doorways or across aisles.

These requirements will help eliminate harmful or fatal electrical hazards to you and/or your animals. City staff, including Fire Inspectors, will check the premises from time to time for your compliance. Your cooperation is appreciated.
