Clerk/Board of Registrars of Voters  
Town of Stoneham  
35 Central Street  
Stoneham, MA 02180

Dear Clerk/Board of Registrars of Voters:

This is a Complaint filed pursuant to Massachusetts General Laws Chapter 51 Section 48.

I am a registered voter in the Town of Stoneham, Massachusetts. I reside at 4 Patrick Circle.

I have examined a report prepared by NCOA-EASY.COM that is described in the Declaration of Stephen J. Stuart attached hereto as Exhibit A. Specifically, I have identified in that report individuals who I have reason to believe and do believe are illegally or incorrectly registered to vote in Stoneham.

In the interest of keeping this Complaint concise, I have attached hereto as Exhibit B a list of these individuals showing their names, old addresses, and new addresses. In this Complaint I allege that each individual listed in Exhibit B is illegally or incorrectly registered to vote in Stoneham because, as evidenced by their new address, they have moved outside of Stoneham to another state or to another jurisdiction within Massachusetts over six months ago.

Should you prefer a single complaint for each named individual instead of this consolidated format, I have included those single complaints on the enclosed CD.

I would appreciate it if you would act on this Complaint pursuant to Massachusetts General Laws Chapter 51 Sections 48-49 and keep me informed as to your actions on this matter.

I declare under penalty of perjury under laws of the United States of America that the foregoing is true and correct.

Signed and sworn to by:

---

NOTE: The person signing this form states that he or she is the person, manager, business authorized officer, or agent of the person for which mail should be forwarded under this order. Anyone submitting false or deceptive information on this form is subject to punishment by fine or imprisonment or both under Sections 2, 10241, 1 102, and 1 702 of Title 18, United States Code.

**PROACH ACT STATEMENT:** Your information will be used to provide mail forwarding and Change-of-Address (COA) services and more targeted advertisements to verify your identity, to facilitate communication to identify and integrate essential local and to provide address correction services. Collection is authorized by 39 U.S.C. 3621, 3622, 3624. Providing the information is voluntary. But if not provided, we may not be able to process and route your mail. We do not disclose your information to third parties without your consent, except to facilitate the transaction, to act on your behalf or request, or as legally required. This includes the following categories and specific mailer uses, limited to legal proceedings, for law enforcement purposes, to a congressional office, to agents or contractors, to assist in other organizations in federal, state, local, or foreign government agencies, to agencies and entities for business matters, for customer service purposes, for voter registration to a duly licensed election board or registration commissioner, as a "legit" vote to state government agency voter certification when required for the performance of its duties, to a law enforcement agency after the Postal Inspection Service has certified that the COA information is provided for a criminal investigation, for services of process for purposes of jury selection to agencies or entities of customer's request, to a financial institution, pursuant to the terms of a contract of insurance submission, for address verification purposes only if the mailer is in possession of the name and last address and to USPS licensed service providers to perform mailing list address correction services for their continuing year's name and last address. For a list of licensed service providers please visit [http://postnet.usps.gov/COA/Service\\_Providers](http://postnet.usps.gov/COA/Service_Providers). 5. Submission of this form starts the Change of Address process. The USPS enters the information on this form into the National Change of Address (“NCOA”) database (“NCOA-Link”). The USPS controls and maintains the NCOA-Link database as an official government record.

6. The NCOA-Link database contains approximately 160 million change of address records. The USPS updates the NCOA-Link database weekly to ensure its accuracy. Data in the NCOA-Link database includes change of address information entered up to forty-eight months prior. Only permanent change of address submissions are considered; temporary change of address submissions are ignored.

7. In the regular course of its business, NCOA-EASY.COM accepts an Input file

from a Customer and transfers it to one of the nine USPS National Service Provider Licensees who have authorized access to the NCOA-Link national database of address changes. This starts a multi-step process to standardize each address formatting, validate and complete it and then match each record against the NCOA-Link database of Move Updates.

8. Even though the data have been standardized and cleaned, move matches come with multiple codes indicating various quality statuses of the match—from a complete match with a Forwarding Address on record to No Forwarding Address Available and Undeliverable to Possible Moves.

9. The results of the process are appended to the each record in the Customer's Input File along with information for mail processing and evaluating further actions based on each records status.

10. An Output File is created that shows the matches between new addresses and the old addresses.

11. An official USPS "CASS Summary Report" is included with the Output File. This document certifies the process was completed, the accuracy of the complete process, and qualifies the list for certain postage discounts.

12. In the regular course of its business, NCOA-EASY.COM provides the Output File and CASS Summary Report to the Customer.

13. The Colarusso for Congress Campaign ("Campaign") has asked me to process their lists of names and addresses against the records in the NCOA database. I have been informed that the names and addresses are those of registered voters in certain cities and towns in the Commonwealth of Massachusetts that election officials have provided to the Campaign.

14. I have performed the comparison and provided the Output File "NCOA\_Input

v2\_Default\_Output\_v2.csv” and CASS Summary Report to the Campaign. I have attached the CASS Summary Report to this Declaration as Exhibit 1. Due to its size, I have not attached the Output File to this Declaration. I can, however, provide it on request.

15. The Output File that I have provided to the Campaign lists individuals who have moved from their addresses that their respective election officials have provided to the Campaign.

I declare under penalty of perjury under laws of the United States of America that the foregoing is true and correct and that this Declaration was executed on this 20<sup>th</sup> day of October 2022.

Stephen J. Stuart

eLOT® Sequence No. Assigned	30 days before or up to 105 days after the eLOT file product date ( <i>the 15th of each month or bimonthly</i> ).	90 days after the eLOT valid "From" date.

## D. Mailer

- Signature:** Signature of individual who processed the list, or the mailer's representative.
- Date Signed:** Enter the date this form is signed.
- Name & Address of Mailer:** Enter the name and address of the individual whose signature appears in item D1.

## E. Qualitative Statistical Summary (QSS)

This information allows mailers and list processors to evaluate the quality of their address list processed through CASS software before its contents enter the mailstream. A significant number of Highrise default/rural route default matches, although these addresses remain eligible for postal automation rate discounts at this time, increase the costs and reduce the efficient delivery of this mail. Mailer's should research to obtain secondary unit designator address information or highrise addresses and specific box number information for rural route addresses which are coded to default records on the National ZIP + 4 File.

### Highrise Default/RR Default

Entries in this box show the number of addresses that were default matched. Defaults are matches made to addresses that contain invalid/missing secondary address or box information. A highrise default contains the building street address in the primary range field and spaces in the secondary range field. A rural route default contains the route number in the primary name but also has spaces in the primary address range.

### LACSLink® System

Entries in this box show the number of addresses which have been converted through the LACSLink process. LACSLink is a data product provided by the Postal Service to allow addresses that have been converted due to addresses that have been renamed or renumbered, or for 911 emergency systems to be linked with their new address.

### Early Warning System (EWS)

Entries in this box show the number of addresses on the processed address list that are new addresses not in the current U.S. Postal Service® ZIP + 4 File. These addresses are, however, valid addresses as formatted and should not be changed in any way since the U.S. Postal Service will assign ZIP + 4's to these addresses on the next monthly ZIP + 4 File.

### SuiteLink® System

Entries in this box show the number of ZIP+4/DPV confirmed addresses that matched to a highrise default, and the SuiteLink process returned the appropriate suite number. Only SuiteLink enabled software will return a value in this box (*Check with your software vendor for obtaining this option*). These address records are valid delivery points by the U.S. Postal Service. Addresses that are not confirmed by DPV are either new addresses not available on the current Delivery Sequence File, or are not valid and the list holder should further investigate to determine the accuracy of these addresses. Mailers should make every effort to ensure the quality of their address list(s).
