

A Multisensory Experience!

# The Specular Reflections Experience!

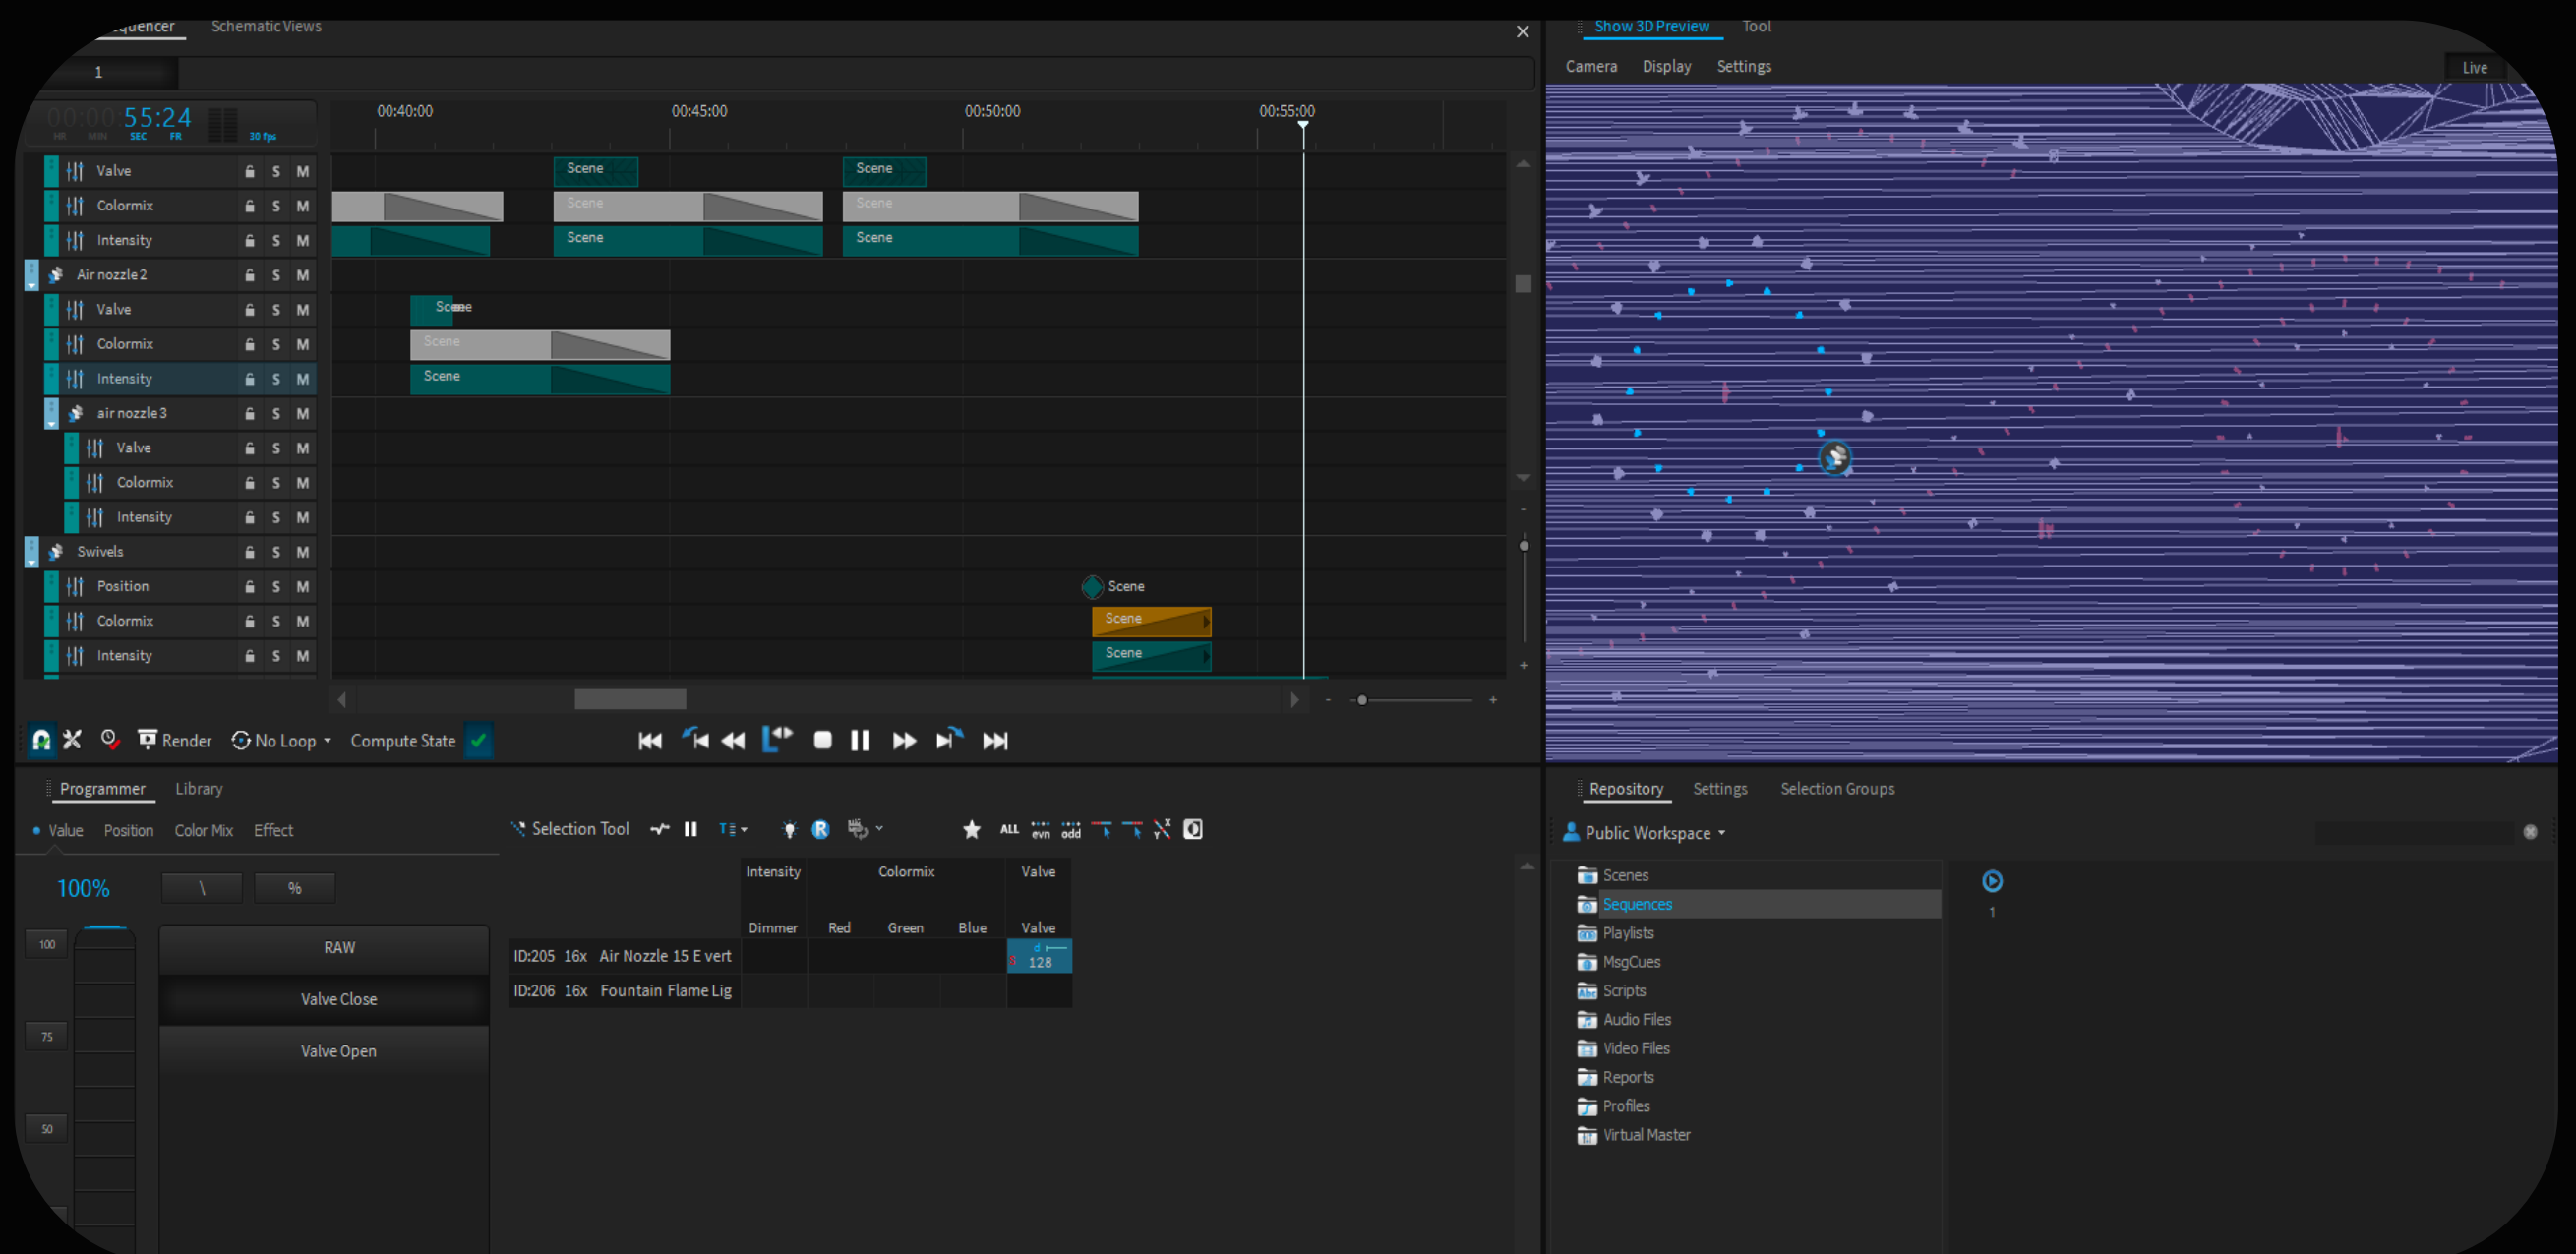

# Specular Reflections

## We Create Experiences

It is time to take lighting design and fountain choreography to a new level of creativity and innovation! Specular Reflections can turn your ideas into memorable multisensory experiences for your intended audience. Our professional team is ready to bring any mental impression to life.

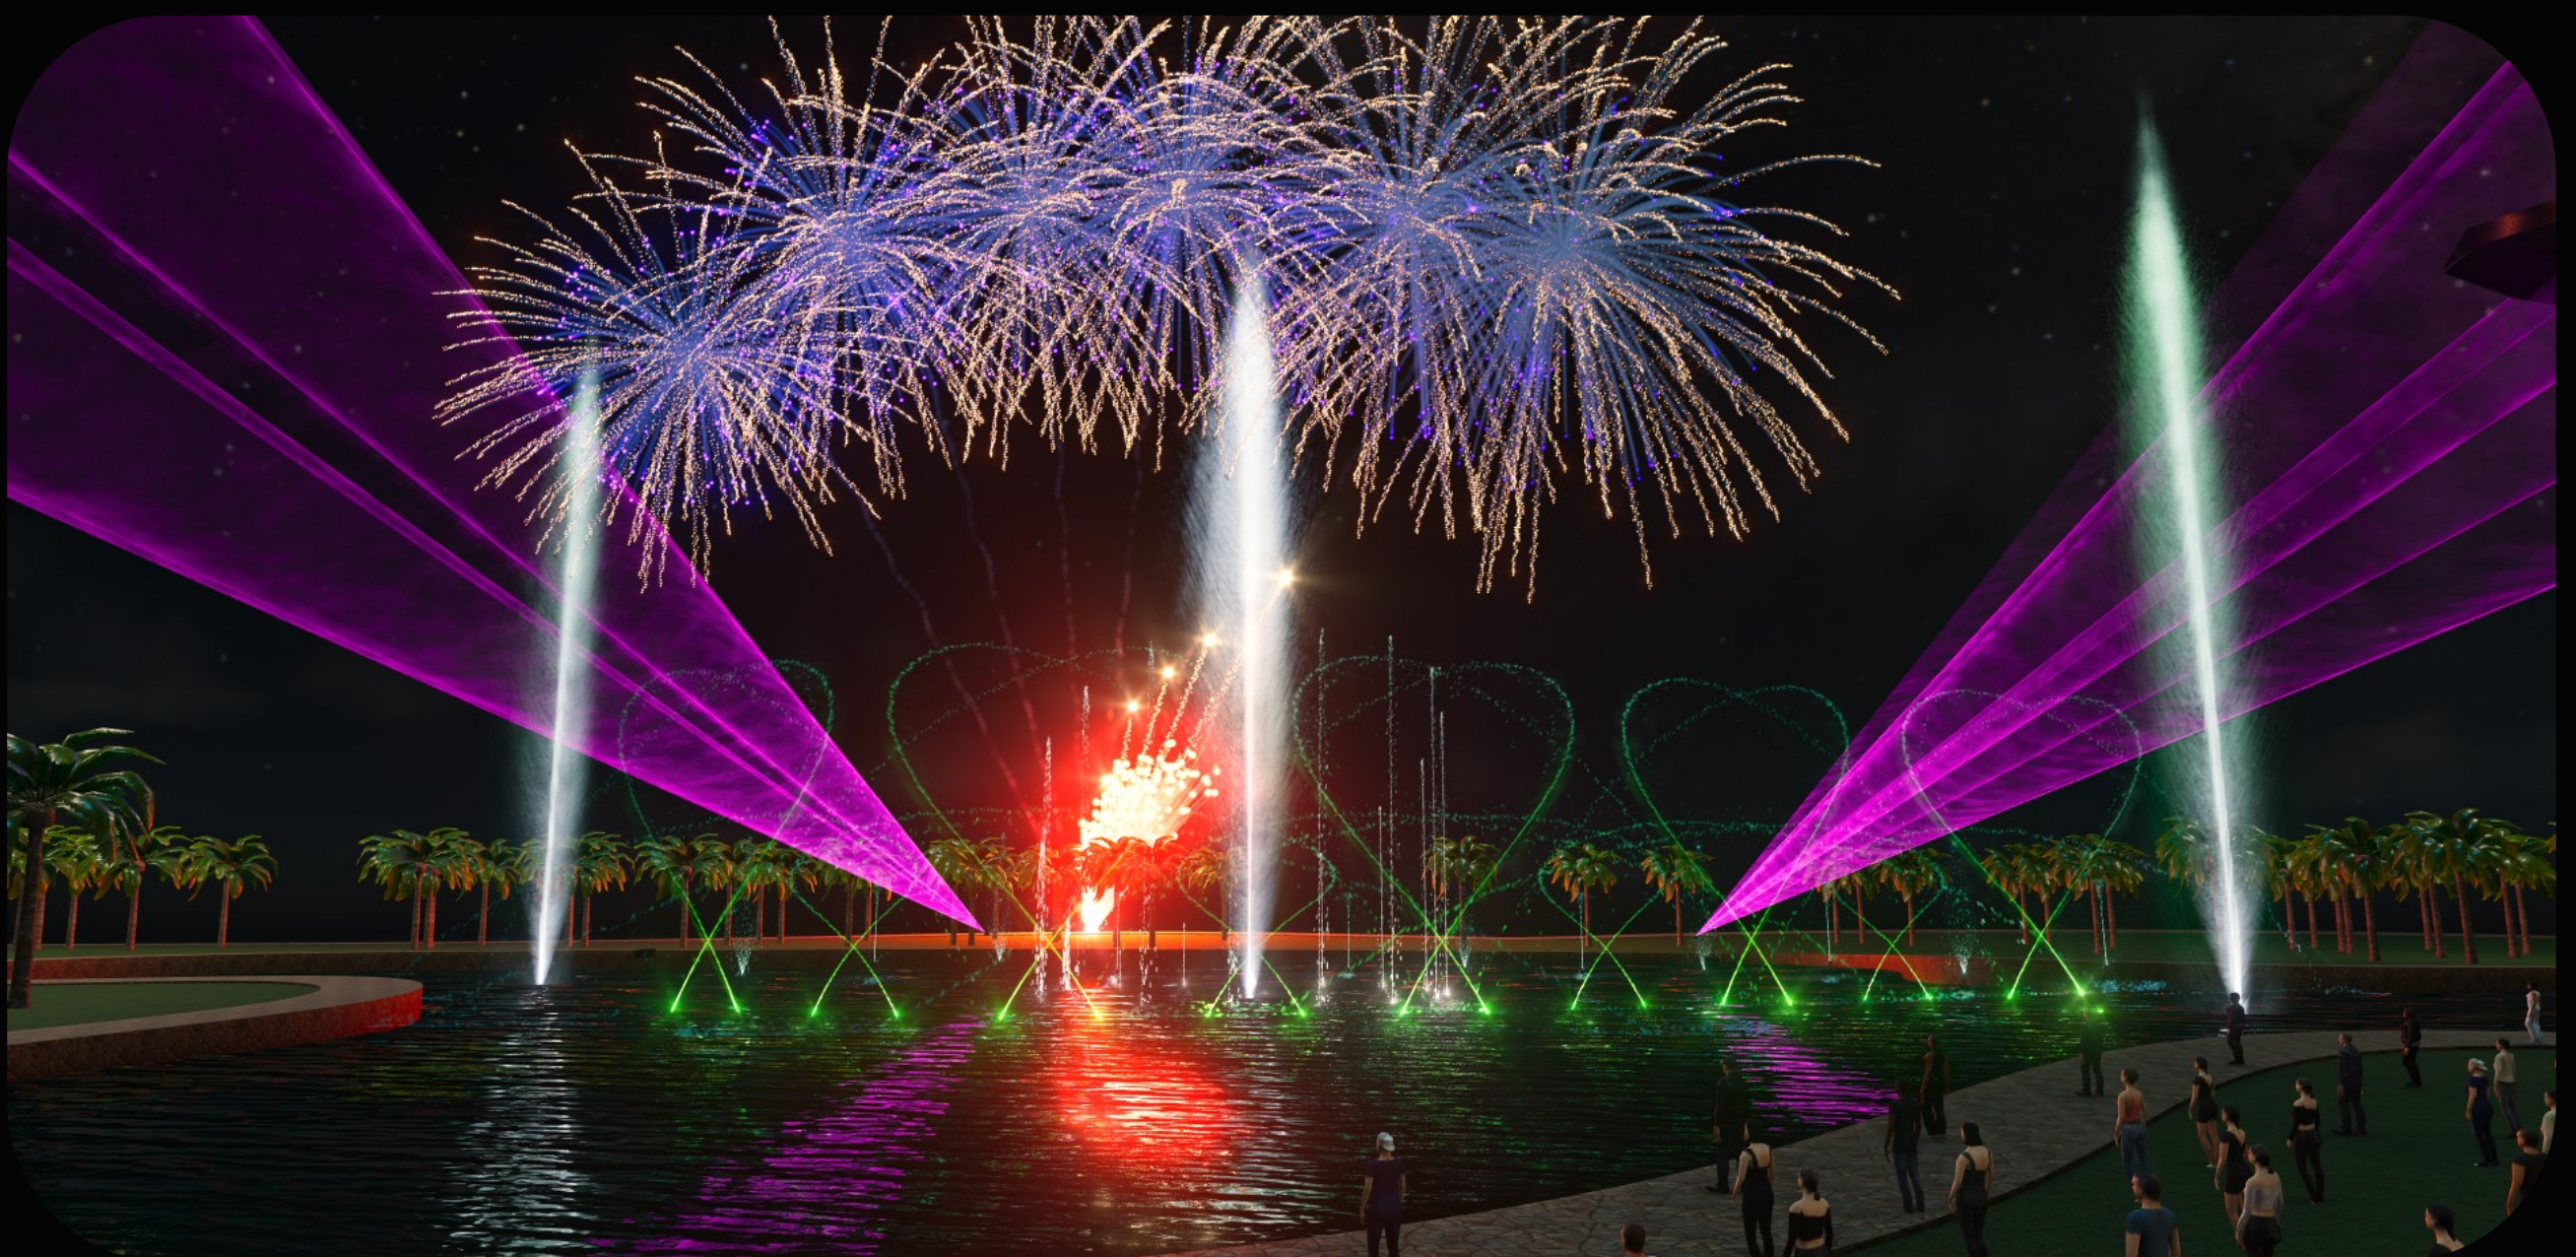

# Musical Fountains Programming

At Specular Reflections we use state-of-the-art technologies to program and create a synchronized display of light, sound, fire, and water. Our show production capabilities enable us to program in real-time multisensory spectacles.

# 3D Animation Design

Instead of creating a flat 2D plan view, our team of experts can deliver high quality videos for existing, planned or conceptual systems. These animations can also be adjusted into real-life data for any show. Present your clients with professional and fully animated clips to seal the deal!

# About Us

Our success as a company is rooted in skillful minds bringing their peerless perspectives, skills, and backgrounds to the table. The world is brimming with passable experiences, but our team is here to help you create astounding ones.

For the past ten years, we have worked with transparency pushing the limits of possible and encouraging our clients to believe that incredible ideas can turn into incredible results.

At Specular Reflections, we are committed to upholding our values of quality, excellence, and customer satisfaction. We are certain that our unique approach to design and programming, combined with our passion to light and water will help you dream, plan, and build multisensory experiences.

You are just a fingertip away! Let's create something exceptional together.
