

Wed 1-11-2023 LANDSCAPING REPORT

MSM-Go Landscaping week #64 (submitted by Monica Alponte)

Started: 6:00am, Finished 10:00am

1. Removed dead Saguaro located in common area along Lessing Lane and hauled away
2. Decreased all 3 irrigation valve timers from 45 min down to 30 (will increased to 2x per day only during summer).

1. Removal: Large dead Saguaro along Lessing Lane:

BEFORE

Large dead Saguaro cut down in sections

AFTER

Saguaro removed and hauled away

- 2 . Decreased all 3 irrigation valve timers from 45 min down to 30 min each now that plant health has been restored from having inoperative valves 2017-2020.

(NOTE: NORMAL USE: Irrigation runs all 3 valve timers year-round 1x per day at 30 min each, but is increased to 2x per day only during summer).
