DOB	

The above driver has presented for a DOT medical certificate to drive a commercial motor vehicle. Per Federal Motor Carrier Safety Administration medical guidelines, we ask for your professional opinion to determine if the driver is medically cleared to operate a commercial vehicle and that s/he meets the following FMCSA medical guidelines for drivers with a history of **ANXIETY**:

## **FMCSA GUIDELINES FOR HISTORY OF ANXIETY**

Patients whose anxiety is substantially incapacitating, frequent and/or prolonged, requiring multiple medications to control or whose control is incomplete may warrant disqualification. Careful consideration should be given to the side effects and interactions of medications used for treatment of anxiety.

The demands of a commercial driver include loading/unloading heavy cargo, tarping trailers, coupling/uncoupling trailers, inspecting brake lines and putting on tire chains and require perceptual skills to monitor a complex driving situation and judgment skills to make quick decisions in addition to the ability to control an oversize steering wheel, shift gears using a manual transmission, maneuver a vehicle in crowded areas, enter and exit the cab frequently, and the ability to climb ladders on the tractor/trailer.
