

3209 N 4th Street; Suite 100 Longview, Texas 75605

Appointment Day:	Dr. Michael Guillory, MD
Appointment Date:	Dr. Craig King, MD
Appointment Time:	Dr. Jonathan Walgama, MD

Welcome back to our office!

It's been a while since your last appointment and we appreciate you continuing to choose us for your eye care needs.

There are a few things we'd like to ask of you to ensure a smooth check-in, work-up, & exam process during your upcoming appointment.

Check-In Process

- Bring a photo ID and insurance card(s) to your appointment this is mutually beneficial. We want to be sure we are providing services to the correct patient & that we are filing to the correct insurance company on your behalf.
- Complete the enclosed Demographics half-sheet this allows us to update any incorrect information that we may have on file (old phone numbers, old addresses, old employers, etc.).
- Review/complete our Refraction Policy you may not be coming in specifically for a refraction, but in the event that you'd ever want us to perform a refraction (or your doctor deems it necessary) we will keep this acknowledgement on file.
- Review/complete our Acknowledgement of Review of Notice of Privacy Practices protecting your health information is very important to us and we would like you to know how your information may be used. Our Summary of Privacy Practices is posted above our water fountain in the main waiting area near the reception desk please review it upon your arrival. Also, at your request, you may obtain a printed copy of our Summary of Privacy Practices.

Work-Up & Exam Process

- Complete enclosed medical history paperwork this helps us gather your most recent health information and any information that may have changed since your last appointment. (new surgeries, new health issues, etc.).
- Bring a list of current medications & vitamins (prescriptions and/or over the counter) this is a crucial part of your exam and record.
- Bring your current eye glasses (prescription and/or over the counter) this allows us to record what glasses you were wearing at the time of the exam.
- If you are going to have your eyes dilated or if you are going to have an in-office procedure we do recommend bringing someone with you to drive you home.

Additional Information:

- If your insurance requires an authorization for us to provide services it is very important for you to contact your primary care physician and ask them to send it to our office. *some can take 10-14 days to process*

 Appointments will not be scheduled unless an authorization is already approved/on file.
- All payments (including co-pays, deductibles, and/or previous balances) are due at time of service unless prior arrangements have been made. If you are uninsured or "self-pay" your payment is expected at time of check-in. If you are unable to meet this financial obligation, your current and any future appointment may be cancelled or rescheduled.
- There will be a \$50 payment required for unkept, rescheduled, or cancelled appointments. *This fee will not be applied to any co-pay, co-insurances, or deductibles.*

We look forward to seeing you!

Please don't hesitate to contact our office for any questions you might have about your upcoming appointment.

REFRACTION POLICY

One of the most important parts of an eye exam is the refraction. This is the part of the exam by which we determine whether you can be helped in any way by a new glasses prescription. This test is also how we determine the best possible visual acuity and function of your eye, which is essential medical information for us to have as we assess your eyes and look for problems. It is NOT a covered service by Medicare and/or most insurance plans. These plans consider refraction a "vision" service not a "medical" service. Our office fee for refraction is \$35.00. This fee is collected at the time of service in addition to any co-payment, coinsurance, or deductible your insurance plan may require. In the event your insurance plan pays us for the refraction we will reimburse you accordingly.

require. In the event your insurance plan pays (us for the refraction we v	vill reimburse you accord	ingly.
I acknowledge that I have read the above informaccept full financial responsibility for the cost of any co-payment, coinsurance, or deductible I may be a support of the cost	f service and understand	d it is due at time of servic	ce. I understand that
