Guided Math

Access Here

1. Split your students into groups dependent on data
2. Pull these students to small groups
3. Use the problems provided to review with your students based on their level/needs
4. Teachers will sign the students' "Accountability Cards"

Independent Work

Access Here 

1. This is your check for understanding
2. Everyone should be able to do this independently
3. Most questions are open ended
4. GRADE THE PROCESS!!
5. Students will reflect on their accountability card

Vocabulary

Access Here

1. Students should not be memorizing definitions but understanding and applying the terms.
2. Choose a favorite frayer model for each term and make it your classroom word wall.
3. Students will record which words they created.

Exploration

Access Here

1. Students may work alone or with peers
2. This station is to promote thinking and conversation
3. Students will record their thinking on their stations "Accountability Card"

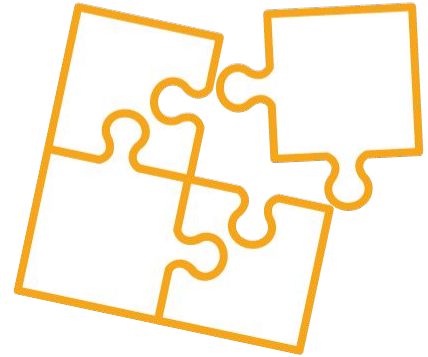

Games

Access Here

1. Students may work alone or with peers
2. Provide one game copied multiple times or multiple games (from other units as well) to give students choice
3. Students will record the game they chose on their stations "Accountability Card"

Technology

Access Here

1. This station is a separately purchased online program that reviews and reteaches students each standard on their own individualized level based on placement quizzes for each topic
2. You can access more information through the "Access Here" button
3. Students will record the Pathway Letter and video title they complete on their stations "Accountability Card"
