**RE: The Perrine DuPont Settlement –Finance Committee Update Regarding 2022
Medical Monitoring Testing Period; Our File No. 4609-1 {GG}**

Dear Virginia, Cliff, Niall and Meredith:

I hope that you are well.

This memo is to update you on the medical monitoring testing for this year.

We reached out to Dr. King's office several times in December and January regarding testing for this year. After multiple attempts to contact them, we were informed then that they would not be able to work with the Program this year due to office load and COVID.

Afterwards, we looked into various other options, including a mobile clinic, since Dr. King usually saw about 70% of the Participants, but the other options appeared to be cost prohibitive.

We had a call with Meredith earlier this month, since she is on the ground, for her to reach out to Dr. King and see if a viable solution could be reached for their office to participate in the Program this year.

Meredith's hard work paid off and Dr. King's office is willing to participate and provided us with the specific times and limitations on the number of Participants that can be seen during each testing day.

Since we were delayed approximately 3 months in getting Dr. King's office to agree to participate, testing will begin around June of this year instead of April as in previous rounds.
