ON THE LIGHTER SIDE

A customer is looking to get a good price on his old car which is going to be traded in as a part exchange. To make sure it runs smoothly, the dealer asks for the keys to take it out for a quick spin. The elderly owner hands them over and is at pains to point out that they expect a good price as the car has a “brand new set of brakes.” On returning from the test drive, the dealer is looking rather white; apparently the car failed to stop at a set of traffic lights and he was forced to crawl back with absolutely no brakes. When questioned about the apparent discrepancy, the owner didn’t bat an eyelid, just simply pointed to the brand new box of brakes sitting in the back seat, insisting that it does have new brakes, but crucially adding “I just haven’t had time to get them fitted.....”

One Liners

I had a dream that I was a mechanic who fixed wrecks. It was an auto-body experience.

Words to Ponder

Hard work doesn’t guarantee success. But no success is possible without hard work.

DETAIL, DETAIL, DETAIL

Challenger Windshield Graphics

Look closely in the Challenger
windshield and you will find a
unique graphic. This was only
brought to my attention by Anni
MacDonald whose Challenger
has it.

From my limited research, the
graphic started in 2015 in all
Challengers. Does it still exist in
the newest Challengers??? I
don't know. (Update, YES!)
I do know that if you need an
exact replacement, it will cost
you.

Lesson: Pay attention to
