

# HVA 19000

Past Performance

J & B Hartigan Inc.

# HVA19000- an ICD 705 Compliant Facility

**Contract Award Date: December 9, 2011**

**Contract Type: Commercial**

**\$1,032,000.00**

**Delivery Schedule /Period of Performance:**

**10 Dec 2011 – 31 March 2012**

**Client: FSO Artel Inc., LLC**

## **Description of Services Provided:**

**Program/Project Management:** JBH provided full lifecycle Program Management, Acquisition and Contract Management support for the HVA 19000 Facility and Infrastructure Requirements-Design Process. JBH analyzed and decomposed requirements for downstream costing, acquisition and integration of an ICD 705 compliant facility. JBH prepared the systems engineering and technical engineering documents required by the local government's commercial planning board to include construction permits, hazardous materials inspection, and environmental concerns.

# HVA19000 - continued

## **Description of Services Provided**

**Secure Construction Management:** JBH prepared the Secure Construction Management Plan. R 3. JBH provided the draft Fixed Facility Checklist

**Risk Management:** JBH conducted a risk and vulnerability assessment in accordance with NIST SP-800-53 and drafted the required accreditation documentations to meet Federal Information Security regulations and standards as required by NIST, FIPS and FISCAM. JBH provided SME consulting for other IT system security, access control and privacy information.

# HVA19000 - continued

## **Description of Services Provided**

**Information Assurance:** JBH reviewed Information Assurance requirements for compliance with Defense Information Assurance Certification and Accreditation Process (DIACAP) including all technical drawings, documents using the MS Office Suite and Visio and for compliance with Defense Information Assurance Certification and Accreditation Process (DIACAP) for the cable infrastructure.

**Subcontract Management:** JBH managed subcontractors who augmented cable infrastructure, security access and control, acoustical testing, security construction management and furniture provisioning.

**Subject Matter Expert (SME) Consultation:** JBH performed technical writer/editor support consisting of Computer Assisted Drawings (CAD) for infrastructure and constructions as-builts.
