

MARPPPIO Northwest Group

By rlazo

Just wanted to make a post a shout-out to the great bunch of guys up in the Northwest USA. These fellas have been interested in Modern Arnis for a long time and in particular have been super supportive of MARPPPIO and what we represent. The last seminar at Bothell, WA USA last month was a blast and apparently the next seminar will feature a Black Belt Workshop — albeit a brief one.

In any case, thanks to everyone at the NorthWest group. Hope to see everyone soon, keep practicing and go with the flow!
