Countryside Villas Newsletter September 2008

Mid-September Brings Lovely Tucson Weather

Say goodbye to the monsoon storms, nasty humidity, lightning and scary loud thunder which typically begin around July 4th and last through mid-September. Say hello to more moderate temperatures. Mid-September through November generally reward residents with dry days in the 70s, 80s & 90s and nights in the 40s, 50s & 60s. This is a wonderful time to get out and take those healthy outdoor walks and jogs! Go alone, take your dog, or walk with a friend. A good route to take is starting at the entrance of the Villas, then down Camino de Oeste all the way to the end of Lessing Lane. The whole trip up and back is approximately one-half mile total and takes about 10-15 minutes to complete. If you do it twice a day you've accomplished 1 full mile! Top it off with a nice cold glass of ice water when you get home and you're good to go!

HELP KEEP OUR NEIGHBORHOOD BRIGHT AND SAFE!

Please remember to keep your gate light on after dark. It lights the way and makes our neighborhood look very pretty at night.

Do You Know Where Your Cat is?

(when you're not around)

Loose Cat on Joanna Drive

There have been complaints about a male cat hanging around and going into other people's yards on Joanna Drive, and he's also been seen wandering as far as Carolanne Dr. If this is your cat please be a responsible pet owner and a good neighbor and keep him safely indoors. Your neighbors will thank you and so will your cat! Please know that most cats who are not secured indoors end up being caught by bobcats and coyotes then killed and dragged into the desert wash—a terrible fate for a beloved pet. A good idea is to enclose your patio—or—just **keep your cat indoors. THANK YOU!**
