Phase 1

My Daily Journal

Phase 1

Congratulations on committing to your transformation.

We know you're busy and on-the-go. We're here to help you prioritize your goals and ensure your success.

This journal gives you some much-needed structure when it comes to personalizing and customizing your experience. Writing down what you eat may seem like one extra thing to do each day, but it's a super efficient way to share your progress with your coach and helps keep you motivated and on track with just enough structure to stay organized so you can have the space to live your life.

Use this planner for self-care, reflection, and, most of all, success. Want to know how you're tracking?

Write it down.
