

# **STRONGEST, SAFEST, and MOST RELIABLE hoists in the world.**

## **BUILT TO HANDLE THE TOUGHEST JOBS**

- Atlas Lifting & Rigging Premium hoists are designed for pulling, lifting and positioning loads on the toughest job site. Whether your job site is an oil rig, a construction site, a fab shop, a shipyard or any other tough workplace, we have you covered.
- Our Premium chain hoists are engineered for the harshest of environments and deliver exceptional durability to meet your toughest demands.
- Packed with a patented US-Made EXTREME APPLICATION lubricant that will keep you working in the harshest environments and extreme temperatures.
- Our ultimate strength is more than 4 times Workload Limit (WLL) meeting structural requirements for use in tough applications. Every hoist is tested and certified to 150% of rated capacity.
- The Load Carrying Side Plates carry most of the load on a hoist. Our side-plates are 20% stronger because we upgraded to alloy steel rather than carbon steel like all the competition. This gives our product the strongest structure in the industry.
- Unlike most manufacturers, our hoists have a drop forged and then welded pinion shaft with Titanium for ultimate strength to give another layer of structural integrity that other competitor don't offer.
- We are committed to building the strongest hoist in the world.

## **BUILT TO KEEP YOU SAFE**

- Every Atlas hoist is tested manually and by machine to meet our strict manufacturing requirements. Most manufactures test randomly.
- Loaded with industry leading safety features to keep you safe on the job site.
- Compact design to be light weight and durable for confined spaces and heavy loads.
- Heavy duty cast hook latches designed to allow user to actuate the latch easily without putting a finger into the hook opening which will keep your fingers from being injured and will keep your load in place and keep you safe.
- We are one of the only manufacturers to have all our manufacturing and batch identification marking on our hooks to give you complete traceability
- We are committed to building the safest hoist in the world.

## **BUILT TO LAST**

- Atlas Lifting & Rigging Premium hoists are built to the highest tolerances and with the best materials so you know it will last. We are committed to building the best hoists in the world.
- We upgraded everything on our hoists — US-made Extreme Grease, Gears, Bearings, Braking System, Load Carrying Side Plates, Chrome Plated Corrosive Resistant Internal Parts, Welded Pinion Shafts, Handle Grips, Hooks, Safety Latches, Chain.. You name it and we have upgraded it.
- We are committed to building the most reliable hoist in the world.

**Every ALR Hoist meets or exceeds OSHA and ANSI / ASME HST-3 Standards**

**BUILT TOUGH**
