

nuance

beautiful
bathroom surfaces

welcome to bushboard

We have been developing kitchen and bathroom surfaces in the UK since 1935 and the idea that everyone deserves great design whatever their budget underpins our entire approach to surfacing.

When you buy Nuance you are buying into our ethos of exceptional quality, exquisite design, excellent value and of course, first class customer care. We are proud that our surfaces are made in the UK.

We want to ensure you get the very best from your new wall panels and vanity surfaces. Our wall panels carry a 15 year guarantee so you can be sure your bathroom surfaces will look sensational for years to come.

welcome to nuance

Nuance is an award-winning, 100% waterproof wall panelling system that looks beautiful and will last for years to come.

With no grout to clean and no ugly trims, Nuance is the best way to get a smooth and watertight finish in a bathroom or shower room, and comes with a 15 year guarantee.

what makes a nuance panel?

100% waterproof

no metal trims

15 year guarantee when installed with Complete adhesive

great choice of designs

easy to install and maintain

100% waterproof

With Nuance you can be 100% confident that our panels are 100% waterproof – that's because our panels are uniquely manufactured using a synthetic, homogenous core that is 100% impervious to water.

Add to that the high-performance surface, plus installation with our waterproof adhesive and sealant Complete, and you have a bathroom area that is guaranteed for 15 years.

no trims required

Nuance is unique for being a patented, trim-free system. The large format panels have a postformed outer edge that means no trims are required for finishing. The tongue and groove panels can be jointed with our bespoke adhesive.

This gives you joints which are 100% watertight and creates a seamless finish. With no trims needed, you don't have to compromise in your bathroom design.

easy & fast installation

Our panels can be tailored and installed in a matter of hours. So if you're planning a bathroom project, you can cut down on the disruption and time taken compared to tiling. Plus, with Nuance panels being so easy to install, you won't need a specialist tiler.

15 year guarantee

We're proud to offer a 15 year guarantee on our Nuance panels. As long as you use our Complete sealant and adhesive, you can rest easy in a waterproof bathroom.

great choice of designs

We offer a huge range of different designs, so no matter what style of bathroom you'd like, you can rest assured there's a Nuance design to suit.

From realistic wood panels complete with woodgrain texture, to our new tile design panels, achieving the bathroom you want is simple.

made in Britain

We're proud to say that Nuance is manufactured in Britain. We've been producing fabulous products since 1935.

our ranges

It's easy to find your perfect panel with Nuance. We offer three wall panel ranges, as well as a range of co-ordinating worksurfaces to ensure you can create your dream bathroom.

08 nuance

With five trend categories to choose from, our classic Nuance collection features 24 beautiful designs with amazing textured finishes.

21 nuance designer

Created by our in house design team, Nuance Designer offers all the benefits of Nuance panels on a soft matt finish.

28 nuance acrylic

Beautiful designs on a high gloss reflective acrylic panel. Nuance Acrylic is perfect to create a statement in your bathroom.

36 nuance vanity

Our Nuance Vanity Worksurfaces are designed to co-ordinate with our Nuance range, offering endless design options.

nuance marbles

For those wanting to achieve a high end, luxurious finish, we have a great range of marble inspired panels. Pair with bold fittings to create a statement bathroom, or tone down with neutral tones to create a timeless look.

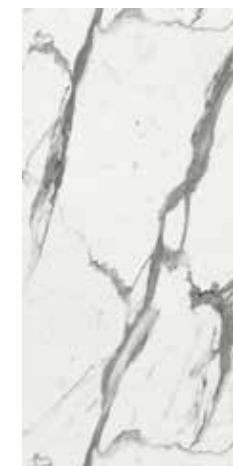

Calacatta Statuario, shown, is one of our favourite statement pieces from this collection, with large veins which have been painstakingly reproduced to create an iconic marble look.

Arctic Gloss

Marble Noir Gloss

Marble Sable Eggshell

Cirrus Marble Mineral

Turin Marble Ultramatt

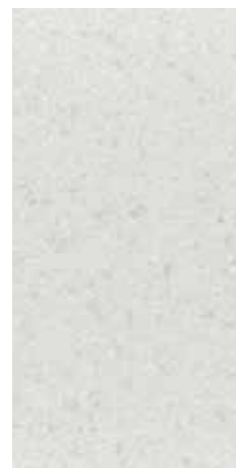

nuance luxe

Inject some glamour into your bathroom with our range of elegant panels. With flecks of metallic adding a chic finish, these luxe decors are perfect to create a contemporary space in your bathroom.

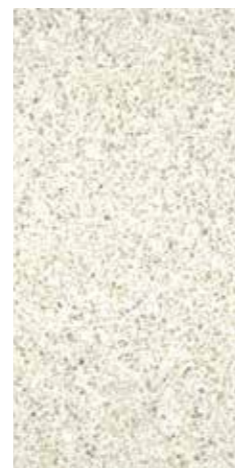

We've used our gorgeous Doux Lime Quartz as wall and bath panels, paired with a statement half height wall in Black Quartz, perfect for creating an easy clean finish concealing pipework and fittings.

endless
design options

Panels can be rotated 90° to be used as matching, or contrasting bath panels, as well as half height panels around your bathroom.

Decor Shown: Chalkwood wall panelling with Turm Marble worksurface

nuance woods

With our wood panels, you can create a spa like sanctuary in your bathroom, without having to worry about the problems that wood in a bathroom can bring. Driftwood is paired with a realistic wood texture, whereas Chalkwood has a rough finish complementing the design.

We love our Chalkwood panel, shown in this stunning wetroom, paired with statement black fittings to create a haven in your bathroom. You can create a Scandinavian style bathroom by injecting darker woods, such as Driftwood into open spaces paired with simplistic fittings and colours.

Chalkwood *Riven*

Driftwood *Grain*

realistic textures

We've selected a realistic wood texture to complement the panel, check out page 48 for more information

nuance earth

If you want to create a calm, serene area to relax in, look no further than our earth inspired panels. Inspired by nature, we've selected designs that reflect natural earth tones, complete with realistic textured finishes.

Shown here is our Alhambra panel, which we've paired with our Driftwood laminate worktop to create a spa like escape.

Decor Shown: Natural Greystone wall panelling and half height panel.

versatile panels

Thanks to our stunning postformed edges, you can easily create beautiful half height walls without the need for trims! Simply flip your panel 90°

nuance stones

Whether you want an urban, industrial look, or to take your bathroom back to nature, our stone inspired panels offer flexibility in their design.

Our Natural Greystone design, shown, creates an impactful statement shower area complete with a stone like textured finish. Also featured is Natural Greystone used as a half height wall panel, simply rotate 90° to achieve a designer look in your bathroom.

Our stunning postformed edges also mean no trims, and a seamless finish around both your shower, and half height panels.

introducing our
new tile designs

Our designer tiles panels are specifically designed to align like tiles, meaning that when the panels are fixed together, the design continues seamlessly.

Shown is Satnas Marble, a marble inspired pattern with gorgeous natural looking veins, and hints of bronze and grey within the design, paired with our Lumiere vanity worksurface for the ultimate luxury finish.

Available in:

- 2420 x 1200 x 11mm Postformed
- 2420 x 1200 x 11mm Tongue & Groove
- 2420 x 600 x 11mm Tongue & Groove

designer tiles

Estremoz Tile

Perfect for any bathroom style, Estremoz Tile is a stunning white large format tile, with a ripple design perfect to create depth. Pair with traditional sanitaryware to create a classic bathroom, or for a more modern look combine with sleek statement pieces.

Amber Tile

Get creative with these 18th century inspired tiles, reminiscent of French and Italian villas. Stunning tiles, complete with weathered elements make this is the perfect design for anyone wanting to achieve a spa like area in their bathroom. Pair with bold sanitaryware to create a statement, or tone down and achieve your own spa at home.

Satnas Marble Tile

Marble meets tiles in this beautiful design, perfect for achieving a high end look. We've designed these tiles complete with bronze and grey veins which complement the white base, giving you a really unique look for your bathroom.

Fossil Tile

Our Fossil Tile design is inspired by natural stones, bringing a quarry-like character to any space without the sky-high price tag. By its nature, Fossil Tile is really versatile. The grey tones will work in all kinds of interiors, from rustic homes, to spa-like bathrooms and contemporary wet rooms.

designer elements

To achieve a standout look in your bathroom, look no further than our elements designs.

Shown is our White Lightning Fossil, featuring bold white strikes which create a standout look in your bathroom.

a guide to texture

Marrying the right texture with the right decor is a skill in itself and brings a design to life. We've worked with nine textures across our range to do just that.

Our textures are carefully chosen to complement each decor.

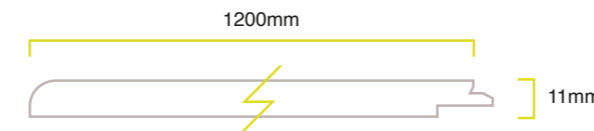

This quick guide helps you see our textures in more detail and look at the matrix on page 50 to see which texture your chosen panel or worksurface is available in.

Don't forget to use our speedy sample service to see the final result for yourself. Simply visit our website to order yours today!

flexible panel sizes

Our range of Nuance panels gives real flexibility to shape the perfect bathroom. The postformed panels and the standard tongue and groove panels can be linked together to create walk-in wetrooms and work with any shower enclosure. And you can finish a wall wherever you please with the versatile 160mm finishing panel. Here we show you what's on offer.

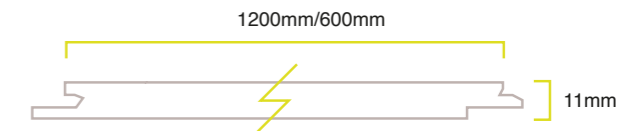

Postformed panels

The most versatile of our panels for shower enclosures and bath panels.

Features one finished radius edge and one tongue to link to T&G panels.

Size 2420 x 1200mm one finished radius edge and one tongue.

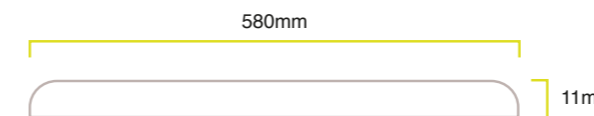

Tongue and groove panels

Our T&G panels in 1200mm widths result in less joints, as well as offering the flexibility for less waste and less cost.

Size 2420 x 1200mm tongue and groove.

Our T&G panels in 600mm widths offer the flexibility for less waste and less cost.

Size 2420 x 600mm tongue and groove.

Feature panels

With two pre-finished edges, the ideal panel to finish behind WCs and wash basins. It's especially good for cloakrooms and en-suites.

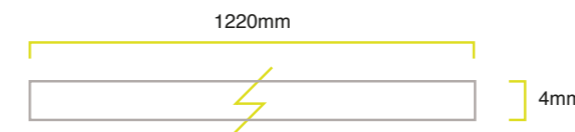

Size 2420 x 580mm with two finished radius edges.

160mm Finishing panels

This panel allows you to finish a run of T&G panels vertically with a neat postformed edge detail, instead of using trims. It can also be used as an upstand.

Size 2420 x 160mm one finished radius edge and one tongue.

Acrylic panels

Size 2440 x 1220mm supplied pre-finished.

Nuance Acrylic panels are available in one size only. They can be butt jointed and sealed together with our Complete sealant to create your perfect, bespoke design. Alternatively trims are available for Acrylic designs if you would prefer to use them.

* Laminate vanity surfaces have a standard 3mm profile except for the three highlighted quartz designs which have a 10mm profile.

Working with designs and joints

Patterns are not designed to align across joints, with the exception of our Nuance Designer Tiles. Whilst this is normal for natural stones and woodgrains, it will be more obvious on designer decors such as the Herringbone designs. However individual patterns will not continue over the joint. It is possible to design around this by using panels individually as accents. These designs do work perfectly well in corners where aligning horizontally creates a natural effect.

Carrara Marble Slab Acrylic and Designer Tiles are the exception; With Carrara Marble Slab Acrylic the decor is specifically designed to be installed to create a book- matched effect where the mirrored design between the A and B panels will align across joints.

Nuance Designer Tiles are specifically designed to align like tiles, meaning that when the panels are fixed together, the design continues seamlessly

Panel trims - Nuance & Nuance Designer

All Nuance panels are waterproof so do not require trims. However, if you have a preference to use them they are available in bright polish, white and black.

Panel trims - Nuance Acrylic

Available in bright polish and white. Types: internal, external and end cap.

Vanity Surfaces

Laminate vanity surfaces come with a matching edge strip.

Complete Adhesive

To validate your 15 year guarantee Complete adhesive must be used.

Nuance must be bonded to the wall with Complete panel adhesive and as this is not seen it is a cost effective neutral colour. Designed to fit a heavy-duty mastic gun, one cartridge installs one 1200mm panel.

Complete is also available as a sealant in ten colour options to co-ordinate with the full range of Nuance designs. See the range matrix opposite for our suggested colour for your chosen design.

Do I need to use metal trims?

Nuance is unique for being a trim-free system. No trims are required for finishing.

Can I sit the Nuance panel directly onto a shower tray or bath edge?

Yes. Nuance panels must be fitted onto a shower tray or bath edge and a 3-5mm gap left, which should be filled with a bead of Complete coloured sealant.

How much adhesive and sealant is required for one panel?

1 x 290ml tube of adhesive is required to bond a 1200mm panel to the wall. 1 x 290ml tube of sealant contains 20 linear metres at a 5mm bead.

Can I hang wall mounted items to Nuance panels?

Yes, wall mounted items can be hung on to a Nuance panel as long as the fixings go through the panel into a solid wall behind.

Do I have to use Complete and how should it be used?

Yes, you have to use Complete adhesive and sealant in order to validate your 15 year guarantee. Complete adhesive is our neutral quick grab adhesive used for bonding panels to the wall. Complete coloured sealant should be used for all joints

Can I use a Nuance panel as a bath panel so it will match the rest of the bathroom?

Yes, visit www.bushboard.co.uk and watch our installation video for advice on how to cut a 1200mm postformed panel for this purpose.

Can I fit the Nuance panels to plasterboard?

Yes, as long as the plasterboard is secure, flat, smooth and clean.

Can I apply Nuance panels directly to tiles?

Yes, as long as the tiles are clean, smooth and solid and all existing sealant is removed. The tiles should be scarified with abrasive paper.

Can you butt joint panels together?

Yes, ensure that Complete sealant is used to form watertight joints.

How do I clean Nuance panels?

All you need to do is wipe them down with a moist cloth and your favourite mild detergent.

What if my ceiling is taller than the height of the panel?

The maximum height of the panel is 2420mm and 2440mm for acrylic. If you require taller than this you can butt joint panels, to the top, to achieve the desired height.

nuance + complete

100% waterproof: even the adhesive is guaranteed!

And it gets even better... because silicone has a life span, we've developed our own specialist sealant.

Our 15 year guarantee is built on solid foundations.

We know the importance of the final installation, that's why we've developed Complete, our bespoke adhesive and sealant which should be used by your installer when your Nuance panels are fitted.

Complete is available in two versions.

Our unique installation adhesive is technically superior and must be used to bond the panels to the wall. As this is not seen it is a cost effective neutral colour. It's flexible, super strong and will not shrink or break down like silicone. It's so good we insist that it's used to validate your guarantee.

Complete is also available as a sealant in a range of colour options. It offers superb performance and allows your installer to join, bond and seal your panels.

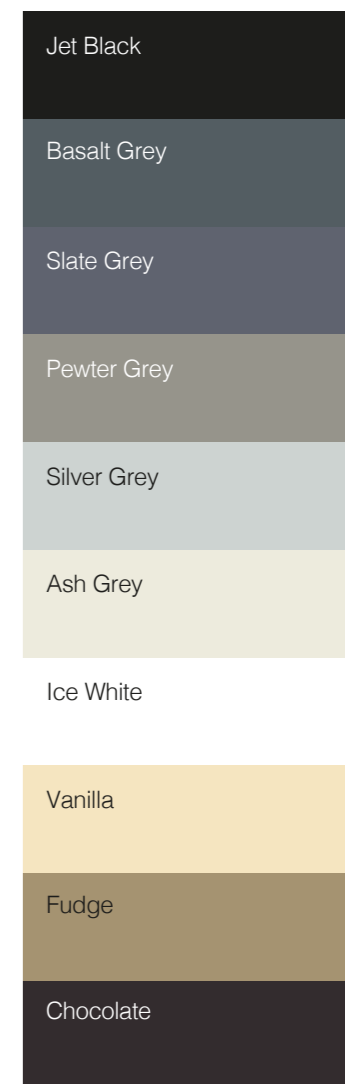

Always use Complete and you'll have the peace of mind of our 15 year guarantee.

= 15 year guarantee

joining | sealing | bonding | finishing

- 290ml cartridges available in 10 colourways
- Advanced formulation for superb results
- Excellent grab adhesion, gap filling properties and no shrinkage
- Easy and flexible to work with for bonding, sealing and finishing
- Easy to maintain and clean
- Colour options to suit all designs
- Cartridges suit any heavy-duty mastic gun
- 290ml = approximately 20 linear metres at a 5mm bead
- Use neutral Complete quick grab bonding adhesive to fix panels. 1 x 290ml tube for a 2420 x 1200mm panel
