

Permitted Development

Two-Storey Rear Extension:

An extension or addition to your house is considered to be permitted development providing the following limits and conditions are met:

1. On designated land extensions of more than one storey are not permitted development.

**Designated land includes national parks, areas of outstanding natural beauty, conservation areas and world heritage sites.*

2. Extensions (including previous extensions) and other buildings must not exceed 50% of the total area of land around the original house.

The term 'original house' means the house as it was first built or as it stood in 1st July 1948 (if it was built before that date). Although you may not have built an extension to the house, a previous owner may have done so.

**Sheds and other outbuildings must be included when calculating the above 50% limit.*

3. Maximum eaves and ridge height of extension must not be higher than the existing house. If the extension is within two metres of a boundary the maximum eaves height should be no higher than three metres to be permitted development.
4. Extensions of more than one storey must not exceed beyond the rear wall of the original house by more than 3m or be within 7m of any boundary opposite the rear wall of the house.
5. Roof pitch of extensions higher than one storey to match that of the existing house, as far as is practicable.
6. Materials used in exterior work to be similar in appearance to those of the exterior of the existing house.
7. Any upper floor window in a wall or roof slope in a side elevation must be obscure glazed and non-opening unless the parts which can be opened are more than 1.7m above the floor of the room in which it is installed.
8. No balconies or verandas are permitted development.
