Sound & Light. Reinvented.

## SOUND AND LIGHT. REINVENTED.

Zuma is a HiFi speaker and an LED light, intelligently paired inside a single ceiling downlight.

Wireless, virtually invisible, and a breeze to install and use. This is smart home tech, finally made simple.

**SOUND**

**LIGHT**

**WELLBEING**

## EFFORTLESS LIVING WITH ZUMA

Zuma offers an elegantly simple way to attain clean living. It literally elevates your audio source, pairing premium speakers with LED lights inside your ceiling.

Your home is freed from speaker systems, amps, and other electronics. In their place, you get wireless sound and light that's easy to set up and use, every single day.

## EASY TO INSTALL, EASY TO USE

Zuma is discreet, naturally complementary to your interior design, and quick and easy to install into new or existing fixtures.

Once installed, Zuma gives you seamless control over your home's light and sound. Warm to cool lighting is fully tunable and dimmable, stunning audio playback can be controlled directly from your favourite apps, and wellbeing presets help you find a moment of focus and stillness throughout the day.

# INSIDE ZUMA

## Cosmetic Bezel

A magnetically detachable acoustic bezel available in a range of design styles – Lumisonic can be easily upgraded with our optional Smart Bezel Voice.

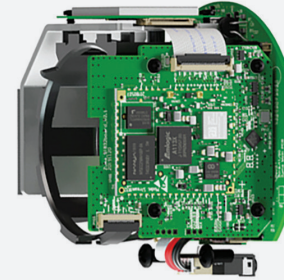

## LED array and tweeter

An integrated tweeter further elevates audio quality, and our high performance LED light array delivers natural, tunable lighting.

## Speaker

Our patented aluminum woofer and radial neodymium magnet unit deliver pace, rhythm, and extraordinary sonic detail.

## Amplifier

High performance monolithic Class D amplifier controlled by best in class central ARM processor, quad core CPU.

## Aluminium case

A sleek chassis protects the important components inside the Lumisonic, and houses our patented Blade System™ for quick, easy, neat installation.

## PRECISION ENGINEERING, BUILT FOR THE WHOLE HOME

We've partnered with the world's leading engineers to devise the technology inside Zuma. The result? A groundbreaking compact loudspeaker, and an advanced LED light engine capable of 90 CRI and natural lighting for improved home wellbeing.

Zuma is IP65 rated, meaning they're safe to install in your bathroom, and it's designed to run at full capacity for at least 12-15 years - even in moisture-heavy environments. It means every room in the home can be elevated by Zuma for years to come.

## WHERE SOUND AND LIGHT ARE ONE

Zuma Lumisonic, our groundbreaking speaker light, is designed and built to deliver beautiful lighting and immersive sound into any room in your home.

Zuma Lumisonic also works as a multi-room wireless system. Connect Zuma to your Wi-Fi network for full, granular control from your phone via our app. You can also introduce wireless, whole home Alexa Built-in voice control with our Smart Bezel Voice.

ZUMA LUMISONIC

## INTELLIGENT LIGHTING AT ITS BEST

Installed alongside Zuma Lumisonic, Luminaire brings beautiful, intuitive lighting into your home. Use Luminaire and Lumisonic together to create a brilliantly smart sound and lighting system.

The Luminaire offers total ambient lighting control, with a whole host of tunable colour temperature options for personalised light settings. With one touch, you can fill each room with circadian light that tracks the sun throughout the day – known to improve wellbeing and aid sleep.

ZUMA LUMINAIRE

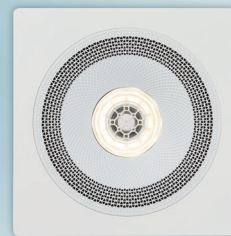

## THE PERFECT FINISHING TOUCH

Zuma downlight bezels are a magnetically detachable outer finish for your Zuma units, available as standard with every Zuma you purchase. They come in a range of designs and styles, so you can customise Zuma to fit your room's aesthetic.

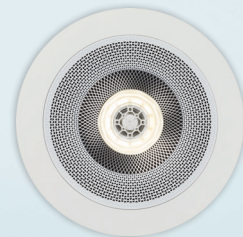

The new Smart Bezel Voice seamlessly integrates Amazon Alexa into your Zuma setup, for hands-free voice control of your room's light and sound. It couldn't be easier to install, just slot the bezel into place, run some setup steps, and you're ready to get started.
