ON THE LIGHTER SIDE

The Speeding Driver

A man is speeding down a highway when he gets pulled over by a cop. The officer comes up to the car and says, "Do you have any idea how fast you were going?" The man replies, "I am sorry officer, I was rushing to a lecture about the negative impacts of alcohol abuse and the importance of staying within the law." Intrigued, the officer asks, "Really? Who's giving the lecture at this time of night?" The man smirks and says, "My wife."

One Liners

"I got gas today for \$1.39. Unfortunately, it was at Taco Bell."

"My wife had her driver's test the other day. She got 8 out of 10. The other 2 guys jumped clear."

Words to Ponder

Each one of us is unique and one of a kind. Yet ALL of us have one thing in common; feelings. Do NOT judge by sight, what one hears or what is said. Everyone has a heart and it matters!

Scat Pack Stage #1 Badge

Being a 60's, 70's, & 80's fan of the classics, I really haven't kept up with the newer Mopars UNTIL I eyed a gorgeous Challenger R/T. It had a "jaw dropping" lime green exterior with headlights that had accessory sequential lighting of all colors. In speaking with the owner, he explained a few features, one of which was the #1 Bumble Bee badge. Hence, the following is the story of the badge/s; it's meaning as told by Dodge.

In 2014, upgrades were offered for the 5.7 L Hemi Challenger R/T and Charger R/T. These upgrades were considered Scat Pack Stage Kits - #1, #2, & #3. These upgrades not only enhanced the car's performance, they kept the car's warranty intact. A plus for the owner.

Kit #1 – Offered gains of up to 18 H.P. & 18 lbs. of torque and included Mopar cold air intake, Mopar cat-back

exhaust, Stage 1 Performance PCM, Mopar low restriction oil filter and 2 Scat Pack Kit #1 badges. Cost \$2,195.

Kit #2 -This stage increased the H.P. up to 30. Worked in conjunction with Kit #1 and featured Mopar performance cam shaft Kit: included camshaft, tiebars, heavy-duty push rods & gaskets, Stage 2 performance PCM and 2 Scat Pack Kit #2 badges. Cost \$1,895.

Kit #3 – This increased H.P. up to 58 & 47 lbs. of torque. It worked in conjunction with #1 & #2. Featuring Mopar performance CNC ported cylinder heads, Mopar hi-flow header & catalysts, stage 3 performance PCM and Scat Pack Kit #3 badges.

Each stage needed to be ordered sequentially; offering the owner to build his/her car overtime. So next time, beware of the badge/s;they can tell a story.
