

Liquid Waste Vacuum Tanker – Safety Systems

Model E8800-97675 Rear Door Safety Prop

The Model E8800-97675 Rear Door Safety Prop provided by Air & Gas Industries is a *safety device* that positively locks-open a rear door for maintenance purposes.

The Model E8800-97675 Rear Door Safety Prop is securely stowed in a support bracket with lock-pin when not used.

When required to positively lock-open the rear door for maintenance, the E8800-97675 Rear Door Safety Prop is simply unlocked from its support bracket and swung over into position using the extension handle.

Door Support Pin

Safety Prop Support Bracket (stowed position)
