TECHNOLOGY ASSISTED COUNSELING (TAC) CONSENT, POLICIES & PROCEDURES, & AGREEMENT

This form is in **addition** to the regular Agreement for Psychotherapy Services/Informed Consent Form and Notice of Privacy Practices for Protected Health Information commonly known as HIPAA. You must sign both in order to participate in Technology Assisted Counseling (TAC) sessions. TAC incorporates email, phone and video counseling. Prior to engage in TAC an assessment/consultation will be done to assure that TAC is an appropriate form of counseling. This is to inform you about what you can expect regarding your participation in TAC counseling. Our group uses Doxy.me which provides a quality assured platform with all applicable HIPAA requirements.

Benefits

The benefits to TAC counseling are:

1. The ability to expand your choice of service provider.
2. More convenient counseling options including location, time, no driving, etc.
3. Reduces the overall cost and time of therapy due to not having to drive to and from and office.
4. Ability to have real time monitoring and reduces the wait time for scheduling office appointments.
5. Increased availability of services to homebound clients. clients with limited mobility, and clients without convenient transportation options.

Limitations

It is important to note that there are limitations to TAC counseling that can affect the quality of the session(s). These limitations include but are not limited to the following:

1. I cannot see you, your body language, or your non-verbal reactions to what we are discussing.
2. Due to technology limitations I may not hear all of what you are saying and may need to ask you to repeat things.
3. Technology might fail before or during the TAC counseling session.
4. Although every effort is made to reduce confidentiality breaches, breaches may occur for various reasons.
5. To reduce the effect of these limitations, I may ask you to describe how you are feeling, thinking, and/or acting in more detail than I would during a face-to-face session. You may also feel that you need to describe your feelings, thoughts, and/or actions in more detail than you would during a face-to-face session.

Logistics

When I provide phone/video-counseling sessions, I will call you at our scheduled time or send you a link for our secure and HIPAA compliant video session. I expect that you are available at our scheduled time and are prepared, focused and engaged in the session. I am calling you from a private location where I am the only person in the room. You also need to be in a private location where you can speak openly without being overheard or interrupted by others to protect your own confidentiality. If you choose to be in a place where there are people or others can hear you, I cannot

be responsible for protecting your confidentiality. Every effort MUST be made on your part to protect your own confidentiality. I suggest you wear a headset to increase confidentiality and also increase the sound quality of our sessions. Please know that I cannot guarantee the privacy or confidentiality of conversations held via phone, as phone conversations can be intercepted either accidentally or intentionally. Please assure you reduce all possibilities of interruptions for the duration of our scheduled appointment.

Please know that per best practices and ethical guidelines I can only practice in the state(s) I am licensed in. That means wherever you reside I must be licensed. You agree to inform me if your therapy location has changed or if you have relocated your domicile to a different jurisdiction.

Connection Loss During Phone Sessions

If we lose our phone connection during our session, I will call you back immediately. Please also attempt to call me at 651-204-9144 if I cannot reach you. If we are unable to reach each other due to technological issues, I will attempt to call you 3 times. If I cannot reach you, I will remain available to you during the entire course of our scheduled session. Should you contact me back and there is time left in your session we will continue. If the reason for a connection loss i.e. technology, your phone battery dying, bad reception, etc. occurs on your part, you will still be charged for the entire session. If the loss for connection is a result of something on my end, I will call you from an alternate number. The number may show up as restricted or blocked please be sure to pick it up.

If I have concerns about your safety at **any** time during a phone session, I will need to break confidentiality and call 911 (if located in the same county or emergency services in the area you are located at the time of the call) and/or your emergency contact immediately. Please note that everything in our informed consent that you signed, including all the confidentiality exceptions, still applies during phone/video sessions.

Documentation of TAC Sessions

My documentation will include each occurrence of a health care service provided by telemedicine with the following:

- The type of service provided
- The time the service began and the time the service ended, with a.m. and p.m. designations
- A description of the provider's basis for determining that telemedicine is an appropriate and effective means for delivering service to the recipient
- The mode of transmission of the telemedicine service
- The location of the originating and the distant site.

These policies and procedures will be reviewed and updated annually. They are designed to address client safety before, during, and after telehealth services are rendered. Telemedicine services will be discontinued at the consultation and agreement between the psychotherapist and the client.
