MAKE-UP

MAGIC PRIMERS – the unique concept of colourful pearls suspended in a transparent gel, which after passing through the applicator transform into a fluid. It's a perfect way to make the skin look more attractive and increase its hydration. Primers gently level the skin tone, providing a perfect colour base for every shade and type of foundation. They subtly improve the look of the epidermis, even out and illuminate it gently, giving the skin a radiant glow.

BOOST ME UP

A multifunctional cosmetic closed in a creamy base. Suitable bases for each skin type are perfect for make-up, as well as applied to the face solo. Reach for intensive fixation, make-up extension and protection all in one.
