ON THE LIGHTER SIDE

Racing the Yellow light!

The light turned yellow, just in front of him. He did the right thing and stopped at the crosswalk, even though he could have beaten the red light by accelerating through the intersection.

The tailgating woman behind him was furious and honked her horn, screaming in frustration, as she missed her chance to get through the intersection. As she was still in mid-rant, she heard a tap on her window and looked up into the face of a very serious police officer.

The officer ordered her to exit her car with her hands up. He took her to the police station where she was searched, fingerprinted, photographed and placed in a holding cell.

After a couple of hours, a policeman approached the cell and opened the door. She was escorted back to the booking desk where the arresting officer was waiting with her personal effects.

He said, "I'm very sorry for this mistake. You see, I pulled up behind your car while you were blowing your

horn, giving the guy in front of you the finger and cursing at him. I noticed the "What Would Jesus Do" bumper sticker, the "Choose Life" license plate holder, the "Follow Me to Sunday-School" bumper sticker, and the chrome-plated Christian fish emblem on the trunk, so naturally I assumed you had stolen the car."

Mechanic versus Cardiologist

A Lexus mechanic was removing
a cylinder head from the motor of
a LS460 when he spotted a well
know cardiologist in his shop.

The cardiologist was there
waiting for the service manager
to come and take a look at his car
when the mechanic shouted
across the garage,"Hey Doc,
want to take a look at this?"

The cardiologist, a bit surprised,
walked over to where the
mechanic was working. The
mechanic straightened up, wiped
his hands on a rag and asked,
"So Doc, look at this engine. I
opened its heart, took the valves
out, repaired or replaced anything
damaged, and then put
everything back in, and when I
finished, it worked just like new.
So how is it that I make \$48,000
a year and you make \$1.7M,
when you and I are doing
basically the same work?"

The cardiologist paused, leaned
over, and then whispered to the
mechanic..."Try doing it with the
engine running."
