Welcome to Moab House

This Handbook is intended to inform residents, known as MYA's (Moab House Young Adults) about the important aspects of living in our home. One of your first responsibilities as a MYA is to read and understand this information. All information contained in this handbook is subject to change at any time. The most recent version of this handbook can be found online at moabhouse.org/housing.

In this handbook you will find all the necessary documents that you will need in order to determine if Moab House is right for you, to learn about how you would live at Moab House, and how to sign up or get on our waiting list!

We are so excited for you!

The Moab House Method

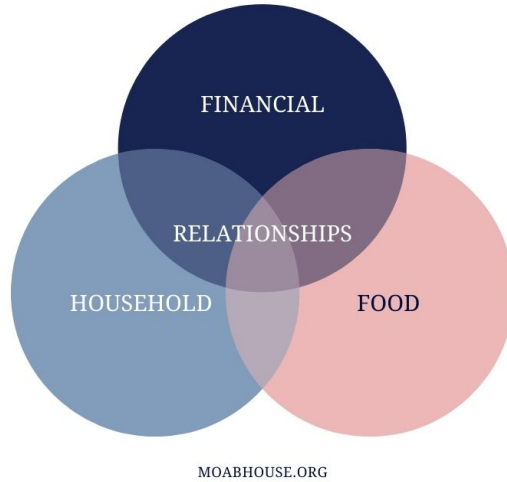

Our Mission

The Moab House mission is to provide transitional housing to former foster youth ages 18-21 who have emancipated out of the foster care system and to teach them the necessary skills for independent living through the Moab House Method.

Our Method

The Moab House Method is a process that simulates independent living by teaching necessary skills in the areas of Financial Planning and Management, Household Planning and Management, Food Planning and Management, and Relationship Building.

The Moab House Method

[<back to menu>](#)

Three Phases of Learning

The Moab House Method is taught in three phases which include Demonstration, Observation, and Integration.

Phase 1: Demonstration Phase

In Phase 1, the House Parents and/or Professional Mentors will begin exposing the MYA to learning and hands-on tasks in the areas of Financial Planning and Management, Household Planning and Management, Food Planning and Management, and Relationship Building. Phase 1 allows the opportunity for MYA's to ask questions about each subject area and practice the skills necessary to be successful.

Phase 1: Success Benchmark: The success of Phase 1, the Demonstration Phase, is measured by the MYA's willingness to participate and learn the new subject matter with a good attitude. Success at this level is NOT measured by the MYA's ability to learn the subject matter quickly. Our goal is for the MYA to hear, see, and absorb the subject matter without the feeling of needing to rush through this process. It is okay if things don't click or are difficult at first.

Phase 2: Observation Phase

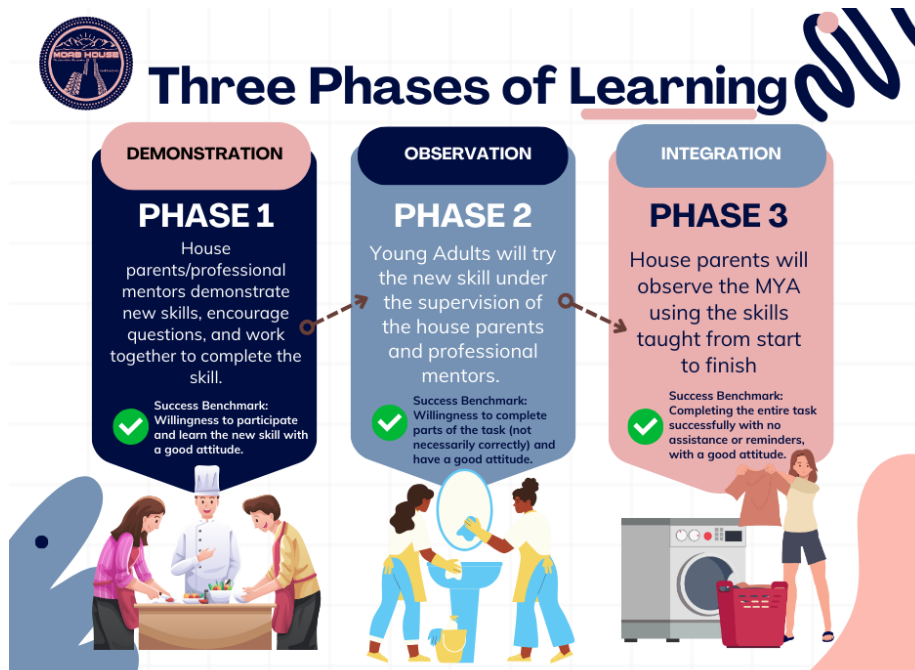

In Phase 2, the House Parents and/or Professional Mentors will observe the MYA using the skills they have learned to start/assist with and/or complete various tasks within the areas of Financial Planning and Management, Household Planning and Management, Food Planning and Management, and Relationship Building.

Phase 2: Success Benchmark: The success of Phase 2 is measured by the MYA's willingness to complete parts of the task with a good attitude. Success at this level is NOT measured by being able to complete the entire process from start to finish. This will come!

Phase 3: Integration Phase

In Phase 3, the House Parents will observe the MYA self-starting, and using the skills they have learned to complete the entire process from start to finish.

Phase 3 Success Benchmark: The success of Phase 3 is measured by the MYA completing tasks from start to finish and without being asked, reminded, or assisted.

Program Benefits

Independent Living Skills

While at Moab House, you will learn the skills necessary to be successful in the areas of Financial Planning and Management, Household Planning and Management, Food Planning and Management, as well as Relationship Building. These skills will help you establish your own home, friendships, and even marriage.

Build Credit

Establishing good credit is important, and crucial for being able to rent an apartment, buy a car, or even a house. Each month that your rent is paid on-time, this information will be reported to all three credit bureaus.

Letter of Recommendation

At the end of your time with us, providing you are leaving on positive terms- you will receive a letter of recommendation that will help you with future employers, creditors, colleges, and other personal endeavors.

Transportation Assistance

As a MYA at Moab House, you don't have to wonder how you will get around. Our House Parents will work with you to make sure that they know your schedule and get you where you need to be.

Family Environment

When you come to Moab House, we will welcome you into our family with open arms! We are excited for you and can't wait to watch you grow. Although you will become part of our family and you will live in a family eco-system, BUT your choices are yours. Moab House is not a group home nor does it have a top-down management style. This means YOU are in the driver's seat. YOU get to wake up each day and choose to grow from this experience or not. By saying YES to Moab House, you are saying YES to a learning experience that will allow you to not only be successful in adulthood and independent living, but also to earn Moab House's seal of approval or our vote of confidence that you can do this! Although we would love for you to live in our nest forever, our goal is to train you up as quickly as possible and let you fly!

Introduction to Staff

Meet our House Parents

Meet Lori & Sati! The most important people to you will be your House Parents. This couple has dedicated their lives to foster kids, in and out of the system. The house parents are trained to serve MYA's (Moab House Young Adults) as a leader, advisor, mentor, teacher, and resource person.

Core responsibilities of our house parents include assisting our MYA's in their transition from foster care to independent living, handling daily operations of the house, teaching skills in the areas of financial planning and management, food planning and management, household planning and management, as well as relationship building, and maintaining an atmosphere that enables our MYA's to feel supported and to learn all

they can so they are prepared to step into their own independent living environment.

Meet our Executive Director

Meet Marcie! Since late 2019 when the Lord dropped the vision of Moab House into her heart, she has worked hard to make the vision for transitional housing a reality. Marcie has a heart for kids of all ages. From the beginning of her walk with the Lord she always found herself helping in the church nursery, helping with kids ministry, leading a Junior Bible Quiz team, and even being part of the youth ministry leadership team. It is her desire to see that our MYA's feel safe, loved, and productive at Moab House, and they they are equipped with the tools they need to be successful.

[<back to menu>](#)

Our Reason

Jesus. Our Reason. We aren't shy about our love for Jesus and the fact that His death, burial, and resurrection saved us from our sins- and for just that fact alone, we are grateful to Him and serve Him with all that we have. Although we build our lives around this truth and we would love for you

to know Him too, we understand that people even told Jesus "no."

Moab House was born out of God's heart and how much He loves His children. He tells us in the Bible that pure religion is helping the orphan and the widow. In late 2019 the Lord laid it strong on Marcie's heart that she was going to provide housing to former foster youth. Four years later the vision finally became a reality. God had foster kids in His heart when He told her to start Moab House. Isn't He good?! Although we are happy to share Jesus with you, pray with or for you, and even take you to church, we will not push the Lord on you. Jesus never pushed Himself on people, He just loved them whether they accepted Him or not. So out of honor for Jesus and out of love for you- we will respect whatever you choose.

You do not have to be a Christian to live at Moab House, and will never be forced or coerced into Christianity because you live here. We hope this helps you understand our heart on the matter. We do this because Jesus loves you, and so do we!

It is also a method of maintaining a positive and uplifting family environment. When your behavior is disruptive to the positive environment, you will be subject to the Moab House Conduct Process.

Typically, a reminder or a conversation with your House Parent(s) will be sufficient to correct minor concerns. For situations where multiple reminders and/or conversations have been unsuccessful the following actions will take place:

- The House Parent(s) will discuss the incident with the MYA and determine how and if the matter can be resolved.
- The House Parent(s) will email, text, or verbally describe the issue or incident to the Executive Director and recommend next steps.
- An email will be sent to your Supportive Services Liaison as well as the MYA with details about the incident, along with what steps will be taken to resolve.
- In severe instances, your Supportive Services Liaison will be alerted of a termination of the Living Arrangement Agreement and the timeframe that the MYA has to move out of Moab House.

It is expected that most cases will be processed in this manner; however, the seriousness of certain offenses may justify immediate removal from Moab House, pending the outcome of a meeting with the House Parents, Executive Director, and/or Supportive Services Liaison. These offenses include, but are not limited to, violent behavior, possession of a weapon, possession of illegal drugs, and any form of intimidation of other residents.

[<back to menu>](#)

Trauma-Safe Bathrooms

When we moved into Building 8, we realized that the bathroom/shower facilities were community-based and that this was not going to work for our young adults. The former bathrooms had very large shower tub stalls separated only with shower curtains. They also had two toilets separated by a standard toilet divider, and a double sink.

Phase 1 (currently in construction) will include a gut and remodel of the East Wing Community Bathroom being split into two “Trauma-Safe Bathrooms.” These new bathrooms will feature a walk-in shower, toilet, and sink with ample space to secure belongings. The new Trauma-Safe Bathrooms will lock from the inside so that MYA's can feel safe and secure when they are showering and using the restroom facilities. Each Trauma-Safe Bathroom will be shared by two MYAs, and a corresponding shower schedule will be utilized. Assigned MYAs will be responsible for keeping the bathroom clean at all times.

Phase 2 (future project) will include a gut and remodel of the West Wing Community Bathroom being split into two “Trauma-Safe Bathrooms” with the same features as the East Wing. While we await the funds to do this work, the West Wing Community Bathroom will be a one-person facility at a time that will feature a lock and a corresponding shower schedule.

Toilets are located in the West Wing Community Bathroom, and the West Main Hallway. Future projects include converting the BedPan Cleaning Rooms in the East and West Wings to half bathrooms in order to increase overall toilet count in the house. These rooms will not be used at this time.
